Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley, 2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping's best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao's China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People's Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level

Taking Christianity to China Wayne Flynt, Gerald W. Berkley, 1997-01-30 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result

was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million

China Gothic Anthony E. Clark, 2020-01-06 As China struggled to redefine itself at the turn of the twentieth century nationalism religion and material culture intertwined in revealing ways This phenomenon is evident in the twin biographies of North China's leading Catholic bishop of the time Alphonse Favier 1837 1905 and the Beitang cathedral epicenter of the Roman Catholic mission in China through incarnations that began in 1701 After its relocation and reconstruction under Favier's supervision the cathedral and Favier miraculously survived a two month siege in 1900 during the Boxer Rebellion Featuring a French Gothic Revival design augmented by Chinese dragon shaped gargoyles marble balustrades in the style of Daoist and Buddhist temples and other Chinese aesthetic flourishes Beitang remains an icon of Sino Western interaction Anthony Clark draws on archival materials from the Vatican and collections in France Italy China Poland and the United States to trace the prominent role of French architecture in introducing Western culture and Catholicism to China A principal device was the aesthetic imagined by the Gothic Revival movement of the eighteenth and nineteenth centuries the premier example of this in China being the Beitang cathedral Bishop Favier's biography is a lens through which to examine Western missionaries role in colonial endeavors and their complex relationship with the Chinese communities in which they lived and worked

Wars That Changed History Spencer C. Tucker, 2015-09-22 A thorough study of significant wars throughout history

and their influence on world affairs from the Egyptian Pharaoh Thutmose III's Campaigns during 1479-1425 BCE through the Iraq War of 2003-2011. For hundreds of years wars have played a determining role in history and have decided the rise and fall of civilizations. Many believe that understanding the causes and consequences of warfare may move humankind towards world peace. This selection of the 50 most consequential wars compiled by award-winning military historian Spencer C. Tucker presents each conflict in chronological order and discusses its causes, its course, and its significance in world history. Through thoughtful essays and supporting visual evidence, this reference work examines the types of weapons systems employed and their effects in the field, the roles played by individual leaders such as Alexander the Great, Julius Caesar, Abraham Lincoln, and Adolf Hitler, and the impact of geography and economics on the battlefield. The work includes fascinating information about warfare, addressing subjects such as how transportation and logistics changed the face of war over time, what invention marked the ascendancy of infantry over cavalry, why World War I remains the most important war in the 20th century, and which war killed nearly half of the population of Germany. Each essay includes the latest interpretations of strategy, agendas, and consequences of the featured event.

Women, Sport and Society in Modern China Dong Jinxia, 2004-08-02 Drawing on Chinese sources hitherto unavailable in the West, including official documents and interviews with top athletes, the author explores the rise of Chinese super sportswomen and their relationship with politics, culture, and society before and during the Cultural Revolution and through China's transition to a market economy.

Heaven in Conflict Anthony E. Clark, 2014-12-01 One of the most violent episodes of China's Boxer Uprising was the Taiyuan Massacre of 1900, in which rebels killed foreign missionaries and thousands of Chinese Christians. This first sustained scholarly account of the uprising to focus on Shanxi Province illuminates the religious and cultural beliefs on both sides of the conflict and shows how they came to clash. Although Franciscans were the first Catholics to settle in China, their stories have rarely been explored in accounts of Chinese Christianity. Anthony Clark remedies that exclusion and highlights the roles of Franciscan nuns and their counterparts among the Boxers, the Red Lantern girls, to argue that women's involvement was integral on both sides of the conflict. Drawing on rich archival records and intertwining religious history with political, cultural, and environmental factors, Clark provides a fresh perspective on a pivotal encounter between China and the West.

Mao S.G. Breslin, 2014-06-17 A lucid analysis of Mao as revolutionary general ideologist and astute political manipulator, this introduction to the life and career of Mao Zedong provides an excellent introduction to modern Chinese history and its enigmatic protagonist.

Insurgency and Social Disorder in Guizhou Robert Darrah Jenks, 1994-01-01 Textbooks and general histories of modern China agree that the so-called Miao rebellion constituted one of the major rebellions of the nineteenth century. It lasted for twenty years, caused devastation of such severity that its effects were still obvious to travelers in Guizhou province decades later, and by one account resulted in the deaths of more than four million people. In an impressive presentation of material drawn from local histories, private writings, and official documents, Jenks argues that the Qing

government sought to lay the blame for the turmoil squarely on an ethnic minority it regarded as obstreperous and inferior. As well as altering perceptions of the rebellion, *Insurgency and Social Disorder in Guizhou* enhances our understanding of the causes of the rebellion and its place in the crises that beset mid nineteenth century China. It contributes to the sociology of rebellion and peasant movements and is a valuable supplement to current anthropological work on Chinese minorities. Its treatment of Qing attitudes toward the Miao has implications for minority policies in the Peoples Republic of China today.

Taking Christianity to China Samuel Paul Garner, 1976. Beginning early in the 19th century the American missionary movement made slow headway in China. Alabamians became part of that small beachhead. After 1900 both the money and personnel rapidly expanded, peaking in the early 1920s. By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor. Secular American intellectuals began to criticize missionaries as meddling do-gooders trying to impose American Evangelicalism on a proud ancient culture. By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950, Flynt and Berkley reach a different conclusion. Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen, they quickly learned to respect Chinese civilization. The result was a new synthesis, neither entirely southern nor entirely Chinese. Although previous works focus on the failure of Christianity to change China, this book focuses on the degree to which their service in China changed Alabama missionaries. And the change was profound. In their consideration of 47 missionaries from a single state, their call to missions, preparation for service in China, living, working, contacts back home, cultural clashes, political views, internal conflicts, and gender relations, the authors suggest that the efforts by Baptist, Methodist, and Presbyterian missionaries from Alabama were not the failure judged by many historians. In fact, the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million.

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14. In China, the central government has the political will to control organized crime, which is seen as a national security threat. The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments. The development of prostitution, underground gambling, and narcotics production has become so serious that the central government has to rely on anti-crime campaigns to combat these three evils. This book explores the specific role of government institutions and agencies, notably the police, in controlling organized and cross-border crime in Greater China. Drawing heavily on original empirical data, it compares the both the states of the People's Republic of China and Taiwan, as well as city states Hong Kong and Macao. This region has become increasingly economically integrated, and human interactions have been enhanced through improved trade relations, tourism, and increased individual freedom. The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international

police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly **China in the 1990s** Robert Benewick,Paul Wingrove,1999 Now updated with a chapter length afterword by the editors on the end of the Deng era and its aftermath China in the 1990s provides a comprehensive survey of a nation in transition An understanding of this complex process requires a multidisciplinary and multidimensional approach which the editors have achieved by bringing together experts from Britain the United States Europe Australia and Hong Kong who examine China s economic political military cultural and social achievements and problems The difficulties China still faces are enormous some of them of its own making pollution urban sprawl the insecurity of food supplies the risks of political authoritarianism and the perils of liberalisation Its population is still growing dramatically and is likely to be 1.5 billion by 2015 three times what it was when the P R C was established in 1949 But since embarking on a reform programme which at the time seemed experimental and hard to reconcile with official ideology it has gone from being the sick man of Asia to being one of the world s largest and fastest developing economies in what now looks to be a remarkably effective and well managed transition
