Rebellious Civil Society Popular Protest And Democratic Consolidation In Poland 1989 1993:

Rebellious Civil Society Grzegorz Ekiert, Jan Kubik, 2010-08-04 Poland is the only country in which popular protest and mass opposition epitomized by the Solidarity movement played a significant role in bringing down the communist regime This book the first comprehensive study of the politics of protest in postcommunist Central Europe shows that organized protests not only continued under the new regime but also had a powerful impact on Poland's democratic consolidation Following the collapse of communism in 1989 the countries of Eastern Europe embarked on the gargantuan project of restructuring their social political economic and cultural institutions The social cost of these transformations was high and citizens expressed their discontent in various ways Protest actions became common events particularly in Poland In order to explain why protest in Poland was so intense and so particularized Grzegorz Ekiert and Jan Kubik place the situation within a broad political economic and social context and test it against major theories of protest politics They conclude that in transitional polities where conventional political institutions such as parties or interest groups are underdeveloped organized collective protest becomes a legitimate and moderately effective strategy for conducting state society dialogue The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas They highlight the organized and moderate character of the protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government This book contributes to the literature on democratic consolidation on the institutionalization of state society relationship and on protest and social movements It will be of interest to political scientists sociologists historians and policy advisors Grzegorz Ekiert is Professor of Government Harvard University Jan Kubik is Associate Professor of Political Science Rutgers University

Uncivil Society? Petr Kopecky, Cas Mudde, 2005-08-16 This volume makes a significant contribution to the debate about the development of post communist civil society by focusing on its alleged dark side i e on the groups that are excluded from civil society on both conceptual and normative grounds The chapters written by specialists in the field explore in rich empirical detail the complexities involved when such groups like the skinheads in Hungary the farmers Self Defence movement in Poland or the war veterans in Croatia challenge the state engage in community activism or get involved in protest actions It also offers a contrasting perspective by focusing on similar activities by the alleged pro democratic actors of civil society such as Impulse 99 in the Czech Republic The book maintains that political protest or contentious politics should be included under a broad and positive development of associational activity in the region Uncivil Society Contentious Politics in Post Communist Europe is a fascinating study and will be of interest to scholars of Eastern European politics and history

Austerity and Protest Marco Giugni, Maria Grasso, 2016-04-08 What is the relationship between economic crises and protest behaviour Does the experience of austerity or economic hardship more broadly defined create a greater potential for protest With protest movements and events such as the Indignados and the Occupy Movement receiving a great deal of attention in the media and

in the popular imaginary in recent times this path breaking book offers a rigorously researched evidence based set of chapters on the relationship between austerity and protest In so doing it provides a thorough overview of different theories mechanisms patterns and trends which will contextualize more recent developments and provide a pivotal point of reference on the relationship between these two variables More specifically this book will speak to three crucial long standing debates in scholarship in political sociology social movement studies and related fields The effects of economic hardship on protest and social movements The role of grievances and opportunities in social movement theory The distinction between old and new movements The chapters in this book engage with these three key debates and challenge commonly held views of political sociologists and social movement scholars on all three counts thus allowing us to advance study in the field From Dissent to Democracy Jonathan C. Pinckney,2020 Peaceful protest is a strong driver for democratization across the globe Yet it doesn't always lead to democratic transition as seen in the Arab Spring revolutions in Egypt or Yemen Why do some nonviolent transitions end in democracy while others do not In *From Dissent to Democracy* Jonathan Pinckney systematically examines transitions initiated by nonviolent resistance campaigns and argues that two key factors explain whether or not democracy will follow such efforts First a movement must sustain high levels of social mobilization Second it must direct that mobilization away from revolutionary maximalist goals and tactics and towards support for new institutions Pinckney tests his theory by presenting a global statistical analysis of all political transitions from 1945 2011 and three case studies from Nepal Zambia and Brazil Original and empirically rigorous this book provides new insights into the intersection of democratization and nonviolent resistance and gives actionable recommendations for how to encourage democratic transitions

Staging Democracy Jessica Pisano,2022-07-15 Focusing on the experiences of people in Russia and Ukraine *Staging Democracy* shows how some national leaders seeming popularity rests on local economic compacts Jessica Pisano draws on long term research in rural communities and company towns analyzing how local political and business leaders seeking favor from incumbent politicians used salaries benefits and public infrastructure to pressure citizens to participate in command performances Pisano looks at elections whose outcome was known in advance protests for hire and smaller mises en scene to explain why people participate what differs from spectacle in totalitarian societies how political theater exists in both authoritarian and democratic systems and how such performances reshape understandings of the role of politics *Staging Democracy* moves beyond Russia and Ukraine to offer a novel economic argument for why some people support Putin and similar politicians Pisano suggests we can analyze politics in both democracies and authoritarian regimes using the same analytical lens of political theater

Social Capital in Eastern Europe Katarzyna Lasinska,2013-01-11 Katarzyna Lasinska deals with the consequences of democratic transitions in Middle and Eastern Europe By selecting specific sets of countries according to the main explanations such as Catholic tradition transformation process and communist legacies the author identifies key factors explaining particular findings in Poland Thank to systematically used comparative research

strategy the pitfalls of idiosyncratic argumentation are successfully avoided Through inclusion of religious tradition as an explanative factor the results go beyond the commonly used East West comparisons The author presents a comprehensive picture of complex conditions and different processes for social capital building across Eastern European societies

Poland in the Modern World Brian Porter-Szücs,2014-01-06 Poland in the Modern World presents a history of the country from the late nineteenth century to the present incorporating new perspectives from social and cultural history and positioning it in a broad global context Challenges traditional accounts Poland that tend to focus on national political history emphasizing the country s exceptionalism Presents a lively multi dimensional story balancing coverage of high politics with discussion of social cultural and economic changes and their effects on individuals daily lives Explores both the regional diversity within Poland and the country s place within Europe and the wider world Provides a new interpretive framework for understanding key historical events in Poland s modern history including the experiences of World War II and the postwar communist era

The Oxford Handbook of Political Theory John S Dryzek,Bonnie Honig,Anne Phillips,2008-06-12 Long recognized as one of the main branches of political science political theory has in recent years burgeoned in many different directions Close textual analysis of historical texts sits alongside more analytical work on the nature and normative grounds of political values Continental and post modern influences jostle with ones from economics history sociology and the law Feminist concerns with embodiment make us look at old problems in new ways and challenges of new technologies open whole new vistas for political theory This Handbook provides comprehensive and critical coverage of the lively and contested field of political theory and will help set the agenda for the field for years to come Forty five chapters by distinguished political theorists look at the state of the field where it has been in the recent past and where it is likely to go in future They examine political theory s edges as well as its core the globalizing context of the field and the challenges presented by social economic and technological changes

Religious Persecution and Political Order in the United States David T. Smith,2015-11-12 Religious freedom is a foundational value of the United States but not all religious minorities have been shielded from religious persecution in America This book examines why the state has acted to protect some religious minorities while allowing others to be persecuted or actively persecuting them It details the persecution experiences of Mormons Jehovah s Witnesses Catholics Jews the Nation of Islam and orthodox Muslims in America developing a theory for why the state intervened to protect some but not others The book argues that the state will persecute religious minorities if state actors consider them a threat to political order but they will protect religious minorities if they believe persecution is a greater threat to political order From the beginning of the republic to after 9 11 religious freedom in America has depended on the state s perception of political threats

Women and Gender in Postwar Europe Joanna Regulska,Bonnie G. Smith,2012-03-12 Women and Gender in Postwar Europe charts the experiences of women across Europe from 1945 to the present day Europe at the end of World War II was a sorry testimony to the human condition awash in corpses the

infrastructure devastated food and fuel in such short supply From Soviet Union to the United Kingdom and Ireland the vast majority of citizens on whom survival depended in the postwar years were women This book charts the involvement of women in postwar reconstruction through the Cold War and post Cold War years with chapters on the economic social and political dynamism that characterized Europe from the 1950s onwards and goes on to look at the woman s place in a rebuilt Europe that was both more prosperous and as tension filled as before The chapters both look at broad trends across both eastern and western Europe such as the horrific aftermath of World War II but also present individual case studies that illustrate those broad trends in the historical development of women s lives and gender roles The case studies show difference and diversity across Europe whilst also setting the experience of women in a particular country within the broader historical issues and trends in such topics as work professionalization sexuality consumerism migration and activism The introduction and conclusion provide an overview that integrates the chapters into the more general history of this important period This will be an essential resource for students of women and gender studies and for post 1945 courses

Inequality After the Transition Ekrem Karakoç, 2018-09-26 After the Transition is an all encompassing examination of the origins increase and persistence of inequality in new democracies It challenges the conventional thinking found in much of the democratization inequality literature and offers a new theory It speaks simultaneously to literature of democratization party systems social policy and inequality to explain why democracies are not able to fulfill their promise to the disadvantaged and why they cannot achieve income equality It investigates social policy programs such as pensions unemployment benefits and other social transfers in Poland and the Czech Republic in Post Communist Europe and Turkey and Spain in Southern Europe The volume traces the origins and development of social policy from the formation of nation states to the present and considers how different political regimes whether totalitarian post totalitarian or authoritarian designed welfare policies to prioritize civil servants and the working classes in formal sectors at the expense of the majority poor It then demonstrates how these legacies perpetuate and widen disparities in access to welfare policies and thus income inequality in countries where low mobilization by the poor and unstable party systems prevail This study employs interviews with Polish Czech Turkish and Spanish union leaders bureaucrats and business people while also conducting an original survey in Turkey to dissect the linkage between organized groups and parties Employing a multi method approach two paired case studies on these countries also demystify why and how new populist parties have successfully appealed to voters and affected the trajectory of social policy party systems and inequality Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center

for the Study of Democracy Leuphana University and Susan Scarrow John and Rebecca Moores Professor of Political Science University of Houston

From Elections to Democracy Susan Rose-Ackerman, 2005 The countries of Central Europe in the first round for admission to the European Union have all established constitutional electoral democracies and market economies However much remains to be done to achieve fully consolidated democratic states This study documents the weaknesses of public oversight and participation in policymaking in Hungary and Poland two of the most advanced countries in the region It discusses five alternative routes to accountability including European Union oversight constitutional institutions such as presidents and courts devolution to lower level governments the use of neo corporatist bodies and open ended participation rights It urges more emphasis on the fifth option public participation Case studies of the environmental movement in Hungary and of student groups in Poland illustrate these general points The book reviews the United States experience of open ended public participation and draws some lessons for the transition countries from the strengths and weaknesses of the American system

Civil Society and Gender Justice Karen Hagemann, Sonya Michel, Gunilla-Friederike Budde, 2008 Civil society and civic engagement have increasingly become topics of discussion at the national and international level The editors of this volume ask does the concept of civil society include gender equality and gender justice Or to frame the question differently is civil society a feminist concept Conversely does feminism need the concept of civil society This important volume offers both a revised gendered history of civil society and a program for making it more egalitarian in the future An interdisciplinary group of internationally known authors investigates the relationship between public and private in the discourses and practices of civil societies the significance of the family for the project of civil society the relation between civil society the state and different forms of citizenship and the complex connection between civil society gendered forms of protest and nongovernmental movements While often critical of historical instantiations of civil society all the authors nonetheless take seriously the potential inherent in civil society particularly as it comes to influence global politics They demand however an expansion of both the concept and project of civil society in order to make its political opportunities available to all

Politics and Policies of Rural Authenticity Pavel Pospěch, Eirik Magnus Fuglestad, Elisabete Figueiredo, 2021-09-30 This book explores the notion of rurality and how it is used and produced in various contexts including within populist politics which derives their legitimacy from the rural urban divide The gap between the common people and the elites is widening again as images of rurality are promoted as morally pure unalienated and opposed to the cultural and economic globalization This book examines how using certain images and projections of rurality produces rural authenticity a concept propagated by various groups of people such as regional food producers filmmakers policymakers and lobbyists It seeks to answer questions such as What is the rurality that these groups of people refer to How is it produced What are the purposes that it serves Research in this book addresses these questions from the areas of both politics and policies of the authentic rural The politics refers to polarizations including politicians social

movements and political events which accentuate the rural urban divide and brings it back to the core of the societal conflict while the policies focus on rural tourism heritage industry popular art and other areas where rurality is constantly produced and consumed With international case studies from leading scholars in the field of rural studies the book will appeal to geographers sociologists politicians as well as those interested in the re emergence of the rural urban divide in politics and media Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Social Capital and the Transition to Democracy Gabriel Badescu, Eric Uslaner, 2004-06 This edited collection presents the latest quantitative research on how post communist countries are adapting to Western models of society

The Routledge Handbook of Autocratization Aurel Croissant, Luca Tomini, 2024-05-14 The Routledge Handbook of Autocratization comprehensively and systematically explores the current understanding and uncharted research paths of autocratization With wide reaching regional coverage and expert analysis from Asia North and South America Europa the Middle East and North Africa this handbook reveals cross country and cross regional analysis and insights and presents in depth explanations and consequences of autocratization Arranged in five thematic parts chapters explore the basic aspects of conceptualization theorization and measurement of autocratization the role of various political and non political actors as perpetrators supporters bystanders or defenders of democracy against autocratization processes and the consequences across various policy fields Showcasing cutting edge research developments the handbook illustrates the deeply complex nature of the field examining important topics in need of renewed consideration at a time of growing concerns for democracy and the global spread of authoritarian challenges to democracy The Routledge Handbook of Autocratization will be a key reference for those interested in and studying authoritarianism democratization human rights governance democracy and more broadly comparative politics and regional area studies Chapter 2 and Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 International license chapter 2 and Creative Commons Attribution CC BY 4 0 International license Chapter 11

Routledge Handbook of European Sociology Sokratis Koniordos, Alexandros Kyrtsis, 2014-09-04 The Routledge Handbook of European Sociology provides over forty original groundbreaking state of the art accounts each expert contribution teasing out the distinctively European features of the sociological theme it explores The Handbook is divided in four parts intellectual and institutional settings regional variations thematic variations and European concerns

Dissident Legacies of Samizdat Social Media Activism Piotr Wciślik, 2021-07-22 This book tells the story of the dissident imaginary of samizdat activists the political culture they created and the pivotal role that culture had in sustaining the resilience of the oppositional movement in Poland between 1976 and 1990 This unlicensed print culture has been seen as one of the most emblematic social worlds of dissent Since the Cold War the audacity of harnessing obsolete print technology known as

samizdat to break the modern monopoly of information of the party state has fascinated many yet this book looks beyond the Cold War frame to reappraise its historical novelty and significance What made that culture resilient and rewarding this book argues was the correspondence between certain set of ideas and media practices namely the form of samizdat social media which both embodied and projected the prefigurative philosophy of political action asserting that small forms of collective agency can have a transformative effect on public life here and now and are uniquely capable of achieving a democratic new beginning This prefigurative vision of the transition from communism had a fundamental impact on the broader oppositional movement Yet while both the rise of Solidarity and the breakthrough of 1989 seemed to do justice to that vision both pivotal moments found samizdat social media activists making history that was not to their liking Back in the day their estrangement was overshadowed by the main axis of contention between the society and the state Foregrounding the internal controversies they protagonized this book adds nuance to our understanding of the broader legacy of dissent and its relevance for the networked protests of today *Philosophy, Society and the Cunning of History in Eastern Europe* Costica

Bradatan,2013-09-13 *Philosophy Society and the Cunning of History in Eastern Europe* charts the intellectual landscape of twentieth century East Central Europe under the unifying theme of precariousness as a mode of historical existence Caught between empires often marked by catastrophic historic events and grand political failures the countries of East Central Europe have for a long time developed a certain intellectual self representation a culture that not only helps them make some sense of such misfortunes but also protects them somehow from a collapse into nihilism An interdisciplinary study of this sophisticated culture of survival and endurance has been long overdue Not only is it charming and worth studying in its own right but with the re integration of the new Europe into the old one and the emergence on the Western European intellectual scene of many authors from the East such a culture will also shape the European mind of the 21st century This volume decodes and explores this culture of precariousness from the complementary angles of philosophy political theory intellectual history and literary studies Expert contributors look at a wide range of topics from philosophical martyrdom to collective suffering to geographical fatalism and explore the works of key authors in the field including Cioran Ko akowski Kert sz Bauman and i ek This book was originally published as a special issue of Angelaki The Journal of the Theoretical Humanities

Ethnic Struggle, Coexistence, and Democratization in Eastern Europe Sherrill Stroschein,2012-05-28 Argues that protest by ethnic Hungarians in Romania and Slovakia brought about policy changes and integrated Hungarian minorities into the democratic process
