The Struggle for Power in Early Modern Europe Daniel H. Nexon, 2009-04-20 Looks at the pivotal events of the sixteenth and seventeenth centuries including the Schmalkaldic War the Dutch Revolt and the Thirty Years War This book argues that early modern composite political communities had more in common with empires than with modern states Resistance in

the Iberian Worlds from the Fifteenth to the Eighteenth Century Pablo Sánchez León, Benita Herreros Cleret de Langavant, 2024-10-01 This book highlights the broad scope and span of resistance as a contentious practice in the early modern Iberian world. In this context from the late Middle Ages onwards resistance rooted in the political and legal language of the old regime that provided agents with legitimacy and resources for their actions occurred mainly within the established jurisdictional system. These resources for litigation and demand made resistance a widespread kind of contesting practice related to wider protests. The authors assess the wide array of actions developed by individuals and communities to preserve their rights and identities demonstrating how the Portuguese and Hispanic polities and their colonial possessions experienced resistance from below over a long period of change that marked the rise of more complex communities and institutional systems. This book offers a comprehensive overview of the variety of forms and expressions of resistance developed in different social, cultural and territorial contexts thus shedding additional light on the relationship between order and conflict within early modern European empires. In this startlingly brilliant sequel to the prize-winning *ENLIGHTENMENT*, Roy Porter completes his lifetime's work offering a magical, enthusiastic and charming account of the writings of some of the most attractive figures ever to write English.

The Oldest Trick in the Book Ben M. Debney, 2020-07-03 This book investigates the normalisation of blame shifting within ideological discourse as a broad feature of history, working from Churchill's truism that history is written by the victors. To that end, it explores historical episodes of political persecution carried out under cover of moral panic, highlighting the process of Othering common to each and theorising a historical model of panic-driven scapegoating from the results. Building this model from case studies in witch panic, communist panic and terrorist panic respectively, *The Oldest Trick in the Book* builds an argument that features common to each case study reflect broader historical patterning consistent with Churchill's maxim. On this basis, it argues that the periodic construction of bogeymen or folk demons is a useful device for enabling the kind of victim playing and victim blaming critical to protecting elite privilege during periods of crisis and that in being a recurring theme, historically panic-driven scapegoating retains great ongoing value to the privileged and powerful and thus conspicuously remains an ongoing feature of world politics.

Potential History Ariella Aisha Azoulay, 2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share from one of our most compelling political theorists In this theoretical tour de force renowned scholar Ariella A sha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences Azoulay argues that the institutions that make our world from archives and museums to ideas of sovereignty and human rights to history itself are all dependent on imperial modes of thinking Imperialism has segmented populations into differentially governed groups continually emphasized the possibility of progress while it tries to destroy what came before and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums By practicing what she calls potential history Azoulay argues that we can still refuse the original imperial violence that shattered communities lives and worlds from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Leopold II from dispossessed Palestinians in 1948 to displaced refugees in our own day In *Potential History* Azoulay travels alongside historical companions an old Palestinian man who refused to leave his village in 1948 an anonymous woman in war ravaged Berlin looted objects and documents torn from their worlds and now housed in archives and museums to chart the ways imperialism has sought to order time space and politics Rather than looking for a new future Azoulay calls upon us to rewind history and unlearn our imperial rights to continue to refuse imperial violence by making present what was invented as past and making the repair of torn worlds the substance of politics

The Village and the Outside

World in Golden Age Castile David E. Vassberg, 2002-11-28 This 1996 book based upon a vast range of documentary and secondary sources shatters the disproven but persistent myth of the closed immobile village in the early modern period It demonstrates that even in traditionalist Castile pre industrial village society was highly dynamic with continuous inter village inter regional and rural urban migration The book is rich in human detail with many vignettes of everyday life Professor Vassberg examines such topics as fairs and markets the transportation infrastructure rural artisans and craftsmen relations with the state and life cycle service The approach is interdisciplinary and pays special attention to how rural families dealt with economic and social problems The rural Castile that emerges is a complex society that defies easy generalizations but one which is unquestionably part of the general European reality

Grendler, 1999 **Community without Borders: Scots Migrants and the Changing Face of Power in the Dutch Republic, c. 1600-1700** Douglas Catterall, 2021-10-25 This is a valuable book for anyone interested in the cultural meaning of preindustrial migration Arguing that early modern European migrants could fundamentally influence their fate and their adopted communities it explores the world of Scots migrants to the Dutch port of Rotterdam c 1600 1700 The heart of the study is a reconstruction of the social networks that Scots used to establish and sustain themselves in Rotterdam drawn from unusually rich narrative sources Through their social ties Scots also told stories and kept memories as they created complex identities encompassing Rotterdam Scotland and places further afield By shaping their relationships to Rotterdam Scots had a broad impact on their adopted home Their actions helped change Rotterdam s political religious and legal fabric and even tied Rotterdam to the wider Atlantic world Northern Revolts Kimmo Katajala, 2004 Peasant revolts are a permanent topic of keen interest and discussion in the historical and social sciences This book presents a real time picture of medieval and early modern Nordic peasant movements The Nordic patterns of peasant contention differ greatly from those of Continental European and are little known outside the Nordic countries Revolt and unrest in all five present day Nordic countries Denmark Finland Iceland Norway and Sweden are presented here The great peasant wars of Sweden and Denmark are compared and contrasted with the usually more modest disturbances of peripheral Norway and Finland Pre modern Icelandic history is interpreted from the perspective of social conflict for the first time The emphasis is on analysing the pattern of contentious peasant politics The keys words are political culture forms of protest and the organising principles of peasant contention The book describes how changes in society affected the forms of peasant resistance Studying grass roots peasant movements brings the Nordic peasant of days gone by into the centre stage of historical analysis **Revueltas y revoluciones en la historia** Julio (et al.)
