**Somalia Redux?** Matt Bryden, 2013-09-10 The Somali Federal Government SFG established in August 2012 has been widely welcomed as Somalia's first post transition government receiving breathlessly upbeat media coverage and plaudits from the international community Matt Bryden argues in this report that these buoyant judgments are based on highly selective appraisals of the situation The SFG remains frail and embattled Furthermore there are major question marks over its inclusiveness and its relationships with other Somali authorities and factions Less than a year into the SFG's mandate hope and optimism are steadily giving way to polarization acrimony and fears of renewed violence

definition dedicated to the study of distant civilizations in their traditional and contemporary forms But there is a larger aspiration the comparative study of all human societies in the light of those challengingly unfamiliar beliefs and customs that expose our own ethnocentric limitations and put us in our place within the wider gamut of the world's civilizations

Thematically guided by social setting and cultural expression of identity *Social and Cultural Anthropology in Perspective* is a dynamic and highly acclaimed introduction to the field of social anthropology which also examines its links with cultural anthropology A challenging new introduction critically surveys the latest trends pointing to weaknesses as well as strengths Presented in a clear lively and entertaining fashion this volume offers a comprehensive and up to date guide to social anthropology for use by teachers and students Skillfully weaving together theory and ethnographic data author Ioan M Lewis advocates an eclectic approach to anthropology He combines the strengths of British structural functionalism with the leading ideas of Marx Freud and Levi Strauss while utilizing the methods of historians political scientists and psychologists One of Lewis particular concerns is to reveal how insights from traditional cultures illuminate what we take for granted in contemporary industrial and post industrial society He also shows how in the pluralist world in which we live those who study other cultures ultimately learn about themselves Social anthropology is thus shown to be as relevant today as it has been in the past
