Rebuilding Societies After Civil War Critical Roles For International Assistance:

Rebuilding Societies After Civil War Krishna Kumar, 2023 The authors seek to identify ways in which international aid to war torn societies can best promote political stability and economic growth *Postconflict Elections, Democratization, and International Assistance* Krishna Kumar, 1998 The third in a series of publications coming out of the ongoing evaluation studies at USAID's Center for Development Information and Evaluation Based on the hypothesis that elections in a postconflict setting are fundamentally different from those organized under normal circumstances 13 contributions examine the planning organization conduct and execution of such elections the critical roles played by international donors and the longer term outcomes particularly their impact on political and social reconciliation Paper edition unseen 19 95 Annotation copyrighted by Book News Inc Portland OR *Beyond Reconstruction in Afghanistan* J. Montgomery, D. Rondinelli, 2004-04-23 The interaction of failed states terrorism and the need for nation building is at the top of the international agenda with particular focus on Afghanistan and Iraq This path breaking collection brings together top analysts to examine the goals and challenges facing efforts to reconstruct states that have collapsed into anarchy or have been defeated in war Drawing on lessons from 50 years of past experience with post conflict reconstruction and development around the world the authors provide historical context identify difficulties that can impede progress and recognize the realistic limitations of ambitions to create new states They assess ongoing development plans in a country devastated by more than a century of conflict Throughout particular attention is paid to the interaction of the goals of external and domestic actors highlighting the importance of understanding the internal social economic and political environment of the society receiving assistance Explaining Postconflict Reconstruction Desha M. Girod, 2015 The international community has donated nearly one trillion dollars during the last four decades to reconstruct post conflict countries and prevent the outbreak of more civil war Yet reconstruction has eluded many of these countries and 1 9 million people have been killed in reignited conflict Where did the money go This book documents how some leaders do bring about remarkable reconstruction of their countries using foreign aid but many other post conflict leaders fail to do so Offering a global argument that is the first of its kind Desha Girod explains that post conflict leaders are more likely to invest aid in reconstruction when they are desperate for income and thus depend on aid that comes with reconstruction strings attached Leaders are desperate for income when they lack access to rents from natural resources or to aid from donors with strategic interests in the country Using data on civil wars that ended between 1970 and 2009 and evidence both from countries that succeeded and from countries that failed at post conflict reconstruction Girod carefully examines the argument from different perspectives and finds support for it The findings are important for theory and policy because they explain why only some leaders have the political will to meet donor goals in the wake of civil war The findings also shed light on state building processes and on the political economy of postconflict countries Paradoxically donors are most likely to achieve reconstruction goals in countries

where they have the least at stake **Transitional Justice and Rule of Law Reconstruction** Padraig McAuliffe, 2013-06-26 This short and accessible book is the first to focus exclusively on the inter relation between transitional justice and rule of law reconstruction in post conflict and post authoritarian states In so doing it provides a provocative reassessment of the various tangled relationships between the two fields exploring the blind spots contradictions and opportunities for mutually beneficial synergies in practice and scholarship between them Though it is commonly assumed that transitional justice for past human rights abuses is inherently conducive to restoring the rule of law differences in how both fields conceptualise the rule of law the scope of transition and obligations to citizens have resulted in divergent approaches to transitional criminal trial international criminal law restorative justice and traditional justice mechanisms Adopting a critical comparative approach that assesses the experiences of post authoritarian and post conflict polities in Latin America Asia Europe and Africa undergoing transitional justice and justice sector reform simultaneously it argues that the potential benefits of transitional justice are exaggerated and urges policy makers to rebalance the compromises inherent in transitional justice mechanisms against the foundational demands of rule of law reconstruction This book will be of interest to scholars in the fields of transitional justice rule of law legal pluralism and peace building concerned by the failure of transitional justice to leave a positive legacy to the justice system of the states where it operates This is a bold and nuanced scrutiny of the international system's approach to transitional justice and the much vaunted rule of law project Dr McAuliffe should be congratulated for this well researched book which should be a must read for not only scholars and researchers in transitional justice and peace and conflict studies but also policy makers in the international system Dr Hakeem O Yusuf Senior Lecturer University of Strathclyde and author of Transitional Justice Judicial Accountability and the Rule of Law **Civil War and Democracy in West Africa** David Harris, 2011-12-13 In the aftermath of explosive civil wars in Africa during the 1990s and 2000s the establishment of multi party elections has often been heralded by the West as signaling the culmination of the conflict and the beginning of a period of democratic rule However the outcomes of these elections are very rarely uniform with just as many countries returning to conflict as not Here David Harris uses the examples of Sierra Leone and Liberia to examine the nexus of international and domestic politics in these post conflict elections In doing so he comes to the conclusion that it is political rather than legal solutions that are more likely to enhance any positive political change that has emerged from the violence This book is thus of significance to Western and African policy makers and also to students and scholars who wish to engage with the critical issues of conflict resolution and reconciliation both in Sierra Leone and Liberia in particular and in the wider region in general **Ethics and Security in Canadian Foreign Policy** Rosalind Irwin, 2002 An analysis of the ever evolving nexus of ethics security and international relations Organized thematically the chapters include theoretical and policy relevant commentaries on Canadian nuclear policy democratization human rights economic development peacekeeping and more **Globalization and Challenges to**

The Credibility Challenge Inken von Borzyskowski,2019-06-15 The key to the impact of international election support is credibility credible elections are less likely to turn violent So argues Inken von Borzyskowski in The Credibility Challenge in which she provides an explanation of why and when election support can increase or reduce violence Von Borzyskowski answers four major questions Under what circumstances can election support influence election violence How can election support shape the incentives of domestic actors to engage in or abstain from violence Does support help reduce violence or increase it And which type of support observation or technical assistance is better in each instance The Credibility Challenge pulls broad quantitative evidence and qualitative observations from Guyana Liberia Kenya Sierra Leone and Bangladesh to respond to these questions Von Borzyskowski finds that international democracy aid matters for election credibility and violence outside observers can exacerbate postelection violence if they cast doubt on election credibility and technical assistance helps build electoral institutions improves election credibility and reduces violence Her results advance research and policy on peacebuilding and democracy promotion in new and surprising ways **Wake Up, Hanna!** Amanuel

Mehreteab,2004 In the 1990s after 30 years of war with neighbouring Ethiopia Eritrea won its independence and embarked on the monumental task of reconstruction At the heart of this effort was the quest of hundreds of thousands of returning refugees and demobilised soldiers who hoped to make new lives for themselves and their families This book examines through first hand accounts the obstacles these returnees mainly women faced He also looks at the role of the new government and aid organisations in the process and explores how gender issues had an impact Handbook of Peace and Conflict Studies Charles Webel,Johan Galtung,2007-03-12 This major new Handbook provides a cutting edge and transdisciplinary overview of the main issues debates state of the art methods and key concepts in peace and conflict studies today The Handbook of Peace and Conflict Studies will be essential reading for students of peace studies conflict studies and conflict resolution It will also be of interest and use to practitioners in conflict resolution and NGOs as well as policy makers

and diplomats *European Security* Bjørn Møller, 2016-04-22 Europe has undergone quite profound changes since the end of the Cold War Having been a highly militarised conflict ridden and war ridden region the core of Europe today constitutes a security community where armed conflicts among the constituent states has become inconceivable This comprehensive book offers a theoretically founded and thoroughly documented analysis of European security with a special emphasis on the role played by the United Nations and the various regional and sub regional organisations especially the North Atlantic Treaty Organisation the Organisation for Security and Cooperation in Europe the Council of Europe and the European Union When it comes to explaining peace in Europe opinions differ widely Some argue that it was only because the West refused to give in to Soviet threats that the latter eventually gave up or that the long peace in Europe was due to the combination of a bipolar alliance structure pitting the North Atlantic Treaty Organisation NATO against the Warsaw Pact with the presence of nuclear weapons on both sides Others point instead to the extraordinarily dense network of international institutions and organisations in Europe offering a wide panoply of fora in which to handle disputes peacefully or to the web of interdependence in economic and other affairs tying together all states in Europe in relations which militate strongly against war Still others believe that the external peace between the states in Europe is simply a reflection of a convergence of cultures democracies with marked economies that are open towards the world market These questions are the focal point of this book which concentrates on security albeit not in the sense of being a treatise on military matters but security obtainable by much more indirect and non military means It will be required reading for all students and scholars of European security and the organisations which underpin it **Decentralizing Governance** G. Shabbir Cheema, Dennis A.

Rondinelli, 2007-08-01 The trend toward greater decentralization of governance activities now accepted as commonplace in the West has become a worldwide movement This international development largely a product of globalization and democratization is clearly one of the key factors reshaping economic political and social conditions throughout the world Rather than the top down centralized decisionmaking that characterized communist economies and Third World dictatorships in the twentieth century today s world demands flexibility adaptability and the autonomy to bring those qualities to bear In this thought provoking book the first in a new series on Innovations in Governance experts in government and public management trace the evolution and performance of decentralization concepts from the transfer of authority within government to the sharing of power authority and responsibilities among broader governance institutions This movement is not limited to national government it also affects subnational governments NGOs private corporations and even civil associations The contributors assess the emerging concepts of decentralization e g devolution empowerment capacity building and democratic governance They detail the factors driving the movement including political changes such as the fall of the Iron Curtain and the ascendance of democracy economic factors such as globalization and outsourcing and technological advances e g increased information technology and electronic commerce Their analysis covers many different

contexts and regions For example William Ascher of Claremont McKenna College chronicles how decentralization concepts are playing out in natural resources policy while Kadmeil Wekwete United Nations outlines the specific challenges to decentralizing governance in sub Saharan Africa In each case contributors explore the objectives of a decentralizing strategy as well as the benefits and difficulties that will likely result *21st Century Political Science: A Reference Handbook* John T Ishiyama, Marijke Breuning, 2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions

Kendall, Chas Morrison, J. Martin Ramirez, 2014-06-30 Conflict Violence Terrorism and their Prevention provides an inter disciplinary and global perspective on aspects of aggression and violence It explores the individual group and international processes and conditions by which violent conflict occurs It shows the wide range and diffuse nature of contemporary violence and the need to approach it from many disciplines The book also examines some multi faceted solutions and responses to conflict The optimistic conclusion from this work is that there are concrete and specific ways to address conflict and violence Violence is neither inevitable nor innately determined These 13 well researched chapters use a variety of empirical and theoretical approaches drawn from psychology political science and anthropology Its topics include terrorism education peace studies and conflict resolution Experts from eight countries share their findings and offer a comprehensive overview of violence and responses to it The book builds on current thinking regarding causal factors such as inequality exclusion lack of opportunity or grievance It broadens the conceptualization of the phenomena and links it with tangible measures that reduce conflict and promote peace This book is an important source for researchers and students of

conflict violence and peace It is accessible to anyone with broad interests in studying aggressive behavior and methods of reducing it *The Politics of Post-War Demobilisation and Reintegration in Nigeria* Olukunle Ojeleye, 2016-02-24 With an increasing international interest in post civil war demobilisation and reintegration especially in Africa Ojeleye presents a well timed body of knowledge on the Nigerian civil war Moreover this book provides an in depth study of the modalities and processes of the demobilisation and reintegration exercises carried out at the end of the Nigerian civil war and assesses their implications for national politics in the West African nation The author identifies the political socio economic and cultural background to the Nigerian civil war and discusses the central theme of demobilisation disarmament and reintegration DDR in Nigeria against the backdrop of the policy of the country s post war reconstruction reconciliation and rehabilitation exercise the 3Rs Though the central theme is Nigeria it compares the demobilisation and reintegration exercise in Nigeria with other attempts in Sub Sahara Africa by highlighting the important deviations and drawing some conclusions on the Nigerian experience It also touches on issues relating to international involvement and intervention in civil wars and the roles of the African Union the Commonwealth of Nations and the United Nations
