

## **PRÁCTICA 2: ANÁLISIS DE RECURSOS EDUCATIVOS**

La práctica la voy a vertebrar en describir las ventajas de cada uno de los recursos y finalmente haré una relación de desventajas, ya que en general, a mi modo de ver tienen las mismas desventajas unas con otras. En general una de las ventajas más importantes es que rompe con la inercia de la clase tradicional y ese agente es el principal motivador para el alumnado.

### **PDI – PIZARRA DIGITAL INTERACTIVA (SMART o STARBOARD):**

Estos recursos llevan poco tiempo entre nosotros, pero es una herramienta para el docente que permite al alumno y al profesor aprovecharse del software instalado para muchas aplicaciones educativas. La ventaja principal que tiene este y el resto de recursos, es la motivación inicial por parte del alumnado ante el uso de las nuevas tecnologías, ya que pasan de la pizarra tradicional a un soporte en el que el estudiante puede interactuar mediante gráficos, vídeos, imágenes... Lo que hace que el alumno se muestre más animado a participar.

Otra ventaja es que este dispositivo tiene todo incluido, es decir, cuando debes de usar el transportador de ángulos, debes ir al departamento a buscarlo, lo mismo ocurre con los mapas y así con muchas otras utilidades que se deben de tener preparadas en el aula según la programación, mientras que el software te permite el uso de estas herramientas al instante.

El uso de este dispositivo que te permite la grabación de la clase, que puede servir, para cuando van a sustituirte, o para que los alumnos puedan ver ese archivo en casa es otra ventaja más de las múltiples que tiene este recurso.

### **POWERPOINT - PREZI:**

Me voy a centrar en estos dos recursos ya que son los que más he usado. El enfoque inicial es el pase de diapositivas, para que el alumnado pueda apreciar contenidos del tema que se esté tratando en el aula. Por mi parte, es una herramienta muy buena para la asignatura de conocimiento del medio en particular y el resto de asignaturas en general.

Gracias a estos software que permiten incluir no solo imágenes para hacer por ejemplo carteles, también puede incluir vídeos y enlaces a webs para las presentaciones. Haciendo que
