**RECENT BRITISH PHILOSOPHY** David 1822-1907 Masson, 2016-08-28

**British Philosophy in the Seventeenth Century** Sarah Hutton, 2015 Sarah Hutton presents a rich historical study of one of the most fertile periods in modern philosophy It was in the seventeenth century that Britain s first philosophers of international stature and lasting influence emerged Its most famous names Hobbes and Locke rank alongside the greatest names in the European philosophical canon Bacon too belongs with this constellation of great thinkers although his status as a philosopher tends to be obscured by his status as father of modern science The seventeenth century is normally regarded as the dawn of modernity following the breakdown of the Aristotelian synthesis which had dominated intellectual life since the middle ages In this period of transformational change Bacon Hobbes Locke are acknowledged to have contributed significantly to the

shape of European philosophy from their own time to the present day But these figures did not work in isolation Sarah Hutton places them in their intellectual context including the social political and religious conditions in which philosophy was practised She treats seventeenth century philosophy as an ongoing conversation like all conversations some voices will dominate some will be more persuasive than others and there will be enormous variations in tone from the polite to polemical matter of fact intemperate The conversation model allows voices to be heard which would otherwise be discounted Hutton shows the importance of figures normally regarded as minor players in philosophy e g Herbert of Cherbury Cudworth More Burthogge Norris Toland as well as others who have been completely overlooked notably female philosophers Crucially instead of emphasizing the break between seventeenth century philosophy and its past the conversation model makes it possible to trace continuities between the Renaissance and seventeenth century across the seventeenth century and into the eighteenth century while at the same time acknowledging the major changes which occurred
