## **Recent Researches In Sikhism:**

**Recent Researches in Sikhism**, 1992 Contributed articles outcome of seven joint conferences held at Canada and U S A 1990 *International Bibliography of Sikh Studies* Rajwant Singh Chilana, 2006-01-16 The International Bibliography of Sikh Studies brings together all books composite works journal articles conference proceedings theses dissertations project reports and electronic resources produced in the field of Sikh Studies until June 2004 making it the most complete and up to date reference work in the field today One of the youngest religions of the world Sikhism has progressively attracted attention on a global scale in recent decades An increasing number of scholars is exploring the culture history politics and religion of the Sikhs The growing interest in Sikh Studies has resulted in an avalanche of literature which is now for the first time brought together in the International Bibliography of Sikh Studies This monumental work lists over 10 000 English language publications under almost 30 subheadings each representing a subfield in Sikh Studies The Bibliography contains sections on a wide variety of subjects such as Sikh gurus Sikh philosophy Sikh politics and Sikh religion Furthermore the encyclopedia presents an annotated survey of all major scholarly work on Sikhism and a selective listing of electronic and web based resources in the field Author and subject indices are appended for the reader s convenience **Sikh Religion, Culture and Ethnicity** Arvind-Pal S. Mandair, Christopher Shackle, Gurharpal Singh, 2013-12-16 This book brings together new approaches to the study of Sikh religion culture and ethnicity being pursued in the diaspora by Sikh academics in western universities in Britain and North America An important aspect of the volume is the diversity of topics that are engaged including film and gender theory theology hermeneutics deconstruction semiotics and race theory and brought to bear on the individual contributors specialism within Sikh studies thereby helping to explode previously static dichotomies such as insider vs outsider or history vs tradition The volume should have strong appeal both to an academic market including students of politics religious studies and South Asian studies and to a more general English speaking Sikh readership **Religion and the Specter of the West** Arvind-Pal S. Mandair, 2009-10-23 Arguing that intellectual movements such as deconstruction postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central Through a case study of Sikhism he launches an extended critique of religion as a cultural universal At the same time he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries India s imperial elite subtly recast Sikh tradition as a sui generis religion which robbed its teachings of their political force In turn Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism Rather than investigate these processes in isolation from Europe Mandair shifts the focus closer to the political history of ideas thereby recovering part of Europe s repressed colonial memory Mandair rethinks the intersection of religion

and the secular in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena
