A. thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding

Revenge of the Domestic Donna Harsch, 2018-06-26 *Revenge of the Domestic* examines gender relations in East Germany from 1945 to the 1970s focusing especially on the relationship between ordinary women the Communist Party and the state created by the Communists the German Democratic Republic GDR The book weaves together personal stories from interviews statistical material and evidence from archival research in Berlin Potsdam Leipzig Merseburg and Chemnitz to reconstruct the complex interplay between state policy toward women and the family on the one hand and women's reactions to policy on the other Donna Harsch demonstrates that women resisted state decisions as citizens wageworkers mothers wives and consumers and that in every guise they maneuvered to overcome official neglect of the family As state dependence on female employment increased the book shows the Communists began to respond to the

insistence of women that the state pay attention to the family In fits and starts the party state begrudgingly retooled policy in a more consumerist and family oriented direction This domestication was partial ambivalent and barely acknowledged from above It also had ambiguous arguably regressive effects on the private gender arrangements and attitudes of East Germans Nonetheless the economic and social consequences of this domestication were cumulatively powerful and the book argues gradually undermined the foundations of the GDR
