*A Deadly Art: European Crossbows, 1250–1850* Breiding, Dirk H., 2013. The advent of the crossbow more than 2,500 years ago effected dramatic changes for hunters and warriors. For centuries it was among the most powerful and widely used handheld weapons, and its popularity endures to this day. *A Deadly Art* presents a lively accessible survey of the crossbow's golden age along with detailed descriptions of twenty-four remarkable examples. Beginning in the middle ages, the European aristocracy's enthusiasm for the crossbow heralded shooting competitions and pageants that featured elaborately decorated weapons bearing elegant embellishments of rare materials and prized artistry. In addition to being highly functional, these weapons were magnificent works of art. *A Deadly Art* includes fascinating descriptions of crossbows used by Margaret of Savoy and Holy Roman Emperors Maximilian I and Charles V among others.

Publisher's description: [The Life and Work of Martin Johnson Heade](#) Theodore E. Stebbins, Janet L. Comey, Martin Johnson Heade, Karen E. Quinn, 2000-01-01. Martin Johnson Heade was one of the most significant American painters of the nineteenth century, creator of portraits, history and genre pictures, still lifes, ornithological studies, landscapes, and marines, and his own unique orchid and hummingbird compositions. This book brings a perspective to Heade and his works, presenting him as one of the most original and productive painters of his time. Theodore Stebbins builds on his acclaimed 1975 study of Heade, drawing on several newly discovered collections of Heade's letters and the painter's own Brazilian journal. Stebbins tells of Heade's training and early career as an itinerant portraitist and discusses his move to New York, where under the influence of Frederic E. Church he began painting landscapes and seascapes. He examines Heade's relationships with patrons and dealers, writers, and scientists, and he sheds new light on Heade's trips to Brazil, to the Central American tropics, and to London. And he describes Heade's move to Florida in 1883, which marked not his retirement but a final period of creativity that lasted until his death in 1904. The book includes not only an examination of Heade's life and works but also reproductions of all his 620 known paintings, including nearly 250 that have been discovered since 1975.
