## **Recent Social Trends In Quebec 1960 1990:**

*Recent Social Trends in Quebec, 1960-1990* Simon Langlois, Baillargeon, 1992-02-05 Readers will follow an intense period of social change in Quebec during which there was a remarkable increase in the level of modernization They will note a massive entry of women into the labour force and a growing service sector that now constitutes seventy percent of all economic activity They will observe also that the Qu b cois have dramatically increased their television viewing and that while they express a generally high level of satisfaction with life the Qu b cois must contend with escalating crime and suicide rates

**Changing Structures of Inequality** Yannick Lemel, Heinz Noll, 2002-05-02 Changing Structures of Inequality examines these questions in a new comparative perspective covering five national societies Canada France Germany Spain and the United States The authors offer a deed analysis of country specific research traditions in the fields of class analysis and social stratification revealing important conceptual differences which have consequences for the diagnoses They present the results of substantial compa rative studies on different aspects of inequality in developed societies the inequality of income and wealth educational inequalities status crystallization migration and inequality gender inequality and the structuring effect of social class highlighting similarities as well as substantial differences between the societies under examination The authors offer a nuanced con clusion that puts in perspective the different topics of this contemporary debate Developed societies are now characterized by more dynamic and pluralistic structures of inequalities where classes have lost some of their previous importance but to some extent still have a place Contributors include Howard M Bahr Mathias B s Gary Caldwell Salustiano del Campo Theodore Caplow Louis Chauvel Michel Forse Wolfgang Glatzer Richard Huaser Paul W Kingston Denise Lemieux Laura Maratou Alipranti and Marion Mohle

*Convergence or Divergence?* Simon Langlois, Theodore Caplow, 1994-11-16 Trends in fertility decline intergenerational relations religion and secularization ecological movements employment and labour market changes personal authority and social conflict are examined This analysis shows an unmistakable convergence of social trends except in the domain of religion But when the interconnection of these trends within each national society is examined unexpected divergences are revealed There are parallel trends in demography organization of production national institutions social practices and life style and divergent trends in social inequality social movements and local institutions Barriers between social classes have eroded and something that might be called multidimensional stratification has emerged the diminution of violence in social conflicts implies an increasing volume of negotiation and all forms of personal authority have been weakened The transformation of the family structure is no doubt one of the most important changes in western civilization The cross national analyses of recent social trends help us to assess both convergence and divergence and to identify emergent singularities Does convergence of trends mean these societies face a common destiny With respect to trends so strong that they act as exogenous variables the answer is yes However with respect to the responses those trends elicit in the context of a particular society the answer is no Massive convergence of

trends does not mean that societies face a uniform future      Borderlines in a Globalized World G. Preyer, Mathias Bös, 2013-11-11 Scholars of different schools have extensively analyzed world systems as networks of communication under the fashionable heading globalization Our collected new research pushes the argument one step further Globalization is not a homogenization of all social life on earth It is a heterogeneous process that connects the global and the local on different levels To understand these contemporary developments this book employs innovative concepts strategies of research and explanations Globalization is a metaphor for different borderstructures new borderlines and conditions of membership which emerge in a global world system As a world system expands it incorporates new territories and new peoples The process of incorporation creates frontiers or boundaries of the world system These frontiers or boundary zones are the locus of resistance to incorporation ethnogenesis ethnic transformation and ethnocide      Recent Social Trends in Canada, 1960-2000 Lance W. Roberts, Rodney A. Clifton, Barry Ferguson, 2005-08-15 The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values      Rethinking Canadian Economic Growth and Development since 1900 Vincent Geloso, 2017-03-20 This book upturns many established ideas regarding the economic and social history of Quebec the Canadian province that is home to the majority of its French population It places the case of Quebec into the wider question of convergence in economic history and whether proactive governments delay or halt convergence The period from 1945 to 1960 infamously labelled the Great Gloom Grande Noirceur was in fact a breaking point where the previous decades of relative decline were overturned Geloso argues that this era should be considered the Great Convergence Grand Rattrapage In opposition the Quiet Revolution that followed after 1960 did not accelerate these trends In fact there are signs of slowing down and relative decline that appear after the 1970s The author posits that the Quiet Revolution sowed the seeds for a growth slowdown by crowding out social capital and inciting rent seeking behaviour on the part of interest groups      *Decentralization and Intrastate Struggles* Kristin M. Bakke, 2015-06-04 There is no one size fits all decentralized fix to deeply divided and conflict ridden states One of the hotly debated policy prescriptions for states facing self determination demands is some form of decentralized governance including regional autonomy arrangements and federalism which grants minority groups a degree of self rule Yet the track record of existing decentralized states suggests that these have widely divergent capacity to contain conflicts within their borders Through in depth case studies of Chechnya Punjab and Qu bec as well as a statistical cross country analysis this book argues that while policy fiscal approach and political decentralization can indeed be peace preserving at times the effects of these institutions are conditioned by traits of the societies they are meant to govern Decentralization may help preserve peace in one country or in one region but it may have just the opposite effect in a country or region with different ethnic and economic characteristics      Leviathan

Transformed Theodore Caplow, 2002-01-16 The authors using these goals as a checklist found that each of the seven states performs well in some areas and badly in others They discovered that all states approached these goals in a style shaped by their own history and in particular by how they have been affected by the troubles of the twentieth century Their investigations offer a new informative way of looking at these nation states and detail the social and political conditions in each state Contributors include Theodore Caplow Salustiano Del Campo Royal Academy of Political and Social Science Madrid Nikolai Genov Bulgaria Academy of Sciences Karl Otto Hondrich Goethe University Simon Langlois Universit de Laval Alberto Martinelli University of Milan and Henri Mendras OFCE Paris *The Church Confronts Modernity* Leslie Woodcock Tentler, 2007-10 The Church Confronts Modernity assesses the history of Roman Catholicism since 1950 in the United States the Republic of Ireland and the Canadian province of Quebec Aging and Demographic Change in Canadian Context David J. Cheal, Professor of Department of Sociology David Cheal, 2002-01-01 Contributors question whether an aging society is necessarily inferior or problematic compared with the recent past cautioning that exaggerated concerns about population aging can be harmful to rational policy making **Morality and Nationalism** Catherine Frost, 2006-04-18 This book takes a unique approach to explore the moral foundations of nationalism Drawing on nationalist writings and examining almost 200 years of nationalism in Ireland and Quebec the author develops a theory of nationalism based on its role in representation The study of nationalism has tended towards the construction of dichotomies arguing for example that there are political and cultural or civic and ethnic versions of the phenomenon However as an object of moral scrutiny this bifurcation makes nationalism difficult to work with The author draws on primary sources to see how nationalists themselves argued for their cause and examines almost two hundred years of nationalism in two well known cases Ireland and Quebec The author identifies which themes if any are common across the various forms that nationalism can take and then goes on to develop a theory of nationalism based on its role in representation This representation based approach provides both a basis for the moral claim of nationalism while at the same time identifying grounds on which this claim can be evaluated and limited It will be of strong interest to political theorists especially those working on nationalism multiculturalism and minority rights The special focus in the book on the Irish and Quebec cases also makes it relevant reading for specialists in these fields as well as for other area studies where nationalism is an issue **Remaining Loyal** David McGrane, 2014-10-01 When social democratic politicians in the 1990s moderated their ideas and policies as part of a turn towards the third way they were assailed as traitors to the cause Remaining Loyal demonstrates that while third way social democrats in Quebec and Saskatchewan supplemented certain social democratic ideas with more right wing economic programs their public policies remained true to the original spirit of social democracy Drawing on a range of archival resources David McGrane traces the evolution of social democracy in Quebec and Saskatchewan from their respective origins in social Catholic thought and agrarian protest movements at the turn of the twentieth century to the most recent Parti Qu b cois and New Democratic

Party governments In doing so he reconstructs the public policies of traditional social democracy from the postwar era and the third way in the 1990s and early 2000s and finds both differences and continuities McGrane contends that remaining loyal to core social democratic values is exactly what differentiates the third way from neo liberalism in Saskatchewan and Quebec The first historical comparison of social democracy in Saskatchewan and Quebec Remaining Loyal challenges how we think about the recent ideological evolution of left wing parties in Canada and the rest of the world **Changing**

**Canadian Books in Print. Author and Title Index** ,1975 **Empire's Ally** Jerome Klassen,Greg Albo,2013-01-10 The war in Afghanistan has been a major policy commitment and central undertaking of the Canadian state since 2001 Canada has been a leading force in the war and has spent hundreds of millions of dollars on aid and reconstruction After a decade of conflict however there is considerable debate about the efficacy of the mission as well as calls to reassess Canada s role in the conflict An authoritative and strongly analytical work Empire s Ally provides a much needed critical investigation into one of the most polarizing events of our time This collection draws on new primary evidence including government documents think tank and NGO reports international media files and interviews in Afghanistan to provide context for Canadian foreign policy to offer critical perspectives on the war itself and to link the conflict to broader issues of political economy international relations and Canada s role on the world stage Spanning academic and public debates Empire s Ally opens a new line of argument on why the mission has entered a stage of crisis **Debts to Pay** John F. Conway,2004-04-01 Since the resignation of Lucien Bouchard and Jean Charest s resounding win in the recent provincial election many in English Canada have come to believe that Quebec separatism has finally been defeated But polls show that sovereignty is still strongly supported by many Quebecers and by young people in particular This new edition of Debts to Pay a book dealing with Quebec Canada relations offers a fresh perspective on the recent changes in Quebec Saskatchewan based sociologist and historian John Conway investigates the early days of Jean Charest s government and looks ahead to the effect that Paul Martin s ascension in Ottawa could have on Canada s constitutional struggles Conway attempts to understand Quebec s aspirations by understanding its history Through a discussion of relations between Quebec and Canada in the past and present he explores the division of power between the two societies and provides insights into the source of Quebec s grievances Debts to Pay offers insight into the bitter and longstanding rift that still remains a threat to the integrity of the Canadian nation **A Nation by Rights** Carl Franklin Stychin,1998 The dynamics of identity politics frequently have been

studied from the perspective of outsider groups those outside the bounds of the imagined community But how does this dynamic play out in the construction of the national imaginary This book helps reformulate how we use rights to what end and through what means

**Multicultural Variations** Lance W. Roberts, Barry Ferguson, Mathias Bös, 2013-02-01 Contrary to mid twentieth century predictions ethnic pluralism has increased dramatically in North America and significantly in Europe Neither the post 9 11 emphasis on international border security nor anti immigration and anti multiculturalism movements have affected the fifty year trend of increasing labour mobility and sustained levels of migration The ethnic pluralism accompanying this powerful trend has fueled academic research and public debate Contributors report on and develop a conceptualization of ethnic social incorporation and multiculturalism in Canada the United States Germany Greece Bulgaria and Italy This group of countries displays a remarkable variety of both ethnic diversity and public policy responses to ethnic social incorporation over the past four decades It includes two countries Canada and the United States built upon very large scale immigration over the course of more than a century two countries Greece and Italy which until recently were characterized by large scale emigration but now are grappling with immigration one country Bulgaria that was until the 1990s insulated from extensive migration and faces a demographic slump and one Germany that has experimented with isolating temporary populations but is now addressing the responsibilities of permanent immigration Multicultural Variations includes national reports describing each of the six countries under investigation and is book ended by introductory and concluding chapters that present a new understanding of and synthesis on multiculturalism that is distinct from either enthusiastic support or ideological critiques Contributors include Mathias B s Philipps Universit t Marburg Germany Antonio Chiesi Universit degli Studi di Milano Italy Jason Edgerton University of Manitoba Canada Barry Ferguson University of Manitoba Canada Nikolai Genov Freie Universit t Berlin Germany Louis Hicks St Mary s College of Maryland USA Paul Kingston University of Virginia USA Laura Maratou Alipranti National Centre for Social Research Athens Greece Lance W Roberts University of Manitoba Canada Sonia Stefanizzi Universit degli Studi di Milano Bicocca Italy and Susanne von Below Johann Wolfgang Goethe Universit t Frankfurt Germany
