Recent Theories Of Narrative:

Recent Theories of Narrative Wallace Martin,1986 *Recent Theories of Narrative* Wallace Martin,1986 **Recent Theories of Narrative** ,2006 Postmodern Narrative Theory Mark Currie,2010-12-09 How have developments in literary and cultural theory transformed our understanding of narrative What has happened to narrative in the wake of poststructuralism What is the role and function of narrative in the contemporary world In this revised updated and expanded new edition of an established text Mark Currie explores these central questions and guides students through the complex theories that have shaped the study of narrative in recent decades *Postmodern Narrative Theory* Second Edition establishes direct links between the workings of fictional narratives and those of the non fictional world charts the transition in narrative theory from its formalist beginnings through deconstruction towards its current concerns with the social cultural and cognitive uses of narrative explores the relationship between postmodern narrative and postmodern theory more closely presents detailed illustrative readings of known literary texts such as Stevenson s Dr Jekyll and Mr Hyde and Conrad s Heart of Darkness and now features a new chapter on Coetzee s Elizabeth Costello and Slow Man Approachable and stimulating this is an essential introduction for anyone studying postmodernism the theory of narrative or contemporary fiction

Narrative Beginnings Brian Richardson,2008-12-01 George Eliot wrote that man cannot do without the make believe of a beginning *Beginnings* it turns out can be quite unusual complex and deceptive The first major volume to focus on this critical but neglected topic this collection brings together theoretical studies and critical analyses of beginnings in a wide range of narrative works spanning several centuries and genres The international and interdisciplinary scope of these essays representing every major theoretical perspective including feminist cognitive postcolonial postmodern rhetorical ethnic narratological and hypert *Queer and Feminist Theories of Narrative* Tory Young,2023-09-25 This book argues for the importance of narrative theories which consider gender and sexuality through the analysis of a diverse range of texts and media Classical Narratology an allegedly neutral descriptive system for features of narrative has been replaced by a diverse set of theories which are attentive to the contexts in which narratives are composed and received Issues of gender and sexuality have nevertheless been sidelined by new strands which consider for example cognitive transmedial national or historical inflections instead Through consideration of texts including the MTV series *Faking It* and the papers of a nineteenth century activist *Queer and Feminist Theories of Narrative* heeds the original call of feminist narratologists for the consideration of a broader and larger corpus of material Through analysis of issues including the popular representation of lesbian desire the queer narrative voice invisibility and power in the digital age embodiment and cognitive narratology reading and racial codes this book argues that a named strand of narrative theory which employs feminist and queer theories as intersectional vectors is contemporary and urgent The chapters in this book were originally published as a special issue of the journal *Textual Practice* **Recent Theories of Narrative** Wallace Martin,1986 *Narrative Policy Analysis* Emery

Roe,1994-11-04 Narrative Policy Analysis presents a powerful and original application of contemporary literary theory and policy analysis to many of today's most urgent public policy issues Emery Roe demonstrates across a wide array of case studies that structuralist and poststructuralist theories of narrative are exceptionally useful in evaluating difficult policy problems understanding their implications and in making effective policy recommendations Assuming no prior knowledge of literary theory Roe introduces the theoretical concepts and terminology from literary analysis through an examination of the budget crises of national governments With a focus on several particularly intractable issues in the areas of the environment science and technology he then develops the methodology of narrative policy analysis by showing how conflicting policy stories often tell a more policy relevant meta narrative He shows the advantage of this approach to reading and analyzing stories by examining the ways in which the views of participants unfold and are told in representative case studies involving the California Medfly crisis toxic irrigation in the San Joaquin Valley global warming animal rights the controversy over the burial remains of Native Americans and Third World development strategies Presenting a bold innovation in the interdisciplinary methodology of the policy sciences Narrative Policy Analysis brings the social sciences and humanities together to better address real world problems of public policy particularly those issues characterized by extreme uncertainty complexity and polarization which if not more effectively managed now will plague us well into the next century

The Theory of Narrative Thought Lee Roy Beach,James A. Wise,2022-02-25 The renowned naturalist Loren Eiseley observed that we humans have given up the certainty of the animal that what it senses is exactly there in the shape the eye beholds The big question is what did we get in return This book provides a convincing answer to this question arguing that instead of recording reality your brain uses your experience to create a story a narrative about how what happened to you in the past led to what is happening to you now This narrative is your private reality The book continues by showing how replacing recorded reality with private narrative enabled humans to anticipate the fundamentally unknowable immediate and remote future and expose potential threats It then shows how private narrative enabled complex thought and communication with others Drawing upon a wide range of research the book provides a stimulating new way of viewing human experience thinking communicating and action

Narratology Susana Onega,Jose Angel Garcia Landa,2014-09-19 This text provides an excellent introduction and overview of Narratology a rapidly growing field in the humanities Literary narratologists have provided many key concepts and analytical tools which are widely used in the interdisciplinary analysis of such narrative features as plot point of view speech presentation ideological perspective and interpretation The introduction explains the central concepts of narratology their historical development and draws together contemporary trends from many different disciplines into common focus It offers a compendium of the development of narratology from classical poetics to the present The essays are all prefaced by individual forewords helping the reader to place each individual selection in context Recent developments are assessed across disciplines highlighting the mutual influences of narratology and deconstruction

psychoanalysis feminism film and media studies **Luke's Christology of Divine Identity** Nina

Henrichs-Tarasenkova, 2015-11-19 Henrichs Tarasenkova argues against a long tradition of scholars about how best to represent Luke's Christology. When read against the backdrop of ancient ways of constructing personal identity, key texts in the Lukan narrative demonstrate that Luke indirectly characterizes Jesus as the one God of Israel together with YHWH. Henrichs Tarasenkova employs a narrative approach that takes into consideration recent studies of narrative and history and enables her to construct characters of YHWH and Jesus within the Lukan narrative. She employs Richard Bauckham's concept of divine identity that she evaluates against her study of how one might speak of personal identity in the Greco-Roman world. She engages in close reading of key texts to demonstrate how Luke speaks of YHWH as God in order to demonstrate that Luke Acts upholds a traditional Jewish view that only the God of Israel is the one living God and to eliminate false expectations for how Luke should speak of Jesus as God. This analysis establishes how Luke binds Jesus' identity to the divine identity of YHWH and concludes that the Lukan narrative in fact does portray Jesus as God when it shows that Jesus shares YHWH's divine identity. *Narration, Identity, and Historical Consciousness* Jürgen Straub, 2006-01-01 A generally

acknowledged characteristic of modern life, namely the temporalization of experience, inextricable from our intensified experience of contingency and difference, has until now remained largely outside psychology's purview. Wherever questions about the development, structure, and function of the concept of time have been posed, for example by Piaget and other founders of genetic structuralism, they have been concerned predominantly with concepts of physical, chronometrical time and related concepts, e.g., velocity. All the contributions to the present volume attempt to close this gap. A larger number are especially interested in the narration of stories. Overviews of the relevant literature as well as empirical case studies appear alongside theoretical and methodological reflections. Most contributions refer to specifically historical phenomena and meaning constructions. Some touch on the subjects of biographical memory and biographical constructions of reality. Of all the various affinities between the contributions collected here, the most important is their consistent attention to issues of the constitution and representation of temporal experience. **Narrative Theory Unbound** Robyn R. Warhol, Susan Sniader

Lanser, 2016-01-08 The first edited collection to bring feminist, queer, and narrative theories into direct conversation with one another, this anthology places gender and sexuality at the center of contemporary theorizing about the production, reception, forms, and functions of narrative texts. **A New Philosophy of History** Frank Ankersmit, Hans Kellner, 2013-06-01 What is

history? From Thucydides to Toynbee, historians and nonhistorians alike have wondered how to answer this question. A New Philosophy of History reflects on developments over the last two decades in historical writing, not least the renewed interest in the status of narrative itself and the presence of the authorial voice. Subjects include the problems of Grand Narrative, multiple voices, and the personal presence of the historian in his text; the ambitions of the French Annales school and the so-called Grand Chronicler; and the relevance of non-literary models, museum presentations, and picturings regarding historical

discourse The range of approaches found in *A New Philosophy of History* ensures that this book will establish itself as required reading not only for historians but for everyone interested in literary theory philosophy or cultural studies This volume presents essays by Hans Kellner Nancy F Partner Richard T Vann Arthur C Danto Linda Orr Philippe Carrard Ann Rigney Allan Megill Robert Berkhofer Stephen Bann and Frank Ankersmit *Fictional Worlds* Thomas G. Pavel,1986 Created worlds may resemble the actual world but they can just as easily be deemed incomplete precarious or irrelevant Why then does fiction continue to pull us in and more interesting perhaps how In this beautiful book Pavel provides a poetics of the imaginary worlds of fiction their properties and their reason for being **An Introduction to Literature, Criticism and Theory** Andrew Bennett,Nicholas Royle,2014-07-10 Fresh original and compelling *An Introduction to Literature Criticism and Theory* is the essential guide to literary studies Starting at the beginning and concluding with the end the book covers topics that range from the familiar character narrative the author to the more unusual secrets pleasure ghosts Eschewing abstract isms Bennett and Royle successfully illuminate complex ideas by engaging directly with literary works so that a reading of *Jane Eyre* opens up ways of thinking about racial difference whilst Chaucer Raymond Chandler and Monty Python are all invoked in a discussion of literary laughter Each chapter ends with a narrative guide to further reading and the book also includes a glossary and bibliography The fourth edition has been revised to incorporate two timely new chapters on animals and the environment A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of both reading and studying literature *Characterization in the Gospels* David Rhoads,Kari Syreeni,1999-01-01 This volume examines characterization in the four Gospels and in the Sayings Gospel Q Peter in Matthew Lazarus in John and Jesus as Son of Man in Q are examples of the characters studied The general approach is narrative critical At the same time each contribution takes special effort to widen the scope beyond the narrated world to include the text's ideological and real life setting as well as its effective history New ways of doing narrative criticism are thus proposed The concluding essay by David Rhoads delineates the development and envisions the future of narrative criticism in Gospel studies [Optional-Narrator Theory](#) Sylvie Patron,2021-02 Twentieth century narratology fostered the assumption which distinguishes narratology from previous narrative theories that all narratives have a narrator Since the first formulations of this assumption however voices have come forward to denounce oversimplifications and dangerous confusions of issues *Optional Narrator Theory* is the first collection of essays to focus exclusively on the narrator from the perspective of optional narrator theories Sylvie Patron is a prominent advocate of optional narrator theories and her collection boasts essays by many prominent scholars including Jonathan Culler and John Brenkman and covers a breadth of genres from biblical narrative to poetry to comics This volume bolsters the dialogue among optional narrator and pan narrator theorists across multiple fields of research These essays make a strong intervention in narratology pushing back against the widespread belief among narrative theorists in general and theorists of the novel in particular that the presence

of a fictional narrator is a defining feature of fictional narratives This topic is an important one for narrative theory and thus also for literary practice Optional Narrator Theory advances a range of arguments for dispensing with the narrator except when it can be said that the author actually created a fictional narrator *Murakami Haruki* Michael Seats,2009-01-01 This book offers a new approach to dealing with Murakami's radical narrative project by demonstrating how his first and later trilogies utilize the structure of the simulacrum a second order representation to develop a complex critique of contemporary Japanese culture *Mappings* Susan Stanford Friedman,1998-10-19 In this powerful work Susan Friedman moves feminist theory out of paralyzing debates about us and them white and other first and third world and victimizers and victims Throughout Friedman adapts current cultural theory from global and transnational studies anthropology and geography to challenge modes of thought that exaggerate the boundaries of gender race ethnicity sexuality class and national origin The author promotes a transnational and heterogeneous feminism which she maintains can replace the proliferation of feminisms based on difference She argues for a feminist geopolitical literacy that goes beyond fundamentalist identity politics and absolutist poststructuralist theory and she continually focuses the reader's attention on those locations where differences are negotiated and transformed Pervading the book is a concern with narrative the way stories and cultural narratives serve as a primary mode of thinking about the politically explosive question of identity Drawing freely on modernist novels contemporary film popular fiction poetry and mass media the work features narratives of such writers and filmmakers as Gish Jen Julie Dash June Jordan James Joyce Gloria Anzaldua Neil Jordan Virginia Woolf Mira Nair Zora Neale Hurston E M Forster and Irena Klepfisz Defending the pioneering role of academic feminists in the knowledge revolution this work draws on a wide variety of twentieth century cultural expressions to address theoretical issues in postmodern feminism
