Reception Of Vatican II:

The Reception of Vatican II Matthew L. Lamb, Matthew Levering, 2017-02-09 From 1962 to 1965 in perhaps the most important religious event of the twentieth century the Second Vatican Council met to plot a course for the future of the Roman Catholic Church After thousands of speeches resolutions and votes the Council issued sixteen official documents on topics ranging from divine revelation to relations with non Christians But the meaning of the Second Vatican Council has been fiercely contested since before it was even over and the years since its completion have seen a battle for the soul of the Church waged through the interpretation of Council documents The Reception of Vatican II looks at the sixteen conciliar documents through the lens of those battles Paying close attention to reforms and new developments the essays in this volume show how the Council has been received and interpreted over the course of the more than fifty years since it concluded The contributors to this volume represent various schools of thought but are united by a commitment to restoring the view that Vatican II should be interpreted and implemented in line with Church Tradition The central problem facing Catholic theology today these essays argue is a misreading of the Council that posits a sharp break with previous Church teaching In order to combat this reductive way of interpreting the Council these essays provide a thorough instructive overview of the debates it inspired

The Disputed Teachings of Vatican II Thomas G. Guarino, 2018-10-09 The Second Vatican Council 1962 1965 radically shook up many centuries of tradition in the Roman Catholic Church This book by Thomas Guarino a noted expert on the sources and methods of Catholic doctrine investigates whether Vatican II's highly contested teachings on religious freedom ecumenism and the Virgin Mary represented a harmonious development of or a rupture with Catholic tradition Guarino's careful explanations of such significant terms as

continuity discontinuity analogy reversal reform and development greatly enhance and clarify his discussion No other book on Vatican II so clearly elucidates the essential theological principles for determining whether and to what extent a conciliar teaching is in continuity or discontinuity with antecedent tradition Readers from all faith traditions who care about the logic of continuity and change in Christian teaching will benefit from this masterful case study

The Long Shadow of Vatican II Lucas Van Rompay, Sam Miglarese, David Morgan, 2015-07-01 With the Second Vatican Council 1962-65 the Roman Catholic Church for the first time took a positive stance on modernity Its impact on the thought worship and actions of Catholics worldwide was enormous Benefiting from a half century of insights gained since Vatican II ended this volume focuses squarely on the ongoing aftermath and reinterpretation of the Council in the twenty first century In five penetrating essays contributors examine crucial issues at the heart of Catholic life and identity primarily but not exclusively within North American contexts On a broader level the volume as a whole illuminates the effects of the radical changes made at Vatican II on the lived religion of everyday Catholics As framed by volume editors Lucas Van Rompay Sam Miglarese and David Morgan the book's long view of the church's gradual and often contentious transition into contemporary times profiles a church and laity who seem committed to many mutual values but feel that implementation of the changes agreed to in principle at the Council is far from accomplished The election in 2013 of the charismatic Pope Francis has added yet another dimension to the search for the meaning of Vatican II The contributors are Catherine E Clifford Hillary Kaell Leo D Lefebure Jill Peterfeso and Leslie Woodcock Tentler

The Reception of Vatican II Liturgical Reforms in the Life of the Church Pierre-Marie Gy, 2003 Keys to the Council Richard R. Gaillardetz, Catherine E. Clifford, 2012-02-01 As the church marks the fiftieth anniversary of the opening of the Second Vatican Council too few Catholics have an adequate grasp of what the council contributed to the life of the church The problem is understandable The Second Vatican Council produced by far more document pages than any other council Consequently any attempt to master its core teachings can be daunting There is a danger of missing the forest for the trees With this in mind Keys to the Council identifies twenty key conciliar passages central texts that help us appreciate the Vision of the council fathers Each chapter places the given passage in its larger historical context explores its fundamental meaning and significance and finally considers its larger significance for the life of the church today Chapters include exploration of Sacrosanctum Concilium's demand for full conscious and active participation in the liturgy Lumen Gentium's eucharistic ecclesiology Gaudium et Spes's vision of marriage as an intimate partnership of life and love Nostra Aetate's approach to non-Christian religions and more

The Vision of Vatican II Ormond Rush, 2019-08-26 2020 Catholic Press Association first place award theology theological and philosophical studies This book is unique in the literature about Vatican II From the manifold issues debated at the council and formulated in its sixteen documents Ormond Rush proposes that the salient features of the vision of Vatican II can be captured in twenty four principles He concludes by proposing that these principles can function as criteria for assessing the reception of the conciliar

vision over the last five decades and into the future There is no other book that attempts such a comprehensive synthesis of the council's vision for renewal and reform of the Catholic Church

Catholic Education in the Wake of Vatican II Rosa Bruno-Jofre, Jon Igelmo Zaldivar, 2017-09-18 The Second Vatican Council Vatican II called by Pope John XXIII in 1959 produced sixteen documents that outlined the Church's attempts to meet increasing calls for modernization in the wake of social and cultural changes that were taking place in the twentieth century Catholic Education in the Wake of Vatican II is the first work dedicated to the effects of the Second Vatican Council on Catholic education in various national and cultural contexts These original pieces grounded in archival research explore the social political and economic repercussions of Catholic educational changes in Canada Europe and South America The volume provides insightful analysis of many issues including the tensions between Catholicism and Indigenous education in Canada the secularization of curriculum in the Catholic classroom Church State relations and more The contributors reveal the tensions between doctrinal faith and socio-economic structures of privilege found within the Church and introduces the reader to complex political interactions within the Church itself in the midst of a rapid era of secularization

Vatican II Behind the Iron Curtain Piotr H. Kosicki, 2016 The goal of this volume is to begin writing Central and Eastern Europe back into the story of the Second Vatican Council its origins and its consequences This volume assembles for the first time in any language a broad overview of the place of four different Communist run countries Czechoslovakia Hungary Poland and Yugoslavia in the story of the Council Framing these is an account of how the Cold War impacted the Council and its reception The book engages with both English language scholarship and the national historiographies of the countries that it examines offering a global lens on the present state of research covering all relevant languages and seeking to propel that research forward All of the chapters draw on both non-English secondary literature and original primary sources some published some archival

Vatican II Matthew L. Lamb, Matthew Levering, 2008-04-30 From 1962 to 1965 in perhaps the most important religious event of the twentieth century the Second Vatican Council met to plot a course for the future of the Roman Catholic Church After thousands of speeches resolutions and votes the Council issued sixteen official documents on topics ranging from divine revelation to relations with non-Christians In many ways though the real challenges began after the council was over and Catholics began to argue over the interpretation of the documents Many analysts perceived the Council's far-reaching changes as breaks with Church tradition and soon this became the dominant bias in the American and other media which lacked the theological background to approach the documents on their own terms In *Vatican II: Renewal Within Tradition* an international team of theologians offers a different reading of the documents from Vatican II The Council was indeed putting forth a vision for the future of the Church but that vision was grounded in two millennia of tradition Taken together these essays demonstrate that Vatican II's documents are a development from an established antecedent in the Roman Catholic Church Each chapter contextualizes Vatican II teachings within that rich tradition The resulting book is an indispensable and accessible companion

to the Council's developments one that focuses on theology and transcends the mass media storyline of liberal versus conservative

What Happened at Vatican II John W. O'Malley, 2010-09-01 During four years in session Vatican Council II held television audiences rapt with its elegant magnificently choreographed public ceremonies while its debates generated front page news on a near weekly basis This book captures the drama of the council depicting the colorful characters involved and their clashes with one another

Vatican Council II Elizabeth Harrington, David Orr, Carmel Pilcher, 2013-08-31 Sacrosanctum Concilium opened the door to all Christians to understand the contemporary challenge to their life and health and it started with the reform of the liturgy In the words of Paul VI the liturgy is the first source of life communicated to us the first school of our spiritual life the first gift we can give to Christian people by our believing and praying and the first invitation to the world That is surely true for all of us

An Introduction to Vatican II as an Ongoing Theological Event Matthew Levering, 2017 Contemporary scholars often refer to the event of Vatican II but what kind of an event was it In this first book of the new CUA Press series Sacra Doctrina Matthew Levering leads his readers to see the Council as a theological event a period of confirming and continuing God's self revelation in Christ into a new historical era for the Church This is an introduction to Vatican II with a detailed summary of each of its four central documents the dogmatic constitutions followed by explanations of how to interpret them In contrast to other introductions which pay little attention to the theological soil in which the documents of Vatican II germinated Levering offers a reading of each conciliar Constitution in light of a key theological author from the era Ren Latourelle SJ for Dei Verbum persons and propositions Louis Bouyer CO for Sacrosanctum Concilium active participation Yves Congar OP for Lumen Gentium true and false reform and Henri de Lubac SJ for Gaudium et Spes nature and grace This theological event is ongoing Levering demonstrates by tracing in each chapter the theological debates that have stretched from the close of the council till the present and the difficulties the Church continues to encounter in encouraging an ever deeper participation in Jesus Christ on the part of all believers In this light the book's final chapter compares the historicist Massimo Faggioli and Christological Robert Imbelli interpretations of Vatican II arguing that historicism can undermine the Council's fundamental desire for a reform and renewal rooted in Christ The conclusion addresses the concerns about secularization and loss of faith raised after the Council by Henri de Lubac Joseph Ratzinger and Yves Congar arguing that contemporary Vatican II scholarship needs to take these concerns more seriously

After Vatican II James L. Heft, John O'Malley, 2012-07-20 Proceedings of a conference held in Feb 2009 at the University of

Southern California *The Synod of Pistoia and Vatican II* Shaun Blanchard, 2020 In this book Shaun Blanchard uses a close study of the Synod of Pistoia 1786 to argue that the roots of the Vatican II reforms must be pushed back beyond the widely acknowledged twentieth century forerunners of the Council beyond Newman and the Tbingen School in the nineteenth century to the eighteenth century in which a variety of reform movements attempted *ressourcement* and *aggiornamento*

Still Interpreting Vatican II Ormond Rush, 2004 In this original book Ormond Rush makes a significant contribution to the growing body of scholarship on Vatican II He proposes that a comprehensive interpretation of Vatican II requires that the interpreter not only attempt a reconstruction of the spirit of the council emerging during the conciliar debates but also take into account the various linguistic dimensions of the letter of the documents Attention to genre structure rhetoric intratextuality and intertextuality are all significant in reconstructing the letter of the council In addition he states that reconstruction of the spirit and letter must be supplemented by attention to another factor the post conciliar reception of the council from different contexts throughout the world over the last forty years All three of these phases of interpretation must be kept in correlation The book ends with a proposal for a reception pneumatology that calls for greater recognition of the work of reception as the work of the Holy Spirit of the council Highlights fills a significant gap in the debate regarding Vatican II clarity in the discussion regarding hermeneutical principles no book in any language focuses specifically on the principles for interpreting Vatican II calls for a more comprehensive approach that includes not only attention to the process of original formulation but also to the texts in themselves suggests a way through the current impasse in the interpretation of Vatican II
