Reciclado ,2001 **Boletín bibliográfico mexicano** ,2002 Boletin bibliografico mexicano ,2002 **In Light of India** Octavio Paz,2015-02-26 In 1951 Octavio Paz travelled to India to serve as an attach in the Mexican Embassy Eleven years later he returned as Mexico s ambassador In Light of India is Paz s celebration of that country and his most personal work of prose to date As in all of his essays he brings poetic insight and voluminous knowledge to bear on the subject and the result is a series of fascinating discourses on India s landscape culture and history The Antipodes of Coming and Going is a lyrical remembrance of Paz s days in India evoking with astonishing clarity the sights sounds smells and denizens of the subcontinent Religions Castes Languages gives a survey of Indian history and its astonishing polyglot society A Project of Nationhood is an examinatio of modern Indian politics comparing the respective Islamic Hindu and Western civilizations through the course of history The Full and the Empty is an exploration of what Paz calls the soul of India its art literature music and philosophy It is also an uncompromising indictment of the self centred materialism of Western society *The Web of Life* Fritjof Capra,1997-09-15 The vitality and accessibility of Fritjof Capra s ideas have made him perhaps the most eloquent spokesperson of the latest findings emerging at the frontiers of scientific social and philosophical thought In his international bestsellers The Tao of Physics and The Turning Point he juxtaposed physics and mysticism to define a new vision of reality In The Web of Life Capra takes yet another giant step setting forth a new scientific language to describe interrelationships and interdependence of psychological biological physical social and cultural phenomena the web of life During the past twenty five years scientists have challenged conventional views of evolution and the organization of living systems and have developed new theories with revolutionary philosophical and social implications Fritjof Capra has been at the forefront of this revolution In The Web of Life Capra offers a brilliant synthesis of such recent scientific breakthroughs as the theory of complexity Gaia theory chaos theory and other explanations of the properties of organisms social systems and ecosystems Capra s surprising findings stand in stark contrast to accepted paradigms of mechanism and Darwinism and provide an extraordinary new foundation for ecological policies that will allow us to build and sustain communities without diminishing the opportunities for future generations Now available in paperback for the first time The Web of Life is cutting edge science writing in the tradition of James Gleick s Chaos Gregory Bateson s Mind and Matter and Ilya Prigogine s Order Out of Chaos *Rapanui* Grant McCall,1981 *When Skeptics Ask* Norman L. Geisler,Ronald M. Brooks,2013-03-15 When skeptics ask tough questions believers can turn to this helpful user friendly guide for thoughtful up to date answers Readers will also learn to identify and respond to the misuse of Scripture by nonbelievers and help detractors see the fullness beauty and truth of Christianity Island at the End of the World Steven Roger Fischer,2006-06-01 On a long stretch of green coast in the South Pacific hundreds of enormous impassive stone heads stand guard against the ravages of time war and disease that have attempted over the centuries to conquer Easter Island Steven Roger Fischer offers the first English language

history of Easter Island in *Island at the End of the World* a fascinating chronicle of adversity triumph and the enduring monumentality of the island's stone guards A small canoe with Polynesians brought the first humans to Easter Island in 700 CE and when boat travel in the South Pacific drastically decreased around 1500 the Easter Islanders were forced to adapt in order to survive their isolation Adaptation Fischer asserts was a continuous thread in the life of Easter Island the first European visitors who viewed the awe inspiring monolithic busts in 1722 set off hundreds of years of violent warfare trade and disease from the smallpox wars and Great Death that decimated the island to the late nineteenth century Catholic missionaries who tried to save it to a despotic Frenchman who declared sole claim of the island and was soon killed by the remaining 111 islanders The rituals leaders and religions of the Easter Islanders evolved with all of these events and Fischer is just as attentive to the island's cultural developments as he is to its foreign invasions Bringing his history into the modern era Fischer examines the colonization and annexation of Easter Island by Chile including the Rapanui people's push for civil rights in 1964 and 1965 by which they gained full citizenship and freedom of movement on the island As travel to and interest in the island rapidly expand *Island at the End of the World* is an essential history of this mysterious site **Upside**

Down Eduardo Galeano, 2014-05-13 From the winner of the first Lannan Prize for Cultural Freedom a bitingly funny kaleidoscopic vision of the first world through the eyes of the third Eduardo Galeano author of the incomparable *Memory of Fire* Trilogy combines a novelist's intensity a poet's lyricism a journalist's fearlessness and the strong judgments of an engaged historian Now his talents are richly displayed in *Upside Down* an eloquent passionate sometimes hilarious exposé of our first world privileges and assumptions In a series of lesson plans and a program of study about our beleaguered planet Galeano takes the reader on a wild trip through the global looking glass From a master class in *The Impunity of Power* to a seminar on *The Sacred Car* with tips along the way on *How to Resist Useless Vices* and a declaration of *The Right to Rave* he surveys a world unevenly divided between abundance and deprivation carnival and torture power and helplessness We have accepted a reality we should reject Galeano teaches us one where machines are more precious than humans people are hungry poverty kills and children toil from dark to dark A work of fire and charm *Upside Down* makes us see the world anew and even glimpse how it might be set right Galeano's outrage is tempered by intelligence an ineradicable sense of humor and hope Los Angeles Times front page [The Paradox of Cruelty](#) Philip Paul Hallie, 1969 **Hunted** Kevin Lewis

O'Neill, 2019-09-15 A necessary addition to the literature on Latin America's Pentecostals whose number exceeds 100 million a highly readable text Times Higher Education It's not a process one pastor insisted rehabilitation is a miracle In the face of addiction and few state resources Pentecostal pastors in Guatemala City are fighting what they understand to be a major crisis Yet the treatment centers they operate produce this miracle of rehabilitation through extraordinary means captivity These men of faith snatch drug users off the streets often at the request of family members and then lock them up inside their centers for months sometimes years *Hunted* is based on more than ten years of fieldwork among these centers and the

drug users that populate them Over time as Kevin Lewis O Neill engaged both those in treatment and those who surveilled them he grew increasingly concerned that he too had become a hunter albeit one snatching up information This thoughtful intense book will reframe the arc of redemption we so often associate with drug rehabilitation painting instead a seemingly endless cycle of hunt capture and release O Neill uses his dramatic story of the manhunt to rethink Foucauldian pastoral power an utterly brilliant book PoLAR Political and Legal Anthropology Review The theme of Kevin Lewis O Neill s fascinating book Hunted i e drug addicts kidnapped and held in involuntary confinement in treatment centers run by Guatemalan Pentecostals may strike readers as so outr or outrageous as to provoke a reaction Hunted consists in brilliant participant observer reportage Pneuma

Reading Architectural History Dana Arnold, 2003-09-02 Architectural history is more than just the study of buildings Architecture of the past and present remains an essential emblem of a distinctive social system and set of cultural values and as a result it has been the subject of study of a variety of disciplines But what is architectural history and how should we read it Reading Architectural History examines the historiographic and socio cultural implications of the mapping of British architectural history with particular reference to eighteenth and nineteenth century Britain Discursive essays consider a range of writings from biographical and social histories to visual surveys and guidebooks to examine the narrative structures of histories of architecture and their impact on perception adn understanding of the architecture of the past Alongside this each chapter cites canonical histories juxtaposed with a range of social and cultural theorists to reveal that these writings are richer than we have perhaps recognised and that architectural production in this period can in interrogated in the same way as that from more recent past and can be read in a variety of ways The essays and texts combine to form an essential course reader for methods and critical approached to architectural history and more generally as examples of the kind of evidence used in the formation of architectural histories while also offering a thematic introduction to architecture in Britain and its social and cultural meaning
