**Egoists, a Book of Supermen** James Huneker, 1909 A year in Russia Maurice Baring, 2025-03-02 In *A Year in Russia* Maurice Baring intricately weaves a tapestry of impressions from his extensive travels through early 20th century Russia. The book captures the rich cultural landscape of Russia during a time of immense change, blending vivid descriptions with nuanced reflections on the political climate and societal transformations. Baring's literary style, characterized by keen observation and lyrical prose, evokes a palpable sense of place, transporting readers into the heart of Russian life, from its grandiose cities to the starkness of rural landscapes. This work can be contextualized within the travel literature genre as it offers a personal lens through which to understand a nation on the brink of upheaval. Maurice Baring, a British writer and poet, was deeply influenced by his own familial roots and his experiences abroad. His interest in Russia was sparked not only by his travels but also by his connections to the Russian expatriate community. A perceptive observer of human nature and culture, Baring's insights into the complexities of Russian society were shaped by a profound appreciation for its literature and art, as well as firsthand encounters with its people. Recommended for anyone fascinated by Russian culture or the nuances of travel writing, *A Year in Russia* offers a compelling blend of history, personal narrative, and cultural analysis. Baring's eloquent prose and perceptive observations invite readers to engage with a pivotal moment in Russian history, making this work an invaluable resource for scholars, students, and general readers alike.

*The Life of August Wilhelm Schlegel, Cosmopolitan of Art and Poetry* Roger Paulin, 2016-02-01 This is the first full-scale biography in any language of a towering figure in German and European Romanticism: August Wilhelm Schlegel, whose life (1767 to 1845) coincided with its inexorable rise. As poet, translator, critic, and oriental scholar, Schlegel's extraordinarily diverse interests and writings left a vast intellectual legacy, making him a foundational figure in several branches of knowledge. He was one of the last thinkers in Europe able to practise as well as to theorise and to attempt to comprehend the nature of culture without being forced to be a narrow specialist. With his brother Friedrich, for example, Schlegel edited the avant-garde Romantic periodical *Athenaeum*, and he produced, with his wife Caroline, a translation of Shakespeare, the first metrical version into any foreign language. Schlegel's *Lectures on Dramatic Art and Literature* were a defining force for Coleridge and for the French Romantics. But his interests extended to French, Italian, Spanish, and Portuguese literature, as well as to the Greek and Latin classics and to Sanskrit. August Wilhelm Schlegel is the first attempt to engage with this totality, to combine an account of Schlegel's life and times with a critical evaluation of his work and its influence. Through the study of one man's rich life, incorporating the most recent scholarship, theoretical approaches, and archival resources while remaining easily accessible to all readers, Paulin has recovered the intellectual climate of

Romanticism in Germany and traced its development into a still potent international movement The extraordinarily wide scope and variety of Schlegel's activities have hitherto acted as a barrier to literary scholars even in Germany In Roger Paulin whose career has given him the knowledge and the experience to grapple with such an ambitious project Schlegel has at last found a worthy exponent

A Short History of Freethought John Mackinnon Robertson, 1899      **Reformation Unbound** Karl Gunther, 2014-09-25 A study of radical English Protestant views of reformation revising understandings of early English Protestantism and the development of Puritanism      *On Heroes, Hero-worship and the Heroic in History* Thomas Carlyle, 1866      **A History of the French Novel: From the Beginning to the Close of the 19th Century (Complete)** George Saintsbury, Although I have already in two places given a somewhat precise account of the manner in which fiction in the modern sense of the term and especially prose fiction came to occupy a province in modern literature which had been so scantily and infrequently cultivated in ancient it would hardly be proper to enter upon the present subject with a mere reference to these other treatments It is matter of practically no controversy or at least of none in which it is worth while to take a part that the history of prose fiction before the Christian era is very nearly a blank and that in the fortunately still fairly abundant remains of poetic fiction the story is the least part as Dryden says in another sense or at least the telling of the story in our modern sense is so Homer in the Odyssey at any rate Herodotus in what was certainly not intentional fiction at all and Xenophon are about the only Greek writers who can tell a story for the magnificent narrative of Thucydides in such cases as those of the Plague and the Syracusan cataclysm shows all the headstrong ethos of the author in its positive refusal to assume a story character In Latin there is nothing before Livy and Ovid of whom the one falls into the same category with Herodotus and Xenophon and the other admirable raconteur as he is thinks first of his poetry Scattered tales we have mimes and other things there are some and may have been more But on the whole the schedule is not filled there are no entries for the competition In later classical literature both Greek and Latin the state of things alters considerably though even then it cannot be said that fiction proper that is to say either prose or verse in which the accomplishment of the form is distinctly subordinate to the interesting treatment of the subject constitutes a very large department or even any regular department at all If Lucius of Patrae was a real person and much before Lucian he may dispute with Petronius that first century Maupassant or Meredith or both combined the actual foundation of the novel as we have it but Lucian himself and Apuleius strangely enough handling the same subject in the two languages give securer and more solid starting places Yet nothing follows Apuleius though some time after Lucian the Greek romance of which we have still a fair number of examples spread however over a still larger number of centuries establishes itself in a fashion It does one thing indeed which in a way refounds or even founds the whole

conception it establishes the heroine There are certainly feminine persons sometimes not disagreeable who play conspicuous and by no means mute or unpractical parts in both Greek and Latin versions of the Ass Legend but one can hardly call them heroines There need be no chicane about the application of that title to Chloe or to Chariclea to Leucippe or to her very remarkable rival to Anthia or to Hysmine Without the heroine you can hardly have romance the novel without her though her individuality may be put in commission is an absolute impossibility The connection between these curious performances with the much larger number of things like them which we know to have existed on the one side and the Western mediaeval romance on the other has been at various times matter of considerable controversy but it need not trouble us much here The Greek romance was to have very great influence on the French novel later on the earlier composition generally called by the same name as itself it would seem to have had next to none Until we come to Floire et Blanchefleur and perhaps Parthenopex things of a comparatively late stage obviously post Crusade and so necessarily exposed to and pretty clearly patient of Greek Eastern influence there is nothing in Old French which shows even the same kinship to the Greek stories as the Old English Apollonius of Tyre which was probably or rather certainly in the original Greek itself The sources of French romance I must take leave to request a truce of God as to the application of that term and of epic for present purposes appear to have been two the Saint s Life and the patriotic or family saga the latter in the first place indelibly affected by the Mahometan incursions of the eighth ninth and tenth centuries The story telling instinct kindled by or at first devoted to these subjects subsequently fastened on numerous others In fact almost all was fish that came to the magic net of Romance and though two great subjects of ours the Matter of Britain the Arthurian Legend and the Matter of Rome classical story generally including the Tale of Troy came traditionally to rank themselves with the Matter of France and with the great range of hagiology which it might have been dangerous to proclaim a fourth matter even if anybody had been likely to take the view that it was so these classifications are like most of their kind more specious than satisfactory *Views and Reviews* Havelock Ellis, 1932

**Gleanings for the Curious from the Harvest-fields of Literature** Charles Carroll Bombaugh, 1875 [The History of Science Fiction](#) A. Roberts, 2005-11-28 The History of Science Fiction traces the origin and development of science fiction from Ancient Greece up to the present day The author is both an academic literary critic and acclaimed creative writer of the genre Written in lively accessible prose it is specifically designed to bridge the worlds of academic criticism and SF fandom

*Introduction to Applied Linguistics* Alan Davies, 2007-07-12 This second edition of the foundational textbook *An Introduction to Applied Linguistics* provides a state of the art account of contemporary applied linguistics The kinds of language problems of interest to applied linguists are discussed and a distinction drawn between the different research approach taken by theoretical linguists and by applied linguists to what seem to be the same problems Professor Davies describes a variety of projects which illustrate the interests of the field and highlight the marriage it offers between practical experience and theoretical understanding The increasing emphasis of applied linguistics on ethicality is linked to the growth

of professionalism and to the concern for accountability manifested in the widening emphasis on critical stances This Davies argues is at its most acute in the tension between giving advice as the outcome of research and taking political action in order to change a situation which it is claimed needs ameliorisation This dilemma is not confined to applied linguistics and may now be endemic in the applied disciplines

**Memory, Metaphor, and Aby Warburg's Atlas of Images** Christopher D. Johnson, 2012-09-15 The work of German cultural theorist and art historian Aby Warburg 1866 1929 has had a lasting effect on how we think about images This book is the first in English to focus on his last project the encyclopedic Atlas of Images Mnemosyne Begun in earnest in 1927 and left unfinished at the time of Warburg's death in 1929 the Atlas consisted of sixty three large wooden panels covered with black cloth On these panels Warburg carefully intuitively arranged some thousand black and white photographs of classical and Renaissance art objects as well as of astrological and astronomical images ranging from ancient Babylon to Weimar Germany Here and there he also included maps manuscript pages and contemporary images taken from newspapers Trying through these constellations of images to make visible the many polarities that fueled antiquity's afterlife Warburg envisioned the Atlas as a vital form of metaphoric thought While the nondiscursive frequently digressive character of the Atlas complicates any linear narrative of its themes and contents Christopher D Johnson traces several thematic sequences in the panels By drawing on Warburg's published and unpublished writings and by attending to Warburg's cardinal idea that pathos formulas structure the West's cultural memory Johnson maps numerous tensions between word and image in the Atlas In addition to examining the work itself he considers the literary philosophical and intellectual historical implications of the Atlas As Johnson demonstrates the Atlas is not simply the culmination of Warburg's lifelong study of Renaissance culture but the ultimate expression of his now literal now metaphoric search for syncretic solutions to the urgent problems posed by the history of art and culture

Royalism, Print and Censorship in Revolutionary England Jason McElligott, 2007 A study of the content and methods of

royalist propaganda via newsbooks in the crucial period following the end of the first civil war This is a study of a remarkable set of royalist newsbooks produced in conditions of strict secrecy in London during the late 1640s It uses these flimsy ephemeral sheets of paper to rethink the nature of both royalism and Civil War allegiance *Royalism Print and Censorship in Revolutionary England* moves beyond the simple and simplistic dichotomies of absolutism versus constitutionalism In doing so it offers a nuanced innovative and exciting vision of a strangely neglected aspect of the Civil Wars Print has always been seen as a radical destabilizing force an agent of social change and revolution *Royalism Print and Censorship in Revolutionary England* demonstrates by contrast how lively vibrant and exciting the use of print as an agent of conservatism could be It seeks to rescue the history of polemic in 1640s and 1650s England from an undue preoccupation with the factional squabbles of leading politicians In doing so it offers a fundamental reappraisal of the theory and practice of censorship in early modern England and of the way in which we should approach the history of books and print culture JASON McELLIGOTT is the J P R Lyell Research Fellow in the History of the Early Modern Printed Book at Merton College Oxford

*The Chinese Written Character as a Medium for Poetry* Ernest Fenollosa, Ezra Pound, Jonathan Stalling, Lucas Klein, 2009-08-25 First published in 1919 by Ezra Pound Ernest Fenollosa's essay on the Chinese written language has become one of the most often quoted statements in the history of American poetics As edited by Pound it presents a powerful conception of language that continues to shape our poetic and stylistic preferences the idea that poems consist primarily of images the idea that the sentence form with active verb mirrors relations of natural force But previous editions of the essay represent Pound's understanding it is fair to say his appropriation of the text Fenollosa's manuscripts in the Beinecke Library of Yale University allow us to see this essay in a different light as a document of early sustained cultural interchange between North America and East Asia Pound's editing of the essay obscured two important features here restored to view Fenollosa's encounter with Tendai Buddhism and Buddhist ontology and his concern with the dimension of sound in Chinese poetry This book is the definitive critical edition of Fenollosa's important work After a substantial Introduction the text as edited by Pound is presented together with his notes and plates At the heart of the edition is the first

full publication of the essay as Fenollosa wrote it accompanied by the many diagrams characters and notes Fenollosa and Pound scrawled on the verso pages Pound s deletions insertions and alterations to Fenollosa s sometimes ornate prose are meticulously captured enabling readers to follow the quasi dialogue between Fenollosa and his posthumous editor Earlier drafts and related talks reveal the development of Fenollosa s ideas about culture poetry and translation Copious multilingual annotation is an important feature of the edition This masterfully edited book will be an essential resource for scholars and poets and a starting point for a renewed discussion of the multiple sources of American modernist poetry **The Freeman**
