them have been dominated by state languages especially Russian and Chinese On a local level the languages of the autochthonous people often play a role parallel to the central national language The contributions of this conference proceeding follow up on topics such as What was or is collected and how can it be used under changed conditions in the research landscape how does it help local ethnic communities to understand and preserve their own culture and language Do the spatially dispersed but often networked collections support research on the ground What contribution do these collections make to the local languages and cultures against the backdrop of dwindling attention to endangered groups These and other questions are discussed against the background of the important role libraries and private collections play for multiethnic societies in often remote regions that are difficult to reach **British Books** ,1903 **Current Catalog**

The Merchants of Siberia Erika L. Monahan,2016-04-01 In The Merchants of Siberia Erika Monahan reconsiders commerce in early modern Russia by reconstructing the trading world of Siberia and the careers of merchants who traded there She follows the histories of three merchant families from various social ranks who conducted trade in Siberia for well over a century These include the Filat evs who were among Russia s most illustrious merchant elite the Shababins Muslim immigrants who mastered local and long distance trade while balancing private endeavors with service to the Russian state and the Noritsyns traders of more modest status who worked sometimes for themselves sometimes for bigger merchants and participated in the emerging Russia China trade Monahan demonstrates that trade was a key component of how the Muscovite state sought to assert its authority in the Siberian periphery The state s recognition of the benefits of commerce meant that Russian state and empire building in Siberia were characterized by accommodation in this diverse borderland

instrumentality trumped ideology and the Orthodox state welcomed Central Asian merchants of Islamic faith This reconsideration of Siberian trade invites us to rethink Russia s place in the early modern world The burgeoning market at Lake Yamysh an inner Eurasian trading post along the Irtysh River illuminates a vibrant seventeenth century Eurasian caravan trade even as Europe Asia maritime trade increased By contextualizing merchants and places of Siberian trade in the increasingly connected economies of the early modern period Monahan argues that commercially speaking Russia was not the outlier that most twentieth century characterizations portrayed *Catalogue of a Collection of Books on Ornithology in the Library of Frederic Gallatin, Jr* Frederic Gallatin,1908 *Baltic Pilot* Great Britain. Hydrographic Department,1914
