Realism Modern Literatures In Perspective:

Concepts of Realism Luc Herman, 1996 Examination of the critical discourse on the literary movement of realism Concepts of Realism surveys the central episodes in the development of the discourse surrounding realism from its inception with substantial reference to developments in the United States It concentrates on modernism and the avant garde as hostile to the realist movement but more positive critics of the concept such as Erich Auerbach and Joseph Stern also receive ample treatment Realism Lilian R. Furst, 1992 Realism is one of the most common terms in the critical vocabulary yet has been described as a monster with many heads desperately in need of disentangling Professor Furst's collection is ideally placed to help the student understand its complexities and the range of responses it has evoked She begins with the reflections of such classic realist writers as Balzac and Henry James which provide a context for a series of major twentieth century readings After this overture the curtain is raised with contributions from humanist Marxist structuralist rhetorical reader oriented psychoanalytic deconstructionist and feminist criticism including excerpts from an international range of critics such as George Lukacs Roland Barthes David Lodge and J Hillis Miller A substantial Introduction Headnotes and a Glossary of Terms provide a wider context for the essays and explain terms that may be unfamiliar to the student A selective annotated Bibliography provides a guide to further reading Back cover

Documents of Modern Literary Realism George Joseph Becker, 2015-12-08 Using selections by American British French German Russian Scandinavian Spanish Portuguese and South American critics and authors Professor Becker illustrates how realism arose as a reaction to romanticism and how the practitioners of realism developed conflicting ideas about the means they should use and the ends toward which they should strive The selections are concerned mainly with prose since according to the author prose fiction has been the major vehicle of realism Originally published in 1963 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Realism After Modernism Devin Fore, 2012 The human figure made a spectacular return in visual art and literature in the 1920s Following modernism's withdrawal nonobjective painting gave way to realistic depictions of the body and experimental literary techniques were abandoned for novels with powerfully individuated characters But the celebrated return of the human in the interwar years was not as straightforward as it may seem In Realism after Modernism Devin Fore challenges the widely accepted view that this period represented a return to traditional realist representation and its humanist postulates Interwar realism he argues did not reinstate its nineteenth century predecessor but invoked realism as a strategy of mimicry that anticipates postmodernist pastiche Through close readings of a series of works by German artists and writers of the period Fore investigates five

artistic devices that were central to interwar realism He analyzes Bauhaus polymath L szl Moholy Nagy s use of linear perspective three industrial novels riven by the conflict between the temporality of capital and that of labor Brecht s socialist realist plays which explore new dramaturgical principles for depicting a collective subject a memoir by Carl Einstein that oscillates between recollection and self erasure and the idiom of physiognomy in the photomontages of John Heartfield Fore s readings reveal that each of these rehumanized works in fact calls into question the very categories of the human upon which realist figuration is based Paradoxically even as the human seemed to make a triumphal return in the culture of the interwar period the definition of the human and the integrity of the body were becoming more tenuous than ever before Interwar realism did not hearken back to earlier artistic modes but posited new and unfamiliar syntaxes of aesthetic encounter revealing the emergence of a human subject quite unlike anything that had come before

The Edge of Knowing Roy Bing Chan,2016-11-01 Reveals the historical impact of dream rhetoric on Chinese modernity and nation building Realism and the rhetoric of dreams intersected in modern Chinese literature from the May Fourth Era in the early twentieth century through the period just following the end of the Cultural Revolution in 1976 The Edge of Knowing investigates this relationship showing how writers attention to dreams demonstrates the multiple influences of Western psychology utopian desire for revolutionary change and the enduring legacy of traditional Chinese philosophy At the same time modern Chinese writers used their work to represent social reality for the purpose of nation building Recent political usage of dream rhetoric in the People s Republic of China attests to the continuing influence of dreams on the imagination of Chinese modernity By employing a number of critical perspectives The Edge of Knowing will appeal to readers seeking to understand the complicated relationship between literary form and Chinese history and politics

Beyond Realism Elizabeth Allen,1992-05-01 Critical studies of Turgenev have tended to focus on his realistic portrayals of nineteenth century Russian life and have therefore closely allied Turgenev with the dominant literary movement of that time Realism By contrast this book reveals the non Realist literary patterns that distinguish Turgenev s fiction In so doing it newly uncovers an intricate imaginative vision of human experience that unites poetics and ethics The first part of the book identifies and assesses the ethical values associated with Realism finding them rooted in the virtues of the traditional rural community It then elucidates the very different ethical values that inform Turgenev s art which are rooted not in the virtues of the community but in those of the individual who creatively conceives and independent ethical stance Turgenev is thus shown to prize art not as a means of merely representing reality but as a means of demonstrating how human lives can be artistically shaped to achieve psychological and moral fulfillment In its second part this study addresses various facets of Turgenev s poetics and the ethical motives behind them as exemplified in disparate works One chapter examines how Turgenev orchestrates time and space to illuminate the moral advantages of self constraint Another explores Turgenev s adroit management of language to foster imprecision and ambiguity and thereby to prevent explicit articulation of psychologically and morally threatening ideas

Still another chapter concentrates on Turgenev's manipulations of narrative points of view as he displays the benefits of bringing multiple perspectives to bear on painful experience. And a final chapter probes the techniques of characterization Turgenev employs to evaluate varieties of success and failure in pursuit of self fulfillment. The book concludes by indicating how Turgenev faltered in his last novel precisely by undertaking the Realist enterprise and how he then reasserted non Realist aesthetic and ethical principles in his final literary creations: prose poems. Throughout this book a series of close reading discloses the very rhythm of Turgenev's thought, the nexus between his aesthetic and moral imaginations. These readings reveal Turgenev's belief in secular salvation, a belief inspired not by faith in otherworldly redemption but by confidence in individual human beings' ability to save themselves from suffering in this world. This study therefore shows Turgenev to be at once more complex and more creative, more modern and more moral than readers confining him to the realm of Realism have acknowledged.

How Fiction Works James Wood, 2008-07-22. In the tradition of E. M. Forster's *Aspects of the Novel* and Milan Kundera's *The Art of the Novel*, James Wood's *How Fiction Works* is a scintillating study of the magic of fiction, an analysis of its main elements and a celebration of its lasting power. Here one of the most prominent and stylish critics of our time looks into the machinery of storytelling to ask some fundamental questions: What do we mean when we say we know a fictional character? What constitutes a telling detail? When is a metaphor successful? Is Realism realistic? Why do some literary conventions become dated while others stay fresh? James Wood ranges widely from Homer to *Make Way for Ducklings* from the Bible to John le Carr, and his book is both a study of the techniques of fiction making and an alternative history of the novel. Playful and profound, *How Fiction Works* will be enlightening to writers, readers, and anyone else interested in what happens on the page.

Literature and the Touch of the Real David Schalkwyk, 2004. It uses the Wittgensteinian notions of samples and criteria to show that language is involved in the appropriation of aspects of the world through the historically contingent activities of linguistic practice, and it uses Wittgenstein's analysis of aspect perception to forge a new account of the ideological role of the literary and its relation to the real.

Russia's Capitalist Realism Vadim Shneyder, 2021. Russia's Capitalist Realism examines how the literary tradition that produced the great works of Leo Tolstoy, Fyodor Dostoevsky, and Anton Chekhov responded to the dangers and possibilities posed by Russia's industrial revolution. During Russia's first tumultuous transition to capitalism, social problems became issues of literary form for writers trying to make sense of economic change. The new environments created by industry, such as giant factories and mills, demanded some kind of response from writers but defied all existing forms of language. This book recovers the rich and lively public discourse of this volatile historical period, which Tolstoy, Dostoevsky, and Chekhov transformed into some of the world's greatest works of literature. *Russia's Capitalist Realism* will appeal to readers interested in nineteenth-century Russian literature and history, the relationship between capitalism and literary form, and theories of the novel.

Varieties of Realism Margaret A. Hagen, 1986-05-31 Varieties of Realism argues that it is not possible to represent the layout of objects and surfaces in space outside the dictates of formal visual geometry the geometry of natural perspective The book examines most of the world s coherent representational art styles both in terms of the geometry of their creation and in terms of their perceptual effects on the viewer A lucid exposition of modern geometrical

principles and relations accessible to the nonmathematical reader is followed by an analysis of all known styles as variants of natural perspective as true varieties of realism Delineating the physical and mechanical constraints that determine the act of visual representation in painting and drawing the author traces the intimate relations among seemingly distant styles and considers the kind of perceptual information about the world each can carry Margaret Hagen is a perceptual psychologist with an ecological point of view Her rigorous but readable presentation of visual theory and research offers provocative new insights into the connections among vision geometry and art Dostoevsky's Incarnational Realism Paul J.

Contino,2020-08-17 In this book Paul Contino offers a theological study of Dostoevsky's final novel The Brothers Karamazov He argues that incarnational realism animates the vision of the novel and the decisions and actions of its hero Alyosha Fyodorovich Karamazov The book takes a close look at Alyosha's mentor the Elder Zosima and the way his role as a confessor and his vision of responsibility to all for all develops and influences Alyosha The remainder of the study which serves as a kind of reader's guide to the novel follows Alyosha as he takes up the mantle of his elder develops as a monk in the world and at the end of three days ascends in his vision of Cana The study attends also to Alyosha's brothers and his ministry to them Mitya's struggle to become a new man and Ivan's anguished groping toward responsibility Finally Contino traces Alyosha's generative role with the young people he encounters and his final message of hope **Realism in Modern Literature**

Critical Perspectives on Literature and Culture in the New World Order Washima Che Dan, Jason Sanjeev Ganesan, Noritah Omar, 2012-11-15 The fifteen chapters in this volume explore both new and tested theoretical perspectives on literature and culture at large this multiplicity of discourses is a reflection of the implicit discontent in conforming to the New World Order and a contestation against hierarchical relationships between countries which inform the social cultural and political climates of weaker nations With the political and economic hegemony of stronger nations weaker nations run the risk of being dominated or at the very least having their own national identity and sovereignty steeped in ambivalence in the face of a globalised culture This volume hopes to bring together critical views in relation to the construction of cultural studies in the Western framework the application of literary theory in the readings of vernacular literature contestation of the mainstream scientific methodology of cultural evaluation the role of English literature in Asian cultures the application of postcolonial theory in literature literary ethics in relation to Islamic literature as well as the Islamic and Western conceptions of democracy More than half of the articles in this collection centre on Islam as a guiding principle or as a context through which critical perspectives are made on literature and culture in today's globalised world order This inadvertent foregrounding of Islam reflects a continuing dialogue on and with Islam and its significant impact on existing academic discourses founded upon Western style scholarship
