**William E. Scheuerman**

## **Realism And Hope:**

**Realism and the Climate Crisis** John Foster, 2022-02-17 Hope must be mixed with realism in our approach to the climate emergency and in this book philosopher John Foster presents a revolutionary approach to our pressing need for a habitable human future

**The Realist Hope** Christopher J. Insole, 2016-02-24 Taking into consideration analytical continental historical post modern and contemporary thinkers Insole provides a powerful defence of a realist construal of religious discourse Insole argues that anti realism tends towards absolutism and hubris Where truth is exhausted by our beliefs about truth there is no conceptual space for doubting those beliefs only a conception of truth as absolute given and accessible can guarantee the very humility sense of fallibility and sensitivity to difference that the anti realist rightly values Cutting through some of the tired and well rehearsed debates in this area Insole provides a fresh perspective on approaches influenced by Wittgenstein Kant and apophatic theology The defence of realism offered is unusual in being both analytically precise and theologically sensitive with a view to some of the wider and less well explored cultural ethical and political implications of the debate

**The Protestant Face of Anglicanism** Paul F. M. Zahl, 1998 Paul F M Zahl attempts to show contrary to the opinion of many present day Anglican writers that Anglicanism is not just a via media between Rome and Geneva for example but has been stamped decisively by classic Protestant insights and concerns He also discusses the implications of Anglicanism s Protestant history for our own age suggesting that this dimension of Anglicanism has an important contribution to make to the worldwide Christian community in the new millennium Zahl opens his work by highlighting the Protestant influences in Anglican history and tradition beginning with the Reformation in England A short popular recounting of the crucial Reformation decades is followed by the story of the Protestant tradition within the Church of England from 1688 to the present Zahl then outlines the Protestant contribution to the American Episcopal Church from nineteenth century figures like Bishops Richard Channing Moore of Virginia and Gregory Thurston Bedell of Ohio through the rise of the liberal Evangelicals in the early 1900s to the Prayer Book of 1979 which effectively neutralized the Morning Prayer tradition in the Church In the final chapter Zahl sketches a four part theology of Protestant Anglican identity as well as the Protestant Anglican opportunity to speak both to the wider church and to the world at large

**Realism and Hope** Clarence MacKinnon Nicholson, 1969

**Hope When It Hurts** Sarah Walton, Kristen Wetherell, 2017-04-01 Thirty biblical meditations for women that offer hope in times of suffering Thirty biblical meditations for women that offer hope in times of suffering Hurt is real But so is hope Kristen and Sarah have walked through and are walking in difficult times So these thirty biblical reflections are full of realism about the hurts of life yet overwhelmingly full of hope about the God who gives life This book will gently encourage and greatly help any woman who is struggling with suffering whether physical emotional or psychological and whether for a season or for longer It is a book to buy for yourself or to buy for a member of your church or friend For anyone who is hurting this book will give hope not just for life beyond the suffering but for life in the suffering

Each chapter contains a biblical reflection with questions and prayers and a space for journaling

**Scientific Realism** A. Chakravartty, 2017-03-23 **A METAPHYSICS FOR SCIENTIFIC REALISM**

**A Metaphysics for Speculative Realism** Graham Harman, 2018-09-19 On April 27 2007 the first Speculative Realism SR workshop was held at Goldsmiths University of London featuring four young philosophers whose ideas were loosely allied Over the ensuing decade the ideas of SR spread from philosophy to the arts architecture and numerous disciplines in the humanities and social sciences SR has been arguably the most influential new current in continental philosophy since the works of Gilles Deleuze and Félix Guattari found their second wind in the 1990s But what is SR This book is the first general overview by one of its original members focusing on the aesthetic ethical ontological and political themes of greatest importance to the movement Graham Harman provides a balanced but critical assessment of his original SR colleagues Ray Brassier Iain Hamilton Grant and Quentin Meillassoux along with a clear summary of his own Object Oriented Ontology OOO A number of central philosophical questions tie the four chapters together What exactly is correlationism the chief enemy of SR What are the stakes of philosophical realism and is such realism better served by mathematics and the natural sciences or by a broader model of cognitive activity that includes aesthetics This book covers both the historical and conceptual development of the movement providing a first rate introduction for students aided by helpful end of chapter study questions chosen by Harman himself SR Harman shows is a vital and fast developing field in contemporary philosophy

**Children of Hope** Stephen French Whitman, 1916

**The Realist Case for Global Reform** William E. Scheuerman, 2011-04-11 Far from seeing international reform as well meaning but potentially irresponsible Progressive Realists like E H Carr John Herz Hans J Morgenthau and Reinhold Niebuhr developed forward looking ideas which offer an indispensable corrective to many presently influential views about global politics Progressive Realism Scheuerman argues offers a compelling and provocative vision of radical global change which when properly interpreted can help buttress current efforts to address the most pressing international issues

Resolves, Divine, Moral, Political Owen Felltham, 1832

*Capitalist Realism* Mark Fisher, 2009-11-27 After 1989 capitalism has successfully presented itself as the only realistic political economic system a situation that the bank crisis of 2008 far from ending actually compounded The book analyses the development and principal features of this capitalist realism as a lived ideological framework Using examples from politics films fiction work and education it argues that capitalist realism colours all areas of contemporary experience But it will also show that because of a number of inconsistencies and glitches internal to the capitalist reality program capitalism in fact is anything but realistic

Degenerative Realism Christy Wampole, 2020 A new strain of realism has emerged in France The novels that embody it represent diverse fears immigration and demographic change radical Islam feminism new technologies globalization American capitalism and the European Union but these books often best sellers share crucial affinities In their dystopian visions the collapse of France Europe and Western civilization is portrayed as all but certain and the literary mode of realism begins to break down Above all they depict a degenerative force

whose effects on the nation and on reality itself can be felt Examining key novels by Michel Houellebecq Fr d ric Beigbeder Aur lien Bellanger Yann Moix and other French writers Christy Wampole identifies and critiques this emergent tendency toward degenerative realism She considers the ways these writers draw on social science the New Journalism of the 1960s political pamphlets reportage and social media to construct an atmosphere of disintegration and decline Wampole maps how degenerative realist novels explore a world contaminated by conspiracy theories mysticism and misinformation responding to the internet age s confusion between fact and fiction with a lament for the loss of the real and an unrelenting emphasis on the role of the media in crafting reality In a time of widespread populist anxieties over the perceived decline of the French nation this book diagnoses the literary symptoms of today s reactionary revival      **Socialist Realism** Trisha Low,2019-08-13 When Trisha Low moves west her journey is motivated by the need to arrive somewhere better someplace utopian like revolution or safe like home or even clarifying like identity Instead she faces the end of her relationships a family whose values she has difficulty sharing and America s casual racism sexism and homophobia In this book length essay the problem of how to account for one s life comes to the fore sliding unpredictably between memory speculation self criticism and art criticism Low seeks answers that she knows she won t find Attempting to reconcile her desires with her radical politics she asks do our quests to fulfill our deepest wishes propel us forward or keep us trapped in the rubble of our deteriorating world      **The Realism of Blasco Ibáñez** James Obed Swain,1923      *Neoclassical realism in European politics* Asle Toje,Barbara Kunz,2024-07-30 Realism is making a comeback in Europe This book brings together a new generation of realist scholars It provides a rigorous survey for specialists seeking to understand the dynamics of international relations in a time of change The volume thus seeks to explore the European dimension to neoclassical realism The hope with this book is that it will spark a debate that in time might lead to the re emergence of a distinctly European realist school which draws on the roots of the historical non American realist tradition benefiting from insights in the liberal constructivist paradigm Through detailed case studies the book illustrates that power and influence remain fruitful even indispensable variables through which to understand the formation of foreign policy      **Early Christians Adapting to the Roman Empire** Niko Huttunen,2020-03-31 In Early Christians Adapting to the Roman Empire Mutual Recognition Niko Huttunen challenges the interpretation of early Christian texts as anti imperial documents He presents examples of the positive relationship between early Christians and the Roman society With the concept of recognition Huttunen describes a situation in which the parties can come to terms with each other without full agreement Huttunen provides examples of non Christian philosophers recognizing early Christians He claims that recognition was a response to Christians who presented themselves as philosophers Huttunen reads Romans 13 as a part of the ancient tradition of the law of the stronger His pioneering study on early Christian soldiers uncovers the practical dimension of recognizing the empire      *Commanding Hope* Thomas Homer-Dixon,2022-06-14 Calling on history cutting edge research complexity science and even The Lord of the Rings

renowned thought leader Thomas Homer Dixon lays out the tools we can command to rescue a world on the brink For three decades Thomas Homer Dixon author of *The Ingenuity Gap* and *The Upside of Down* has examined the threats to our future security predicting a deteriorating global environment extreme economic stresses mass migrations social instability and wide political violence if humankind continued on its current course He was called The Doom Meister but we now see how prescient he was Today just about everything we've known and relied on our natural environment economy societies cultures and institutions is changing dramatically too often for the worse Without radical new approaches our planet will become unrecognizable as well as poorer more violent and more authoritarian In his latest work dedicated to his young children he calls on his extraordinary knowledge of complexity science of how societies work and can evolve and of our capacity to handle threats to show that we can shift human civilization onto a decisively new path if we mobilize our minds spirits imaginations and collective values *Commanding Hope* marshals a fascinating accessible argument for reinvigorating our cognitive strengths and belief systems to affect urgent systemic change strengthen our economies and cultures and renew our hope in a positive future for everyone on Earth *The Life Indeed* John Franklin Genung,1921 **Austere Realism**

Terence E. Horgan,Matjaz Potrc,2009-08-21 A provocative ontological cum semantic position asserting that the right ontology is austere in its exclusion of numerous common sense and scientific posits and that many statements employing such posits are nonetheless true The authors of *Austere Realism* describe and defend a provocative ontological cum semantic position asserting that the right ontology is minimal or austere in that it excludes numerous common sense posits and that statements employing such posits are nonetheless true when truth is understood to be semantic correctness under contextually operative semantic standards Terence Horgan and Matjaz Potrc argue that austere realism emerges naturally from consideration of the deep problems within the naive common sense approach to truth and ontology They offer an account of truth that confronts these deep internal problems and is independently plausible contextual semantics which asserts that truth is semantically correct affirmability Under contextual semantics much ordinary and scientific thought and discourse is true because its truth is indirect correspondence to the world After offering further arguments for austere realism and addressing objections to it Horgan and Potrc consider various alternative austere ontologies They advance a specific version they call blobjectivism the view that the right ontology includes only one concrete particular the entire cosmos the blobject which although it has enormous local spatiotemporal variability does not have any proper parts The arguments in *Austere Realism* are powerfully made and concisely and lucidly set out The authors contentions and their methodological approach products of a decade long collaboration will generate lively debate among scholars in metaphysics ontology and philosophy **Hope and Realism** Izak Wachter,2001
