**Applied Linguistics as Social Science** Alison Sealey,Bob Carter,2004-01-01 Genre theory in the past few years has contributed immensely to our understanding of the way discourse is used in academic professional and institutional contexts However its development has been constrained by the nature and design of its applications which have invariably focused on language teaching and learning or communication training and consultation This has led to the use of simplified and idealised genres In contrast to this the real world of discourse is complex dynamic and unpredictable This tension between the real world of written discourse and its representation in applied genre based literature is the main theme of this book

*Dreaming and Memory: Philosophical Issues* Daniel Gregory,Kourken Michaelian,2024-10-22 This edited volume is the first systematic philosophical investigation of the complex and multifarious relationships between dreaming and memory Featuring fifteen contributions by leading researchers it explores a range of issues that arise when dreaming and memory are considered together What does one remember when one remembers what one dreamt and what is it for a memory of a dream to be accurate What are the

**Models Of Psychopathology** Davies, Dilys, Bhugra, Dinesh, 2004-05-01 Annotation

**Rational Choice Theory** Margaret S. Archer, Jonathan Q. Tritter, 2013-04-03 Rational Choice Theory is flourishing in sociology and is increasingly influential in other disciplines Contributors to this volume are convinced that it provides an inadequate conceptualization of all aspects of decision making of the individuals who make the decisions of the process by which decisions get made and of the context within which decisions get made The critique focuses on the four assumptions which are the bedrock of rational choice rationality the theory's definition of rationality is incomplete and cannot satisfactorily incorporate norms and emotions individualism rational choice is based upon atomistic individual decision makers and cannot account for decisions made by couples groups or other forms of collective action process the assumption of fixed well ordered preferences and perfect information makes the theory inadequate for situations of change and uncertainty aggregation as methodological individualists rational choice theorists can only view structure and culture as aggregates and cannot incorporate structural or cultural influences as emergent properties which have an effect upon decision making The critique is grounded in discussion of a wide range of social issues including race marriage health and education
