**The Reality of Aid 1998-1999** Judith Randel, Tony German with Deborah Ewing, 2013-11-05 NOW IN ITS SIXTH ANNUAL EDITION The Reality of Aid has for the first time analysed the fair share of bilateral aid for basic social services basic education basic health reproductive health nutrition clean water and sanitation that should come from each donor an analysis which shows only two donors meeting their fair share and the G7 nations Canada France Germany Italy Japan UK US falling behind by over US 5 billion This year and next The Reality of Aid focuses on basic education as a right and not a privilege and its role in development cooperation and poverty elimination A key feature of The Reality of Aid 1998 1999 is the ten chapters offering analysis of development cooperation from the perspective of southern NGOs Many of these focus on basic education and raise issues around transparency gender and civil society If policies were programmes and promises were dollars The Reality of Aid could report great progress on the road to eradicating global poverty this year But at a time when donors acknowledge that ending poverty is possible it seems that commitments are being offered instead of resources and real change From the Summary Part I presents a useful Summary highlighting the steps that donors could take now to make progress towards poverty eradication and reviews the trends in development cooperation debt relief measures targeted towards the new millennium and commitment to the goal of ensuring basic education for all Part II gives a full report on the overseas aid performance of OECD country aid donors and the European Union over the last year Part III sets out a Southern perspective on development cooperation Part IV provides at a glance comparisons of donors aid outlook and commitment to development cooperation in the 21st Century poverty eradication gender and public support Part V contains handy reference material Throughout the book information is presented in easily interpreted diagrams and graphs The Reality of Aid has established itself as a unique source of independent evaluation and comment on aid policies and development It is indispensable for all in the field whether in the official or voluntary sectors Indispensable it gives you most of the hard facts you need to know about the major issues New Internationalist The most comprehensive and rigorous independent analysis of the aid and development policies of the world's wealthiest nations Essential reading Charity World The Reality of Aid remains an essential purchase by the libraries of development institutions and an invaluable reference for development practitioners Development Change A reliable watchdog for anyone interested in this important aspect of international relations ORBIT An accessible reference it encompasses many key issues and stimulates further research Commonwealth Comparative Politics Originally published in 1998

**The Reality of Aid 2000** Judith Randel, Tony German, Deborah Ewing, 2013-11-05 NOW IN ITS SEVENTH ANNUAL EDITION The Reality of Aid 2000 looks at how the performance of OECD donor countries on aid and development cooperation has matched up to the challenge of eliminating absolute poverty The report charts some improvements at the level of donor policy and rhetoric But its stark conclusion is that the potential of aid to combat poverty is constantly undermined by governments both North and South who fail to address the extreme inequalities of income and

the structural social and political injustices that entrench people in poverty Part I of The Reality of Aid 2000 presents an overview of poverty in the current global context and an analysis of recent trends in aid looking particularly at basic education In Part II chapters by experts from NGOs in OECD countries and the European Union show how donor aid administrations approach poverty and highlight the weakness of political commitment in the North to the needs of the poor Part III sets out Southern perspectives on development cooperation Part IV provides at a glance comparisons of donors aid outlook and commitment to development cooperation in the 21st century poverty eradication gender and public support Throughout the book information is presented in easily interpreted diagrams and graphs The Reality of Aid has established itself as a unique source of independent evaluation and comment on aid policies and development It is indispensable for all in the field whether in the official or voluntary sectors providing a regular reality check on just how much the international community is doing to realise the achievable goal of eliminating poverty Indispensable it gives you most of the hard facts you need to know about the major issues Nett Internationalist The most comprehensive and rigorous independent analysis of the aid and development policies of the world s wealthiest nations Essential reading Charity World The Reality of Aid remains an essential purchase by the libraries of development institutions and an invaluable reference for development practitioners Development Change A reliable watchdog for anyone interested in this important aspect of international relations ORBIT An accessible reference it encompasses many key issues and stimulates further research Commonwealth Comparative Politics Originally published in 1999 Attacking Poverty ,2000 At the start of each decade the World Development Report focuses on poverty reduction The World Development Report now in its twenty third edition proposes an empowerment security opportunity framework of action to reduce poverty in the first decades of the twenty first century It views poverty as a multidimensional phenomenon arising out of complex interactions between assets markets and institutions This Report shows how the experience of poverty reduction in the last fifteen years has been remarkably diverse and how this experience has provided useful lessons as well as warnings against simplistic universal policies and interventions It shows how current global trends present extraordinary opportunities for poverty reduction but also cause extraordinary risks including growing inequality marginalization and social explosions The World Development Report 2000 2001 explores the challenge of managing these risks in order to make the most of the opportunities for poverty reduction The Right to Development and International Economic Law Isabella D Bunn,2012-03-01 The United Nations is commemorating the 25th anniversary of the 1986 Declaration on the Right to Development which proclaimed the right to be an inalienable human right by virtue of which every human person and all peoples are entitled to participate in contribute to and enjoy economic social cultural and political development in which all human rights and fundamental freedoms can be realized The UN now aims to mainstream the right into its policies and operational activities and is reviewing prospects for an internationally binding legal instrument The evolution of the right to development however has been dominated by debates about its conceptual validity and practical

ramifications It has been hailed as the cornerstone of the entire human rights system and criticized as a distracting ideological initiative Questions also persist about the role of the right in reforming the international economic order This book examines the legal and moral foundations of the right to development addressing the major issues It then considers the right to development in the global economy noting the challenges of globalization and identifying key principles such as differential treatment of developing countries participation and accountability It relates the right to broad objectives such as the Millennium Development Goals the human rights based approach to development and environmental sustainability Implications for international economic law and policy in the areas of trade development finance and corporate responsibility are assessed The conclusion looks to the legal and ethical contributions and limitations of the right to development in this new context With an academic and professional background in international law human rights and moral theology the author brings a unique interdisciplinary focus to this timely project Breaking New Ground ,2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Bread Not Bombs Douglas Roche,1999-12 Housing health and education services are desperately needed for the world s poorest people but instead governments spend billions on war The international community must be mobilized to provide human security and Senator Roche asserts that this is where Canada can play a crucial role **Challenging the Injustice of Poverty** Rehman Sobhan,2010-10-04 This book explores issues related to poverty in South Asia in a two pronged manner by focusing on injustice created and perpetuated by the unjust nature of a social order as its source and by providing concrete suggestions about how policymakers may move to challenge these injustices Drawing on research inputs from studies across various South Asian countries the book redefines poverty as a process which excludes certain segments of the society from equitable participation in development opportunities as well as decision making It further identifies a variety of operational ideas which can be used by policymakers political activists and civil society advocacy groups committed to build a more just inclusive and poverty free society in South Asia **The Journal of History** ,2011 **Go Between** ,1998 **Forced Migration and the Contemporary World** Andrzej Bolesta,2003 **Phantasms of the Living** Edmund Gurney,Frederic William Henry Myers, Frank Podmore,1918 *From Conflict to Recovery in Africa* Tony Addison,2003-02-13 Revitalizing private sectors 4 Transforming states Conclusions For a list of contributions go to the full text area of this record **Resources in Education** ,2000-04 **The Parliamentary Debates (Hansard)**.
