Reality Effect Film Culture And The Graphic Imperative:

The Reality Effect Joel Black, 2002 It used to be only movies were on film now the whole world is The most intimate and most banal moments of our lives are constantly recorded for public consumption In The Reality Effect Joel Black argues that the desire to make visible every aspect of our lives is an impulse derived from cinema one that has made life both more graphic and less real He approaches film as a documentary medium that has obscured if not obliterated the line between reality and fiction To illustrate this effect Black traces the uncanny interplay between movies and real life events through a series of comparative analyses from Lolita and the murder of JonBen t Ramsey to Wag the Dog and the Clinton scandal to Crash and Princess Diana s violent death

In Poe's Wake Jonathan Elmer, 2024-06-05 Edgar Allan Poe is one of American culture s most iconic figures inspiring countless derivations beyond the literary realm from commercial illustration and kitch to art installations and video games Why has Poe been so hugely influential in media other than his own What do filmmakers composers and other artists find in Poe that suits their purposes so often and so variously Poe s works are violent and brooding memorable both for certain grisly images and for certain prevailing moods dread creepiness mournfulness They are in other words distinctly graphic and richly atmospheric Jonathan Elmer locates the source of Poe s fascination for artists in these two vernacular aesthetic categories the graphic and the atmospheric and how well they describe our experience of the multi media world Elmer uses Poe to explore these two terms and track some deep patterns in their use not through theoretical labor but through close encounters with a wide sampling of aesthetic objects that avail themselves of Poe s work Poe we learn has come to exemplify a modern method of aesthetic production It is as if he left his box of tools lying around for others to pick up and play with The bundle of Poe traits his thematic emphasis on extreme sensation his flexible sense of form his experimental and modular method his iconic personal profile amount to what could be called a Poe brand one as likely to be found in music videos or comics as in novels and stories Ranging from Ren Magritte and Claude Debussy to Lou Reed Roger Corman and Spongebob Squarepants Elmer shows how the Poe brand opens trunk lines to aesthetic experiences fundamental to a multi media world

Spanish

Cinema in the Global Context Samuel Amago, 2013-09-11 Across a broad spectrum of media markets and national contexts self reflexivity continues to be a favored narrative mode with wide ranging functions In this book Amago argues that in

addition to making visible industry and production concerns within the film text reflexive aesthetics have a cartographic function that serves to map the place of a film geographic and cultural within the global cinemascope and thus to bring into sharper relief images of the national Focusing on films in the contemporary Spanish context that in some way reflect back on themselves and the processes of their own production that purposefully blur the distinction between reality and fiction or that draw attention to the various modes of cinematic exhibition and reception Amago proposes ways in which these movies can be employed to understand Spanish national cinemas today as imbedded within a dynamic global system The Blair Witch Project Peter Turner,2015-05-26 Few films have had the influence and impact of The Blair Witch Project 1999 Its arrival was a horror cinema palette cleanser after a decade of serial killers and postmodern intertextuality a bare bones found footage trend setter In this Devil s Advocate Peter Turner tells the story of the film from his conception and production then provides a unique analysis of the techniques used their appeal to audiences and the themes that helped make the film such an international hit including the pionerring internet marketing *Images of Blood in American Cinema* Kjetil Rødje,2016-03-09 Through studying images of blood in film from the mid 1950s to the end of the 1960s this path breaking book explores how blood as an audio visual cinematic element went from predominately operating as a signifier providing audiences with information about a film s plot and characters to increasingly operating in terms of affect potentially evoking visceral and embodied responses in viewers Using films such as The Return of Dracula The Tinsler Blood Feast Two Thousand Maniacs Color Me Blood Red Bonnie and Clyde and The Wild Bunch R dje takes a novel approach to film history by following one audio visual element through an exploration that traverses established standards for film production and reception This study does not heed distinctions regarding to genres horror western gangster or models of film production exploitation independent studio productions but rather maps the operations of cinematic images across marginal as well as more traditionally esteemed cinematic territories The result is a book that rethinks and reassembles cinematic practices as well as aesthetics and as such invites new ways to investigate how cinematic images enter relations with other images as well as with audiences **Lethal Repetition** Richard Dyer,2019-07-25 Serial killing is an extremely rare phenomenon in reality that is none theless remarkably widespread in the cultural imagination Moreover despite its rarity it is also taken to be an expression of characteristic aspects of humanity masculinity or our times Richard Dyer investigates this paradox focusing on the notion at its heart seriality He considers the aesthetics of the repetition of nastiness and how this relates to the perceptions and anxieties that images of serial killing highlight in the societies that produce them Shifting the focus away from the US which is often seen as the home of the serial killer Lethal Repetition instead examines serial killing in European culture and cinema ranging from Scandinavia to the Mediterranean and from Britain to Romania Spanning all brows of cinema including avant garde art mainstream and trash Dyer provides case studies on Jack the Ripper the equation of Nazism with serial killing and the Italian giallo film to explore what this marginal and uncommon crime is being made to

Digital Storytelling Shilo T. McClean, 2008-09-26 How digital visual effects in film can be used to support storytelling a guide for scriptwriters and students Computer generated effects are often blamed for bad Hollywood movies Yet when a critic complains that technology swamps storytelling in a review of *Van Helsing* calling it an example of everything that is wrong with Hollywood computer generated effects movies it says more about the weakness of the story than the strength of the technology In *Digital Storytelling* Shilo McClean shows how digital visual effects can be a tool of storytelling in film adding narrative power as do sound color and experimental camera angles other innovative film technologies that were once criticized for being distractions from the story It is time she says to rethink the function of digital visual effects Effects artists say contrary to the critics that effects always derive from story Digital effects are a part of production not post production they are becoming part of the story development process *Digital Storytelling* is grounded in filmmaking the scriptwriting process in particular McClean considers crucial questions about digital visual effects whether they undermine classical storytelling structure if they always call attention to themselves whether their use is limited to certain genres and looks at contemporary films including a chapter long analysis of Steven Spielberg's use of computer generated effects and contemporary film theory to find the answers McClean argues that to consider digital visual effects as simply contributing the wow factor underestimates them They are she writes the legitimate inheritors of film storycraft *Music, Performance, and the Realities of Film* Ben Winters, 2014-02-05 This book examines the relationship between narrative film and reality as seen through the lens of on screen classical concert performance By investigating these scenes wherein the performance of music is foregrounded in the narrative Winters uncovers how concert performance reflexively articulates music's importance to the ontology of film The book asserts that narrative film of a variety of aesthetic approaches and traditions is no mere copy of everyday reality but constitutes its own filmic reality and that the music heard in a film's underscore plays an important role in distinguishing film reality from the everyday As a result concert scenes are examined as sites for provocative interactions between these two realities in which real world musicians appear in fictional narratives and an audience's suspension of disbelief is problematised In blurring the musical experiences of onscreen observers and participants these concert scenes also allegorize music's role in creating a shared subjectivity between film audience and character and prompt Winters to propose a radically new vision of music's role in narrative cinema wherein musical underscore becomes part of a

shared audio visual space that may be just as accessible to the characters as the music they encounter in scenes of concert performance

The Rhetoric of the New Political Documentary Thomas W Benson, Brian J Snee, 2008-05-23 The Rhetoric of the New Political Documentary explores the most visible and volatile element in the 2004 presidential campaign the partisan documentary film This collection of original critical essays by leading scholars and critics including Shawn J and Trevor Parry Giles Jennifer L Borda and Martin J Medhurst analyzes a selection of political documentaries that appeared during the 2004 election season The editors examine the new political documentary with the tools of rhetorical criticism combining close textual analysis with a consideration of the historical context and the production and reception of the films The essays address the distinctive rhetoric of the new political documentary with the films typically having been shot with relatively low budgets in video and using interviews and stock footage rather than observation of uncontrolled behavior The quality was often good enough and interest was sufficiently intense that the films were shown in theaters and on television which provided legitimacy and visibility before they were released soon afterwards on DVD and VHS and marketed on the Internet The volume reviews such films as Michael Moore s Fahrenheit 9 11 two refutations of Moore s film Fahrenhype 9 11 and Celsius 41 11 Unprecedented The 2000 Presidential Election and George W Bush Faith in the White House films that experimented with a variety of angles and rhetorics from a mix of comic disparagement and earnest confrontation to various emulations of traditional news and documentary voices The Rhetoric of the New Political Documentary represents the continued transformation of American political discourse in a partisan and contentious time and showcases the independent voices and the political power brokers that struggled to find new ways to debate the status quo and employ surrogate independents to create a counterrhetoric

Reel Vulnerability Sarah Hagelin, 2013-07-25 Wonder women G I Janes and vampire slayers increasingly populate the American cultural landscape What do these figures mean in the American cultural imagination What can they tell us about the female body in action or in pain Reel Vulnerability explores the way American popular culture thinks about vulnerability arguing that our culture and our scholarship remain stubbornly invested in the myth of the helplessness of the female body The book examines the shifting constructions of vulnerability in the wake of the cultural upheavals of World War II the Cold War and 9 11 placing defenseless male bodies onscreen alongside representations of the female body in the military in the interrogation room and on the margins Sarah Hagelin challenges the ways film theory and cultural studies confuse vulnerability and femaleness Such films as G I Jane and Saving Private Ryan as well as such post 9 11 television shows as Battlestar Galactica and Deadwood present vulnerable men who demand our sympathy abused women who don t want our pity and images of the body in pain that do not portray weakness Hagelin s intent is to help scholarship catch up to the new iconographies emerging in theaters and in living rooms images that offer viewers reactions to the suffering body beyond pity identification with the bleeding body beyond masochism and feminist images of the female body where we least expect to find them

The Material Image Brigitte Peucker, 2007 Focusing on intermediality The Material Image situates film within questions of representation familiar from the other arts What is meant by figuring the real How is the real suggested by visual metaphors and what is its relation to illusion How is the spectator figured as entering the text and how does the image enter our world The film s spectator is integral to these concerns Cognitive and phenomenological approaches to perception alike claim that spectatorial affect is real even when it is film that produces it Central to the staging of intermediality in film tableaux moments in film also figure prominently in the book Films by Scorsese Greenaway Wenders and Kubrick are seen to address painterly photographic and digital images in relation to effects of the real Hitchcock s films are examined with regard to modernist and realist effects in painting Chapters on Fassbinder and Haneke analyze the significance of tableau for the body in pain while a final chapter on horror film explores the literalism of psychopathic tableau Here too art and the body images and the real are juxtaposed and entwined in a set of relations

Hooked in Film John Markert, 2013-05-23 Though drug use was widespread in the nineteenth century the negative influence of narcotics was mostly unknown Cinema of the early twentieth century was instrumental in making viewers aware of the harmful effects of drugs Throughout the decades images of drugs such as marijuana LSD and heroin in

films impacted both negatively and positively the national perception of their use. In fact, the use, popularity, and opinion of certain drugs often follow their status on the big screen. In *Hooked in Film*, John Markert takes a close look at the correlation between social policies and the public view of drugs and their portrayals in film. In this volume, Markert examines the changing social attitudes toward illegal drugs and their cinematic depictions from as early as the 1894 film *Chinese Opium Den* to the present. The first section of this book focuses on the demonization of drugs between 1900 and 1959, followed by an assessment of marijuana on the big screen after 1960 when the drug was shown as part of everyday life with no serious consequences. Post-1960 depictions of heroin use, which have remained consistently negative, are also analyzed. Markert then takes a close look at the portrayals of powdered cocaine after the 1960s and the emergence of crack in the mid-1980s. Finally, Markert discusses hallucinogens, Ecstasy, and methamphetamines and their roles on the big screen. Tracking hundreds of films spanning more than a century, *Hooked in Film* looks at camp classics like *Reefer Madness*, comedies such as *Cheech and Chong's Up in Smoke*, *Dazed and Confused*, and *Pineapple Express*, and dramas including *Panic in Needle Park* and *Requiem for a Dream*. Scholars and students of cinema, popular culture, media studies, and sociology will find this book a valuable examination of how cinematic portrayals of drugs have changed over time and how those images have influenced public perception of drugs and even public policy.
