Crawford William Jackson Crawford,1919 *The Reality of Psychic Phenomena* Stanley A. Stratford,1994-01-01 *Science and Psychic Phenomena* Chris Carter,2012-02-22 A factual and conscientious argument against materialism s vehement denial of psi phenomena Explores the scandalous history of parapsychology since the scientific revolution of the 17th century Provides reproducible evidence from scientific research that telepathy clairvoyance precognition and psychokinesis are real Shows that skepticism of psi phenomena is based more on a religion of materialism than on hard science Reports of psychic abilities such as telepathy clairvoyance precognition and psychokinesis date back to the beginning of recorded human history in all cultures Documented reproducible evidence exists that these abilities are real yet the mainstream scientific community has vehemently denied the existence of psi phenomena for centuries The battle over the reality of psi has carried on in scientific academies courtrooms scholarly journals newspapers and radio stations and has included scandals wild accusations ruined reputations as well as bizarre characters on both sides of the debate If true evidence exists why then is the study of psi phenomena parapsychology so controversial And why has the controversy lasted for centuries Exploring the scandalous history of parapsychology and citing decades of research Chris Carter shows that contrary to mainstream belief replicable evidence of psi phenomena exists The controversy

over parapsychology continues not because ESP and other abilities cannot be verified but because their existence challenges deeply held worldviews more strongly rooted in religious and philosophical beliefs than in hard science Carter reveals how the doctrine of materialism in which nothing matters but matter has become an infallible article of faith for many scientists and philosophers much like the convictions of religious fundamentalists Consequently the possibility of psychic abilities cannot be tolerated because their existence would refute materialism and contradict a deeply ingrained ideology By outlining the origin of this passionate debate Carter calls on all open minded individuals to disregard the church of skepticism and reach their own conclusions by looking at the vast body of evidence Parapsychology. Frontier Science of the Mind. A Survey of the Field, the Methods, and the Facts of ESP and PK Research Joseph Banks RHINE (and PRATT (Joseph Gaither)),1958 **The Reality of ESP** Russell Targ,2012-03-27 The co founder of the 20 year government supported ESP research program at Stanford Research Institute delivers the evidence of psychic abilities that he has collected Original

Phenomena Annie Jacobsen,2017-03-28 The definitive history of the military s decades long investigation into mental powers and phenomena from the author of Pulitzer Prize finalist *The Pentagon s Brain* and international bestseller *Area 51* This is a book about a team of scientists and psychics with top secret clearances For more than forty years the U S government has researched extrasensory perception using it in attempts to locate hostages fugitives secret bases and downed fighter jets to divine other nations secrets and even to predict future threats to national security The intelligence agencies and military services involved include CIA DIA NSA DEA the Navy Air Force and Army and even the Joint Chiefs of Staff Now for the first time New York Times bestselling author Annie Jacobsen tells the story of these radical controversial programs using never before seen declassified documents as well as exclusive interviews with and unprecedented access to more than fifty of the individuals involved Speaking on the record many for the first time are former CIA and Defense Department scientists analysts and program managers as well as the government psychics themselves Who did the U S government hire for these top secret programs and how do they explain their military and intelligence work How do scientists approach such enigmatic subject matter What interested the government in these supposed powers and does the research continue *Phenomena* is a riveting investigation into how far governments will go in the name of national security

Mapping Psychic Reality James Rose,2018-05-08 This book is about how we can deepen our understanding of subjectivity through the use of the concept of triangulation Fundamentally this book seeks to address the question of how we can be objective about subjectivity If psychology as a scientific discipline is concerned with the study of human experience which is essentially subjective then we are faced with the problem of how apply the scientific method as it is commonly understood If experience is essentially unique to the experiencer then there seems to be a basic incompatibility with the scientific method As currently practised this method searches for psychic phenomena which can be validly measured e g intelligence showing a range of individual differences But this does not enable us to examine individual experience An individual s experience seems

to become impenetrable because generalisation across different individuals experience entails the loss of individuality in the generalisation **The ESP Enigma** Diane Hennacy Powell, 2009 Integrating concepts from physics neuroscience and other disciplines Dr Powell offers an insightful and intriguing explanation of ESP provocatively claiming that the existence of psychic abilities expands the understanding and appreciation of consciousness **Parapsychology and the Skeptics** Chris Carter, 2007 *Reality of Psychic Phenomena Raps, Levitations, Etc* W. J. Crawford D. Sc, 2019 **The Law of Psychic Phenomena** Thomson Jay Hudson, 1893
