Spanish Poetry Pedro Salinas Serrano, 1940 **The Child Poet** Homero Aridjis, 2016-02-23 An icon of Latin American literature captures the strangeness of childhood as he explores the aftermath of a long ago injury in this searching lyrical memoir with elements of magical realism reminiscent of Garc a M rquez Kirkus Reviews Homero Aridjis has always said that he was born twice The first time was to his mother in April 1940 and the second time was as a poet in January 1951 His life was distinctly cleaved in two by an accident Before that fateful Saturday he was carefree and confident the youngest of five brothers growing up in the small Mexican village of Contepec Michoac n After the accident in which he nearly died on the operating table after shooting himself with a shotgun his brothers had left propped against the bedroom wall he became a shy introspective child who spent afternoons reading Homer and writing poems and stories at the dining room table instead of playing soccer with his classmates After the accident his early childhood became like a locked garden But in 1971 when his wife became pregnant with their first daughter the memories found a way out Visions from this elusive period started coming back to him in astonishingly vivid dreams giving shape to what would become The Child Poet Aridjis is joyously imaginative The Child Poet has urgency but still takes its time celebrating images and feelings and the strangeness of childhood Readers will love being in the world he has created Aridjis paints the pueblo of Cotepec the landscape the campesinos the Church the legacy of the Mexican Revolution through the eyes of a sensitive child *Invisible Reality* Juan Ram n Jim nez, 1987 Fantasy, 1935 **Reality and the Poet in Spanish Poetry** Pedro Salinas, 1966 **Spanish**

Poetry of the Twentieth Century Andrew Debicki, 2021-12-14 Twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse More important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers

detailed discussions of salient books and texts to construct an original and compelling view of his subject He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product By centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives The late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self referential lyricism This book will be essential reading for specialists in modern Spanish letters for advanced students and for readers interested in comparative literature

A Tale Blazed Through Heaven Oliver J. Noble-Wood, 2014-10-16 A Tale Blazed Through Heaven examines developments in the representation of the classical tale of Mars Venus and Vulcan in the literature and painting of the Golden Age of Spain c 1526-1681 Anchored in close analysis of individual primary texts the five chapters that comprise this study assess how poets and painters breathed new life into the tale inherited from Homer Ovid and others examining some of the ways in which the story of Mars Venus and Vulcan was disguised developed expanded mocked combined with or played off against different subjects or otherwise modified in order to pique the interest of successive generations of readers and viewers Each chapter discusses what particular changes and shifts in emphasis reveal about the tale itself specific renderings the aims and intentions of individual poets and painters and the wider context of the literary and visual culture of Early Modern Spain Discussing a range of poems by both canonical Garcilaso de la Vega Luis de Góngora Lope de Vega etc and less well known writers Juan de la Cueva Alonso de Castillo Solrzano Salvador Jacinto Polo de Medina etc and culminating in detailed examination of select mythological works by Philip IV's court painter Diego Velázquez this book sheds light on questions relating to aspects of classical reception in the Renaissance the rise of specific poetic styles epic mock epic burlesque etc the interplay between the sister arts of poetry and painting and the continual process of imitation and invention that was one of the defining features of the Spanish Golden Age

Woman and the Infinite Vialla Hartfield-Méndez, 1996 Woman and the Infinite demonstrates how Pedro Salinas's poetry and frequently overlooked narrative and theater reveal a preoccupation with the nature of time especially extraordinary moments that transcend space and time Many of these moments are intimately connected with the man woman relationship Salinas's exploration of this theme is best understood in the context of other modern literary evocations of epiphanic moments Such literary phenomena as William Wordsworth's spots of time and James Joyce's epiphanies are among the precursors of Salinas's moments of eternity as are moments of timelessness in works by Marcel Proust and the French Symbolist poets Salinas's reception of the Symbolists was direct but also refracted through his reading of the Latin American modernistas especially Rubén Darío In his well known commentary on Darío Salinas

connects the perception of woman with a visionary moment of extraordinary lucidity a connection found in his own works Woman is elusive for Salinas She has a multiplicity of forms and varying identities that are expressed with mirrors and shadows or Classical and Biblical mythological archetypes All of these are found in Aurora de verdad from Vispera del gozo a narrative piece which can be read as representative of Salinas s work as a whole Specific images in the story including mirrored figures and references to mythological goddesses are also key elements in a trajectory in Salinas s works in general toward an all encompassing absolute and infinite moment

Theories of Literary Realism Dario Villanueva,1997-04-24 Realism has not only shaped important schools and periods in literary history but has also been a fundamental constant of all literature its first theoretical formulation being the principle of mimesis in Aristotle s Poetics Realism can be considered by extension one of the main aspects of literary theory the aims of which must be to define its concepts clearly and to neutralize the imprecision polysemy and ambiguity that often characterized the application of realism This book explores the possibilities and limits of a concept of realism that seeks a point of equilibrium between the principle of the autonomy of the literary work vis a vis reality and the complex relations that the work clearly establishes with this reality It acknowledges that it is a personal response to the poststructuralist crisis in literary theory By concentrating on the study of the literary work of art as a verbal construction the great Continental and Anglo American tradition of formalism and New Criticism has ended up neglecting the second mimetic aspect of the literary problematic thus dissociating literature from life

The Symbolist Movement in the Literature of European Languages Anna Balakian,Anna Elizabeth Balakian,1984 Edited by Anna Balakian this volume marks the first attempt to discuss Symbolism in a full range of the literatures written in the European languages The scope of these analyses which explore Latin America Scandinavia Russia Poland Hungary Serbia Czechoslovakia and Bulgaria as well as West European literatures continues to make the volume a valuable reference today As Ren Wellek suggests in his historiographic contribution the fifty one contributors not only make us think afresh about individual authors who are giants but also draw us to reassess schools and movements in their local as well as international contexts Reviewers comment that this copious and intelligently structured anthology divided into eight parts traces the conceptual bases and emergence of an international Symbolist movement showing the spread of Symbolism to other national literatures from French sources as well as the symbiotic transformations of Symbolism through appropriation and amalgamation with local literary trends Several chapters deal with the relationships between literature and the other arts pointing to Symbolism at work in painting music and theatre Other chapters on the psychological aspects of the Symbolist method connect in interesting ways to a vision of metaphor and myth as virtually musical notation and an experimental emphasis on the play afforded by gaps between words The volume is a major contribution to the most significant exponents and essential themes of Symbolism The theoretical historical and typological sections of the volume help explain why the impact of this important movement of the fin de si cle is

Kerr, 2017 Traces the processes and paradoxes at work in the late parodic poetry of Luis de G ngora and Lope de Vega illuminating correlations and connections **To Live in Pronouns** Pedro Salinas, 1974 Reality and the Poet in Spanish Poetry , by Pedro Salinas. Translated by Elizabeth Fishtine Helman Pedro Salinas, Edith Helman, 1966 *Crossfire* Roberta Johnson, 2021-10-21 The marriage of philosophy and fiction in the first third of Spain s twentieth century was a fertile one It produced some truly notable offspring novels that cross genre boundaries to find innovative forms and treatises that fuse literature and philosophy in new ways In her illuminating interdisciplinary study of Spanish fiction of the Silver Age Roberta Johnson places this important body of Spanish literature in context through a synthesis of social literary and philosophical history Her examination of the work of Miguel de Unamuno Pio Baroja Azorin Ramon Perez de Ayala Juan Ramon Jimenez Gabriel Miro Pedro Salinas Rosa Chacel and Benjamin Jarnes brings to light philosophical frictions and debates and opens new interpersonal and intertextual perspectives on many of the period s most canonical novels Johnson reformulates the traditional discussion of generations and isms by viewing the period as an intergenerational complex in which writers with similar philosophical and personal interests constituted dynamic groupings that interacted and constantly defined and redefined one another Current narratological theories including those of Todorov Genette Bakhtin and Martinez Bonati assist in teasing out the intertextual maneuvers and philosophical conflicts embedded in the novels of the period while the sociological and biographical material bridges the philosophical and literary analyses The result solidly grounded in original archival research is a convincingly complete picture of Spain s intellectual world in the first thirty years of this century *Crossfire* should revolutionize thinking about the Generation of 98 and the Generation of 14 by identifying the heterogeneous philosophical sources of each and the writers reactions to them in fiction
