their work Their exhaustive research on this topic endlessly backed up by Scripture is evident throughout this book *God Encounters* is an excellent primer on how to move into deeper realms of the prophetic and supernatural as well how to reap the benefits of God encounters *Religion of the Gods* Kimberley Christine Patton, 2009 In many of the world's religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships Various interpretations of this seeming paradox have been advanced Some suggest that it represents sacrifice to a higher deity Proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities However such explanations do not do justice to the complexity and diversity of this phenomenon In *Religion of the Gods* Kimberley C Patton uses a comparative approach to take up anew a longstanding challenge in ancient Greek religious iconography why are the Olympian gods depicted on classical pottery making libations The sacrificing gods in ancient Greece are compared to gods who perform rituals in six other religious traditions the Vedic gods the heterodox god Zurvan of early Zoroastrianism the Old Norse god Odin the Christian God and Christ the God of Judaism and Islam's Allah Patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences Instead of looking for invisible recipients or lost myths Patton proposes the new category of divine reflexivity Divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human realm Above all divine ritual is generative both instigating and inspiring human religious activity The religion practiced by the gods is both like and unlike human religious action Seen from within the religious tradition gods are not big people but other than human Human ritual is directed outward to a divine being but the gods practice ritual on their own behalf Cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed Offering the first comprehensive study and a new theory of this fascinating phenomenon *Religion of the Gods* is a significant contribution to the fields of classics and comparative religion Patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself
