Colarte, 2011-07-21 Pedro Angel Garcia Colarte makes his debut as a sage writer exploring the topics of wisdom virtue and honor in a world where myths legends and folktales come alive When a cankerous old man on a park bench tells the story of an old venerable tree and how Aram the lonely goatherd once saved it from ruin many years ago in antiquity the reader is transported to the world of the forgotten ancient civilizations that once ruled Eurasia The story weaves together the mysterious legend of Aratta the folktale of the Golden Apple Tree the myth of Osiris and other timeless tales providing a window to another time where the symbols of our past come alive Arams lowly and humble station in life as a goatherd does not hamper his quick and serendipitous ascendance to the kings court steeped in intrigue and danger Charged with the task of capturing a mythical creature which only he has seen Aram sets out on a journey across distant lands but not before unexpected obstacles appear Whether by his own wit chance or hidden forces beyond his understanding he confronts each challenge and succeeds only to find that he is no closer to the truth he secretly yearns to discover He enlists the support of an unlikely band of followers along the way and as news of his exploits spread his popularity increases and places him at the head of a widespread revolution in the kingdom *The God-given Martial God* Mi TuDeFaShi, 2020-06-16 A youth born with a blocked meridian actually obtained a miraculous skill that could only be practiced by those with a broken meridian He used it to rise to the top when his family was in danger cutting through all obstacles in a world where the strong ruled He gradually walked towards the path of becoming a peak expert Close Master of Immortal Cultivation Gabriel

Medieval Images, Icons, and Illustrated English Literary Texts Maidie Hilmo,2019-10-30 The function of images in the major illustrated English poetic works from the Anglo Saxon period to the early fifteenth century is the primary concern of this book Hilmo argues that the illustrations have not been sufficiently understood because modern judgments about their artistic merit and fidelity to the literary texts have got in the way of a historical understanding of their function The author here proves that artists took their work seriously because images represented an invisible order of reality that they were familiar with the vernacular poems and that they were innovative in adapting existing iconographies to guide the ethical reading process of their audience To provide a theoretical basis for the understanding of early monuments artefacts and texts she examines patristic opinions on image making supported by the most authoritative modern sources Fresh emphasis is given to the iconic nature of medieval images from the time of the iconoclastic debates of the 8th and 9th centuries to the renewed anxiety of image making at the time of the Lollard attacks on images She offers an important revision of the reading of the Ruthwell Cross which changes radically the interpretation of the Cross as a whole Among the manuscripts examined here are the Caedmon Auchinleck Vernon and Pearl manuscripts Hilmo s thesis is not confined to overtly religious texts and images but deals also with historical writing such as Layamon s Brut and with poetry designed ostensibly for entertainment such as the Canterbury Tales This study convincingly demonstrates how the visual and the verbal interactively manifest the real text of each illustrated literary work The artistic

elements place vernacular works within a larger iconographic framework in which human composition is seen to relate to the activities of the divine Author and Artificer Whether iconic or anti iconic in stance images by their nature were a potent means of influencing the way an English author's words accessible in the vernacular were thought about and understood within the context of the theology of the Incarnation that informed them and governed their aesthetic of spiritual function This is the first study to cover the range of illustrated English poems from the Anglo Saxon period to the early 15th century
