## Realms Of Philosophy:

**Realms of Philosophy** William S. Sahakian, Ph. D.,1974      Realms of Philosophy William S. Sahakian,Mabel Lewis Sahakian,1981-01-01      *Hegel's Realm of Shadows* Robert B. Pippin,2018-11-16 Hegel frequently claimed that the heart of his entire system was a book widely regarded as among the most difficult in the history of philosophy *The Science of Logic* This is the book that presents his metaphysics an enterprise that he insists can only be properly understood as a logic or a science of pure thinking Since he also wrote that the proper object of any such logic is pure thinking itself it has always been unclear in just what sense such a science could be a metaphysics Robert B Pippin offers here a bold original interpretation of Hegel's claim that only now after Kant's critical breakthrough in philosophy can we understand how logic can be a metaphysics Pippin addresses Hegel's deep constant reliance on Aristotle's conception of metaphysics the difference between Hegel's project and modern rationalist metaphysics and the links between the logic as metaphysics claim and modern developments in the philosophy of logic Pippin goes on to explore many other facets of Hegel's thought including the significance for a philosophical logic of the self-conscious character of thought the dynamism of reason in Kant and Hegel life as a logical category and what Hegel might mean by the unity of the idea of the true and the idea of the good in the Absolute Idea The culmination of Pippin's work on Hegel and German idealism this is a book that no Hegel scholar or historian of philosophy will want to miss      **In the Realm of Legal and Moral Philosophy** M. Kramer,1998-12-06 In this wide ranging investigation of many prominent issues in contemporary legal political and moral philosophy Matthew Kramer combines penetrating critiques with original theorising as he examines the writings of numerous major theorists including Ronald Dworkin H L A Hart Alan Gewirth Ronald Coase and Richard Posner Among the many topics covered by Kramer's essays are the relative merits of legal positivism and natural law theory the appropriate understanding of justice the role of consequences in moral decision making and the ultimate foundations of moral judgements      Realms of Being... George Santayana,1942      **The Realm of Essence** George Santayana,1928      **An Initial View of Final Causes** Robert S. Bretzlaff,2016-11-26      The Realm of Spirit George Santayana,1940      **A Philosophy of Madness** Wouter Kusters,2020-12-01 An incredible publishing event a philosopher draws on his own experience of madness as he takes readers on an unforgettable journey through the philosophy of psychosis and the psychosis of philosophy In this book philosopher and linguist Wouter Kusters examines the philosophy of psychosis and the psychosis of philosophy By analyzing the experience of psychosis in philosophical terms Kusters not only emancipates the experience of the psychotic from medical classification he also emancipates the philosopher from the narrowness of academia allowing philosophers to engage in real life praxis philosophy in vivo Philosophy and madness Kusters's preferred non medicalized term coexist one mirroring the other Drawing on his own experience of madness two episodes of psychosis twenty years apart Kusters argues that psychosis presents itself to the psychotic as an inescapable truth and reality      **Realms of Being** George Santayana,1972      **The**

**Realm of Truth** George Santayana,1937      **The Realm of Matter** George Santayana,1937      Being Inclined Mark Sinclair,2019 Being Inclined is the first book in English about the work of Felix Ravaisson France s most influential philosopher in the second half of the nineteenth century Sinclair offers a study of Ravaisson s masterpiece Of Habit 1838 in its intellectual context and demonstrates its continued importance for contemporary thought      *Life as Insinuation* Katarzyna Krempleska,2019-01-01 In this book Katarzyna Krempleska offers a thorough analysis of Santayana s conception of human self viewed as part of his larger philosophy of life Santayana emerges as an author of a provocative philosophy of drama in which human life is acted out Krempleska demonstrates how his thought addresses the dynamics of human self in this context and the possibility of sustaining self integrity while coping with the limitations of finite life Focusing on particular aspects of Santayana s thought such as his conception of the tragic aspect of existence and the role of the doctrine of spirit in his philosophical anthropology and critique of culture this book also sets Santayana s thought in substantial dialogue with other thinkers such as Heidegger Bergson and Nietzsche Like Santayana s philosophy this book seeks to build passages between theoretical reflection and practical life with the possibility of a good life in view

**Philosophy in the Islamic World** Ulrich Rudolph,Peter Adamson,Rotraud Hansberger,2016-11-17 A comprehensive reference work covering all figures of the earliest period of philosophy in the Islamic world Both major and minor thinkers are covered with details of biography and doctrine as well as detailed lists and summaries of each author s works

**Redefining A Philosophy for World Governance** Tingyang Zhao,2019-02-12 This Key Concepts pivot discusses the contemporary relevance of the ancient Chinese concept of Tianxia or All Under Heaven and argues the case for a new global political philosophy All under heaven is a conceptualization of the world as the composition of three realms the physical psychological and political which places inclusivity and harmony at the heart of a global world view above other considerations transcending the notion of nation state In a highly interconnected and globalized world the idea of Tianxia can offer a new 21st century vision of international relations and world order based on a harmonized global organization defined by the all inclusiveness principle Promoting the ontology of co existence and relational rationality hand in hand with rational risk aversion in a globalized world this pivot makes the case that Tianxia could offer a new vision for contemporary world order redefining the universality and legitimacy of politics

**Books of Secrets** Allison Kavey,2010-10-01 How cultural categories shaped and were shaped by new ideas about controlling nature Ranging from alchemy to necromancy books of secrets offered medieval readers an affordable and accessible collection of knowledge about the natural world Allison Kavey s study traces the cultural relevance of these books and also charts their influence on the people who read them Citing the importance of printers in choosing the books contents she points out how these books legitimized manipulating nature thereby expanding cultural categories such as masculinity femininity gentleman lady and midwife to include the willful command of the natural world      Future People Tim Mulgan,2006-01-05 What do we owe to our descendants How do we

balance their needs against our own Tim Mulgan develops a new theory of our obligations to future generations based on a new rule consequentialist account of the morality of individual reproduction He argues that the resulting theory accounts for a wide range of independently plausible intuitions covering individual morality intergenerational justice and international justice In particular the moderate consequentialist approach is superior to its two main rivals in this area person affecting theories and traditional consequentialism The former fall foul of Parfit's Non Identity Problem while the latter are invariably implausibly demanding Mulgan also claims that most puzzles in contemporary value theory such as Parfit's Repugnant Conclusion are actually puzzles in the theory of right action and can only be solved if we abandon strict consequentialism for a more moderate alternative The heart of the book is the first systematic exploration of the rule consequentialist account of the morality of individual reproduction Mulgan demonstrates that this account is superior to all available alternatives both consequentialist and non consequentialist Once we recognise the intergenerational dimension moral and political philosophy cannot be considered in isolation The latter must be founded on the former Rule consequentialism provides the best foundation for a theory of intergenerational justice Future People brings together several different contemporary philosophical discussions obligations to future generations the morality of individual reproduction the demands of morality and international justice While the focus is on developing a new account there are also substantial discussions of alternative views especially contract based accounts of intergenerational justice and competing forms of consequentialism Collected Supernotational Writings Vol.I John O'Loughlin,2022-03-18 In Volume 1 of a projected two volume philosophy project author John O Loughlin has combined the titles Devil and God From Materialism to Idealism Towards the Supernoumenon and Elemental Spectra all of which date from the mid late 1980s with a view to bringing some kind of strict chronology to bear on a series of writings that he dubs supernotational to distinguish them from essays on the one hand and strictly aphoristic or maximistic material on the other hand thereby treading a kind of half way path between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate so he believes with Supertruth and ultimately a kind of plateau of aphoristic purism A Centretruths Editorial **The Realm of Essence** George Santayana,2013-10 This is a new release of the original 1927 edition
