Reappraisal Of Canadian History Pre Conf:

Readings in Canadian History: Pre-Confederation R. Douglas Francis, Donald B. Smith, 2002 **Canadian History: Beginnings to Confederation** Martin Brook Taylor, Doug O'ram, 1994-01-01 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship Cover Strategy and Command Roy A. Prete, 2021-06-16 Falling between the War of Movement in 1914 and the major attrition battles of 1916 1915 was a critical year in the First World War As France failed in ever larger offensives to break through the German trenches Britain shifted its strategy from defence of empire to total commitment to the continental war In the second of three planned volumes Roy Prete analyzes the political and military policies and strategies of Britain and France and their joint command relationship on the Western Front in 1915 The opposing strategies of the two governments proved to be the main determinant in the sometimes ragged relations between the French commander in chief Joseph Joffre and his British counterpart Sir John French as they sought to drive the German army out of France and to aid their hard pressed Russian ally With an impressive marshalling of evidence *Strategy and Command* demonstrates that the increased British commitment to the continental war manifested in sending Kitchener's New Armies to France in 1915 was largely due to the disastrous situation of the Russian army on the Eastern Front and the perceived weakness of the French government Based on extensive research in French and British political and military archives this new in depth study of Anglo French military relations on the Western Front in 1915 fills a major gap in the unfolding drama of the First World War *Armaments and the Coming of War* David Stevenson, 1996 David Stevenson directs attention away from the Anglo German naval race towards the competition on land between the continental armies He analyses the defence policies of the Powers and the interaction between the growth of military preparedness and the diplomatic crises in the Mediterranean and the Balkans that culminated in the events of July August 1914 **Special Papers Available** Foreign Affairs Research Documentation Center, 1969 **Foreign Affairs Research Special Papers Available** Foreign Affairs Research Documentation Center, 1970 **The Commonwealth Experience** Nicholas Mansergh, 1982-12-01 **Reformers, Rebels and Revolutionaries** A. Ross McCormack, 1991-01-01 The opening of the twentieth century saw a fervour of radical political movements in Western Canada Ross McCormack explores the constituencies ideologies and development of early reformist syndicalist and socialist organizations from the 1880s up to the Winnipeg General Strike in 1919 He distinguishes three types of radicals reformers rebels and revolutionaries who competed with each other to fashion a general western constituency The reformers wanted to change society for the betterment of the workers but both their aims and methods were moderate essentially transferring the philosophy and tactics of the British labour movement to the Canadian west The rebels militant industrial unionists periodically battled the Trades and Labour Congress in order to establish unions strong enough to defeat the employers and if necessary the state The revolutionary

Marxists were committed to the destruction of industrial capitalism and the establishment of a society controlled by the workers. The book describes the origins of radicalism, traces the histories of the various organizations that expressed its ideals, and discusses the impact of the First World War on the labour movement. Using previously unexplored sources, McCormack has produced the first comprehensive examination of the early history of the radical movement in western Canada, adding an important dimension to our knowledge and understanding of Canadian labour history. **Report of**

Proceedings of the ... Annual Tax Conference Convened by the Canadian Tax Foundation Canadian Tax

Foundation, 1977 **From Victoria to Vladivostok** Benjamin Isitt, 2010-05-01 As the last guns sounded on the Western Front, 4 200 Canadian soldiers, some of them conscripts, travelled from Victoria to Vladivostok to open a new theatre of war in Siberia. Part of the Allied intervention in Russia's civil war, the force sought to defeat Bolshevism, but grim conditions, conflict among the Allies, and local opposition eventually forced Canada to evacuate the troops. This groundbreaking book brings to life a forgotten chapter in the history of Canada and Russia. Combining military and labour history with the social history of British Columbia, Quebec, and Russia, Benjamin Isitt examines how the Siberian Expedition exacerbated tensions within Canadian society at a time when a radicalized working class, many French Canadians, and even the soldiers themselves objected to Canada's military adventure designed to alter the outcome of the Russian Revolution. The result is a highly readable and provocative work that challenges public memory of the First World War while illuminating tensions both in Canada and worldwide that shaped the course of twentieth-century history. **Reflections on Canada's Past, Present and**

Future in International Law/Réflexions sur le passé, le présent et l'avenir du Canada en droit international

Oonagh E. Fitzgerald, Valerie Hughes, Mark Jewett, 2018-06-30 Marking 150 years since Confederation provides an opportunity for Canadian international law practitioners and scholars to reflect on Canada's rich history in international law and governance where we find ourselves today in the community of nations and how we might help shape a future in which Canada's rules-based and progressive approach to international law gains ascendancy. This collection of essays, each written in the official language chosen by the authors, provides a thoughtful perspective on Canada's past and present in international law, surveys the challenges that lie before us, and offers renewed focus for Canada's pursuit of global justice and the rule of law. Part I explores the history and practice of international law, including sources of international law, Indigenous treaties, international treaty diplomacy, domestic reception of international law, and Parliament's role in international law. Part II explores Canada's role in international law, governance, and innovation in the broad fields of economic, environmental, and intellectual property law. Part III explores Canadian perspectives on developments in international human rights and humanitarian law, including judicial implementation of these obligations, international labour law, business and human rights, international criminal law, war crimes, child soldiers, and gender. **Reflections on Canada's Past, Present and Future in International Law** **Réflexions sur le passé, le présent et l'avenir du Canada en droit international** demonstrates the pivotal role

that Canada has played in the development of international law and signals the essential contributions the country is poised to make in the future
