New Contexts of Canadian Criticism Ajay Heble, Donna Palmateer Pennee, J.R. Struthers, 1997-04-18 Times change lives change and the terms we need to describe our literature or society or condition what Raymond Williams calls keywords change with them Perhaps the most significant development in the quarter century since Eli Mandel edited his anthology *Contexts of Canadian Criticism* has been the growing recognition that not only do different people need different terms but the same terms have different meanings for different people and in different contexts Nation history culture art identity the positions we take discussing these and other issues can lead to conflict but also hold the promise of a new sort of community Speaking of First Nations people and their literature Beth Brant observes that Our connections are like the threads of a weaving While the colour and beauty of each thread is unique and important together they make a communal material of strength and durability *New Contexts of Canadian Criticism* is designed to be read to work in much the same manner

Auto Pact Dimitry Anastakis, 2005-11-26 The 1965 Canada United States Automotive Trade agreement fundamentally reshaped relations between the automotive business and the state in both countries and represented a significant step toward the creation of an integrated North American economy Breaking from previous conceptions of the agreement as solely a product of intergovernmental negotiation Dimitry Anastakis's *Auto Pact* argues that the big three auto companies played a pivotal role and benefited immensely in the creation and implementation of this new automotive regime With the border effectively erased by the agreement the pact transformed these giant enterprises into truly global corporations Drawing from newly released archival sources Anastakis demonstrates that for Canada's automotive policy makers continentalism was a form of economic nationalism Although the deal represented the end of any notion of an indigenous Canadian automotive industry significant economic gains were achieved for Canadians under the agreement Anastakis provides a fresh and alternative view of the auto pact that places it firmly within contemporary debates about the nature of free trade as well as North American and indeed global integration Far from being a mere artefact of history the deal was a forerunner to what is now known as globalization

[Fishing a Borderless Sea](#) Brian J. Payne, 2010-02-16 Over the centuries processing and distribution of products from land and sea has stimulated the growth of a global economy In the broad sweep of world history it may be hard to imagine a place for the meager little herring baitfish Yet as Brian Payne adeptly recounts the baitfish trade was hotly contested in the Anglo American world throughout the nineteenth century Politicians called for wars navies were dispatched with guns at the ready vessels were seized at sea and violence erupted at sea Yet the battle over baitfish was not simply a diplomatic or political affair Fishermen from hundreds of villages along the coastline of Atlantic Canada and New England played essential roles in the construction of legal authority that granted or

denied access to these profitable bait fisheries Fishing a Borderless Sea illustrates how everyday laborers created a complex system of environmental stewardship that enabled them to control the local resources while also allowing them access into the larger global economy **Canadian Books in Print.
