John Donne, Coterie Poet Arthur F. Marotti, 2008-08-01 Arthur F Marotti has produced the first systematic study of John Donne s poetry as coterie literature offering fresh interpretations of the poems in their biographical and sociohistorical contexts It will be of interest and value to students and scholars of English Renaissance literature to critics interested in the application of revisionist history to literary study and to those concerned with the processes by which literature became institutionalized in the early modern period Donne treated poetry as an avocation restricting his verse to carefully chosed readers friends acquaintances patrons and the woman he later married This study employs socio historical and psychoanalytic methods to examine this poetry as work designed for readers to respond in knowledgeable ways to a complex interplay of literary text and social context Marotti argues that it is necessary to relate literary language to the languages of social economic and political transactions and to define the social and ideological affiliations of literary genres and modes After setting Donne s practice in the framework of the sixteenth century systems of manuscript literary transmission Marotti treats the verse chronologically and according to audience paying particular attention to the rhetorical

enactment of the author's relationships to peers and superiors through the conflicting styles of egalitarian assertion, social iconoclasm, and deferential politeness. Marotti relates the poetry to Donne's contemporary prose, discussing the author's choice of various literary forms in the context of his sociopolitical life as well in terms of the shift from Elizabethan to Jacobean rule, the latter change resulting in a realignment of genres within the culture's literary system. He reads Donne's formal satires, humanist verse letters, erotic elegies, and commentary epistles, aware of the social coordinates of those particular genres and defines the markedly different circumstances to which Donne's libertine, courtly, satiric, sentimental, complimentary, and religious lyrics individually belonged. Marotti deals also with Donne's inventive mixing of genres in both shorter and longer poems. Marotti's groundbreaking work offers new models of historical interpretation of Donne's poetry, complementing previous formalist, intellectual, historical, and literary historical readings. It particularly highlights the importance of attending to the socioliterary conditions of literature designed for manuscript transmission rather than for publication work that includes, for example, much of the lyric poetry of Renaissance England.

Who Wrote That? Donald Ostrowski, 2020-06-15. Who Wrote That examines nine authorship controversies, providing an introduction to particular disputes and teaching students how to assess historical documents, archival materials, and apocryphal stories as well as internet sources and news. Donald Ostrowski does not argue in favor of one side over another but focuses on the principles of attribution used to make each case. While furthering the field of authorship studies, Who Wrote That provides an essential resource for instructors at all levels in various subjects. It is ultimately about historical detective work. Using Moses, Analects, the Secret Gospel of Mark, Abelard and Heloise, the Compendium of Chronicles, Rashid al-Din, Shakespeare, Prince Andrei, Kurbskii, James MacPherson, and Mikhail Sholokov, Ostrowski builds concrete examples that instructors can use to help students uncover the legitimacy of authorship and to spark the desire to turn over the hidden layers of history so necessary to the craft.

Engagement with the Past William Palmer, 2021-10-21. Arthur M. Schlesinger Jr., John Hope Franklin, Daniel Boorstin, C. Vann Woodward, Edmund S. Morgan, Barbara Tuckman, Eric Hobsbawm, Hugh Trevor Roper, Lawrence Stone: aside from carrying the distinction as some of the most successful and well-respected historians of the twentieth century, these scholars found their lives and careers evolving amid some of the world's pivotal historical moments. Dubbed the World War II Generation, the twenty-two English and American historians chronicled by William Palmer grew up in the aftermath of World War I, went to college in the 1930s as the threats of the Great Depression, Hitler, and Communism loomed over them, saw their careers interrupted by World War II, and faced the prospect of nuclear annihilation. They gained from their experiences the perspective and insight necessary to write definitive histories on topics ranging from slavery to revolution. Engagement with the Past offers biographies of these individuals in the context of their generation's intellectual achievement. Based upon extensive personal interviews and careful reading of their work, Engagement with the Past is a fascinating behind-the-scenes look at a generation of historians and how they helped record and shape modern history.

A Mexican Family Empire Charles H. Harris, 2014-03-19 Perhaps no other institution has had a more significant impact on Latin American history than the large landed estate the hacienda In Mexico the latifundio an estate usually composed of two or more haciendas dominated the social and economic structure of the country for four hundred years A Mexican Family Empire is a careful examination of the largest latifundio ever to have existed not only in Mexico but also in all of Latin America the latifundio of the S nchez Navarros Located in the northern state of Coahuila the S nchez Navarro family s latifundio was composed of seventeen haciendas and covered more than 16 5 million acres the size of West Virginia Charles H Harris places the history of the latifundio in perspective by showing the interaction between the various activities of the S nchez Navarros and the evolution of landholding itself In his discussion of the acquisition of land the technology of ranching labor problems and production on the S nchez Navarro estate and of the family s involvement in commerce and politics Harris finds that the development of the latifundio was only one aspect in the S nchez Navarros rise to power Although the S nchez Navarros conformed in some respects to the stereotypes advanced about hacendados in terms of landownership and the use of debt peonage in many important areas a different picture emerges For example the family s salient characteristic was a business mentality they built the latifundio to make money with status only a secondary consideration Moreover the family s extensive commercial activities belie the generalization that the objective of every hacendado was to make the estates self sufficient Harris emphasizes the great importance of the S nchez Navarros widespread network of family connections in their commercial and political activities A Mexican Family Empire is based on the S nchez Navarro papers 75 000 pages of personal letters business correspondence hacienda reports and inventories wills land titles and court records spanning the period from 1658 to 1895 Harris s thorough research of these documents has resulted in the first complete social economic and political history of a great estate The geographical and chronological boundaries of his study permit analysis of both continuity and change in Mexico s evolving socioeconomic structure during one of the most decisive periods in its history the era of transition from colony to nation **Court,**

Sciences and Cultures E. Mendelsohn, Y. Elkana, 2012-12-06 Anthropological approaches to the sciences have developed as part of a broader tradition concerned about the place of the sciences in today's world and in some basic sense concerned with questions about the legitimacy of the sciences In the years since the second World War we have seen the emergence of a number of different attempts both to analyze and to cope with the successes of the sciences their broad penetration into social life and the sense of problem and crisis that they have projected Among the movements concerned about the earlier responses were the development social responsibility of scientists and technological practitioners There is little doubt that this was a direct outgrowth of the role of science in the war epitomized by the successful construction and catastrophic use of the atomic bomb The recognition of the deep social utility of science and especially its role as an instrument of war fostered curiosity about the earlier development of scientific disciplines and institutional forms The

history of science as an explicit discipline with full time practitioners can be seen as an attempt to locate science in temporal space first in its intellectual form and secondly in its institutional or social form The sociology of science while certainly having roots in the pre war work of Robert K. Merton, *Drama and the Market in the Age of Shakespeare* Douglas Bruster, 2005-01-27 Douglas Bruster's provocative study of English Renaissance drama explores its links with Elizabethan and Jacobean economy and society looking at the status of playwrights such as Shakespeare and the establishment of commercial theatres He identifies in the drama a materialist vision which has its origins in the climate of uncertainty engendered by the rapidly expanding economy of London His examples range from the economic importance of cuckoldry to the role of stage props as commodities and the commercial significance of the Troy story in Shakespeare's *Troilus and Cressida* and he offers new ways of reading English Renaissance drama by returning the theatre and the plays performed there to its basis in the material world

The Puritan Smile Robert C. Neville, 1987-01-01 This book develops a contemporary metaphysics of morals Currently the liberal tradition defines the field of moral and political theory It contains the popular utilitarian the deontological and the virtue ethics approaches to normative theory and by a broad dialectical negation it also defines the historical materialism of Marx The Puritan Smile circumvents the Liberalism Marxism dialectic with the Puritan emphasis on responsibility and their social definition of individuality To this core of classical puritanism is added the deeply rooted sense of culture and the vast historical experience of Confucianism with which it resonates strongly The need for tolerance and the celebration of liberty is asserted by Neville in order to offset the tendencies toward dogmatism and totalitarianism inherent within the Puritan and Confucian views The book integrates a Puritan sense of participation with a Confucian sense of moral obligation and a liberal appreciation of freedom and tolerance
