## Reappraising Republican China:

Reappraising Republican China Frederic E. Wakeman, Richard L. Edmonds, 2000 This book testifies to the accomplishments of Republican studies during the 1980s and early 1990s Reviewing many aspects of contemporary research it covers the transition from the late Qing dynasty to the Republic agricultural development from the mid 1890s to 1937 the political aspects of twentieth century Chinese urban history the problems of capacity building for Republican era governments political party organization finance and military matters Shanghai's modernization process the politics of the Kuomintang during the Nanjing decade and its relationship with fascism and Republican era diplomacy

A Companion to Chinese History Michael Szonyi, 2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day Covers the major trends in the study of Chinese history from antiquity to the present day Considers the latest scholarship of historians working in China and around the world Explores a variety of long range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras Addresses China's connections with other nations and regions and enables non specialists to make comparisons with their own fields Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality national identity and the environment

The Body and Military Masculinity in Late Qing and Early Republican China Nicolas Schillinger, 2016-12-12 This study examines the cultural effects of China's adoption of a European military model in the late nineteenth and early twentieth centuries It argues that there was a conceptual reconfiguration of Chinese masculinity and citizenship and focuses on how the body was conceived shaped by physical fitness and medical practices and controlled

*China's Communist Revolutions* Werner Draguhn, David S.G. Goodman, 2012-10-12 During its fifty years of existence the People's Republic of China has seen dramatic changes from the proclamation of the independent state through the period of the Communist Revolution the Cultural Revolution the Reform Period These changes are analysed from the political economic and social points of view challenging accepted orthodoxy Throughout the emphasis is on change in the context of contemporary China and as part of the Chinese Communist Party's search for paths to development

**China's Contested Capital** Charles D. Musgrove, 2013-07-31 When the Chinese Nationalist Party nominally reunified the country in 1928 Chiang Kai shek and other party leaders insisted that Nanjing was better suited than Beijing to serve as its capital For the next decade until the Japanese invasion in 1937 Nanjing was the model capital of Nationalist China the center of not just a new regime but also a new modern outlook in a China destined to reclaim its place at the forefront of nations Interesting parallels between China's recent rise under the Post Mao Chinese Communist Party and the Nationalist era have brought increasing scholarly attention to the Nanjing Decade 1927 1937 however study of Nanjing itself has been neglected Charles Musgrove brings the city back into the discussion of China's modern development focusing on how it was transformed from a

factional capital with only regional influence into a symbol of nationhood a city where newly forming ideals of citizenship were celebrated and contested on its streets and at its monuments China's Contested Capital investigates the development of the model capital from multiple perspectives It explores the ideological underpinnings of the project by looking at the divisive debates surrounding the new capital's establishment as well as the ideological discourse of Sun Yat Sen used to legitimize it In terms of the actual building of the city it provides an analysis of both the scientific methodology adopted to plan it and the aesthetic experiments employed to construct it Finally it examines the political and social life of the city looking at not only the reinvented traditions that gave official spaces a sacred air but also the ways that people actually used streets and monuments including the Sun Yat Sen Mausoleum to pursue their own interests often in defiance of Nationalist repression Contrary to the conventional story of incompetence and failure Musgrove shows that there was more to Nationalist Party nation building than simply paper plans that never came to fruition He argues rather that the model capital essentially legitimized a new form of state power embodied in new symbolic systems that the Communist Party was able to tap into after defeating the Nationalists in 1949 At the same time the book makes the case that although it was unintended by party planners who promoted single party rule Nanjing's legitimacy was also a product of protests and contestation which the party state only partially succeeded in channeling for its own ends China's Contested Capital is an important contribution to the literature on twentieth century Chinese urban history and the social and political history of one of China's key cities during the Republican period

Republicanism in Northeast Asia Jun-Hyeok Kwak, Leigh Jenco, 2014-11-13 As rapid economic development brings increasing uncertainty in East Asia interest in a new version of republicanism termed iscalled neo Roman republicanism is growing across the region Conceptualized as liberty as non domination this new form of republicanism has inspired not only Western but also East Asian political theorists However neo Roman republican ideas in Northeast Asian countries continue to face serious conceptual and political challenges which scholarly literature on both republicanism and on East Asian politics has largely failed to confront This book addresses these challenges by surveying the latest theoretical contributions to the studies of republicanism in Western countries and the latest interpretations of how republicanism including both communitarian republicanism and neo Roman republicanism has been appropriated in countries in East Asia In particular it deals with the key question of whether liberty as non domination can work in non Western contexts where the fundamental tenets of liberal democracy such as moral individualism and value pluralism do not predominate Across three sections the chapters first provide a conceptual overview of republicanism as a global political theory they then consider how republicanism has historically been received resisted and translated into East Asia and Finally they examine how historically informed possibilities fit with the emergent needs of contemporary Northeast Asian societies Overall the contributors show that republicanism is an always ongoing project whose terms must be interpreted and translated into the various communities they inform Normative considerations about whether or how republicanism applies

in East Asia cannot be divorced from historical and empirical approaches which consider the various ways in which republican ideals reflect the realities of life there Dealing with the issue of republicanism from a new comparative perspective this book will have broad appeal to students and scholars of Asian studies comparative political theory political philosophy sociology and history Routledge Handbook of Revolutionary China Alan Baumler,2019-08-12 The Routledge Handbook of Revolutionary China covers the evolution of Chinese society from the roots of the Republic of China in the early 1900s until the end of the Cultural Revolution in 1976 The chapters in this volume explain aspects of the process of revolution and how people adapted to the demands of the revolutionary situation Exploring changes in political leadership as well as transformation in culture it compares the differences in experiences in urban and rural areas and contrasts rapid changes such as the war with Japan and Communist liberation with evolutionary developments such as the gradual redefinition of public space Taking a comprehensive approach the themes covered include War occupation and liberation Religion and gender Education cities and travel This is an essential resource for students and scholars of Modern China Republican China Revolutionary China and Chinese Politics **China and International Security** Donovan C. **China's Unequal Treaties** Dong Wang,2005-01-01 *China's Unequal Treaties* offers a study based on primary sources of the linguistic development and polemical uses of the expression Unequal Treaties to refer to the treaties written between 1842 and 1943 Although the expression has occupied a central position in both Chinese collective memory and English historiographies *China's Unequal Treaties* is the first study of the phrase and its interpretations

*Modern China's Ethnic Frontiers* Hsiao-ting Lin,2010-09-13 The purpose of this book is to examine the strategies and practices of the Han Chinese Nationalists vis vis post Qing China's ethnic minorities as well as to explore the role they played in the formation of contemporary China's Central Asian frontier territoriality and border security The Chinese Revolution of 1911 initiated by Sun Yat sen liberated the Han Chinese from the rule of the Manchus and ended the Qing dynastic order that had existed for centuries With the collapse of the Qing dynasty the Mongols and the Tibetans who had been dominated by the Manchus took advantage of the revolution and declared their independence Under the leadership of Yuan Shikai the new Chinese Republican government in Peking in turn proclaimed the similar five nationality Republic proposed by the Revolutionaries as a model with which to sustain the deteriorating Qing territorial order The shifting politics of the multi ethnic state during the regime transition and the role those politics played in defining the identity of the modern Chinese state were issues that would haunt the new Chinese Republic from its inception to its downfall *Modern China's Ethnic Frontiers* will be of interest to students and scholars of Chinese history Asian history and modern history

**A Springboard to Victory** Sherman Xiaogang Lai,2011-01-07 Did the Chinese Communists use money or banking systems during their struggle for national power In the West this question was not answered or even raised for sixty years after the Communists took over China in 1949 This book examines the Communists revenue and supply system during the Japanese occupation in Shandong a coastal province in northern China It explores how the Communists manipulated currency exchange rates to turn trade within the occupied zones into their principal source of revenue and transform the Japanese army and navy into their most important customers Thus enabling them to stockpile the materials needed for the race against the Nationalists into Manchuria China's only industrialized area immediately after Japan's surrender

Twentieth-Century China Jeffrey N. Wasserstrom,2013-10-14 *Twentieth Century China New Approaches* is an important revisionist study of China's recent past The chapters throw light on a variety of subjects within the field which has recently undergone

considerable change The three major parts of this reader take into account the historical shape of the century local perspectives on national history and reflections on cultural history The chapters in this volume reflect a move away from a Western centred analysis of Chinese history as well as the new wealth of archival material made accessible over the last decade They highlight in challenging ways important topics that have generated considerable excitement among historians Subjects discussed include the watershed date of 1949 feminism the revolutions the discourse of the communist party and political theatre in modern China

*Civil War in China* Suzanne Pepper,1999-07-22 Many books have tried to analyze the reasons for the Chinese communist success in China s 1945 1949 civil war but Suzanne Pepper s seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history

*Intolerable Cruelty* Margaret Kuo,2012-11-17 At the outset of the Nanjing decade 1928 1937 a small group of Chinese legal elites worked to codify the terms that would bring the institutions of marriage and family into the modern world Their deliberations produced the Republican Civil Code of 1929 1930 the first Chinese law code endowed with the principle of individual rights and gender equality In the decades that followed hundreds of thousands of women and men adopted the new marriage laws and brought myriad domestic grievances before the courts *Intolerable Cruelty* thoughtfully explores key issues in modern Chinese history including state society relations social transformation and gender relations in the context of the Republican Chinese experiment with liberal modernity Investigating both the codification process and the subsequent implementation of the Code Margaret Kuo deftly challenges arguments that discount Republican law as an elite pursuit that failed to exert much influence beyond modernized urban households She reconsiders the dominant narratives of the 1930s and 1940s as dark years for Chinese women Instead she convincingly recasts the history of these years from the perspective of women who actively and successfully engaged the law to improve their lives

*China and the Great War* Guoqi Xu,2005-02-24 Publisher Description

*Smokeless Sugar* Emily M. Hill,2010-10-20 Part history part biography and part mystery story *Smokeless Sugar* traces the formation of a national economy in China through an intriguing investigation of the 1936 execution of an allegedly corrupt Cantonese official Feng Rui a Western educated agricultural expert introduced modern sugar milling to China in the 1930s as a key component in a provincial investment program Before long however he was accused of colluding with smugglers to pass foreign sugar off as a domestic product Emily Hill makes the case that Feng was in fact a scapegoat in a multi sided power struggle in which political leaders vied with commercial players for access to China s markets and tax revenues

**Sporting Gender** Yunxiang Gao,2013-05-06 *Sporting Gender* is the first book to explore the rise to fame of female athletes in China in the early twentieth century Gao shows how these women coped with the conflicting demands of nationalist causes unwanted male

attention and modern fame arguing that the athletic female form helped to create a new ideal of modern womanhood in China This book brings vividly to life the histories of these women and demonstrates how intertwined they were with the aims of the state and the needs of society      **Decisive Encounters** Odd Arne Westad, 2003 Though the book highlights the military aspects of the war it also shows how these took place alongside profound changes in Chinese politics society and culture changes that ultimately contributed as much to the character of today's China as did the major battles By analyzing the war as an international and not simply a domestic conflict the author explains why so much of the present legitimacy of the Beijing government derives from its successes during the late 1940s and reveals how the antagonism between China and the United States so important to current international affairs was born BOOK JACKET
