**Reason and Religion in Socratic Philosophy** Nicholas D. Smith, Paul Woodruff, 2023 *Xenophon's Socratic Education* Dustin Sebell, 2021-03-11 A careful reading of Book IV of Xenophon's *Memorabilia* and a demonstration of a Socratic education It is well known that Socrates was executed by the city of Athens for not believing in the gods and for corrupting the youth Despite this it is not widely known what he really thought or taught the youth to think about philosophy the gods and political affairs Of the few authors we rely on for firsthand knowledge of Socrates Aristophanes Xenophon Plato and Aristotle only Xenophon the least read of the four lays out the whole Socratic education in systematic order In Xenophon's *Socratic Education* through a careful reading of Book IV of Xenophon's *Memorabilia* Dustin Sebell shows how Socrates ascended with his students in tow from opinions about morality or politics and religion to knowledge of such things Besides revealing what it was that Socrates really thought about everything from self knowledge to happiness natural theology to natural law and rhetoric to dialectic Sebell demonstrates how Socrates taught promising youths like Xenophon or Plato only indirectly by jokingly teaching unpromising youths in their presence Sebell ultimately shows how Socrates the founder of moral and political philosophy sought and found an answer to the all important question should we take our bearings in life from human reason or revealed religion

**Socrates' Divine Sign** Nicholas D. Smith, Pierre Destrée, 2005 **Socrates and Divine Revelation** Lewis Fallis, 2018 The philosopher Socrates was guided in his investigations by nothing other than his own reason But did Socrates address adequately the possibility of guidance from a different and higher source the possibility of divine revelation In this book Lewis Fallis examines Socrates study of divine revelation Giving interpretations of two of Plato's dialogues the *Euthyphro* and the *Ion* which each depict Socrates conversing with a believer in revelation Fallis argues that in each dialogue Socrates explores the connection between knowledge of justice or nobility on the one hand and divine wisdom on the other By doing so Socrates searches for common ground between reason and revelation Shedding new light on Socratic dialectics Fallis uncovers the justification for understanding political philosophy to be the necessary starting point for an adequate inquiry into divine revelation Lewis Fallis is an independent scholar of political theory

**Becoming God** Patrick Lee Miller, 2011-01-20 A lucid presentation of the first and most influential attempts to weave together philosophical thought on God reason and happiness *Philosophy Between the Lines* Arthur M. Melzer, 2014-09-09 Shines a floodlight on a topic that has been cloaked in obscurity a landmark work in both intellectual history and political theory The Wall Street Journal Philosophical esotericism the practice of communicating one's unorthodox thoughts between the lines was a common practice until the end of the eighteenth century Despite its long and well documented history however esotericism is often dismissed today as a rare occurrence But by ignoring esotericism we risk cutting ourselves off from a full understanding of Western philosophical thought Walking readers through both an ancient Plato and a modern Machiavelli esoteric work Arthur M Melzer explains what esotericism is and is not It relies not on secret codes but simply on a more intensive use of familiar rhetorical techniques like metaphor irony and insinuation Melzer explores the various motives that led thinkers in different times and places to engage in this strange practice while also exploring the motives that lead more recent thinkers not only to dislike and avoid this practice but to deny its very existence In the book's final section A Beginner's Guide to Esoteric Reading Melzer turns to how we might once again cultivate the long forgotten art of reading esoteric works The first comprehensive book length study of the history and theoretical basis of philosophical esotericism *Philosophy Between the Lines* is a treasure house of insight and learning It is that rare thing an eye opening book By making the world before Enlightenment appear as strange as it truly was Melzer makes our world stranger than we think it is George Kateb Professor of Politics Emeritus at Princeton University Brilliant pellucid and meticulously researched *City Journal* *Death and Philosophy* J.E Malpas, Robert C. Solomon, 2002-06-01 *Death and Philosophy* considers these questions with different perspectives varying from the existentialist deriving from Camus Heidegger or Sartre to the English speaking analytic tradition of Bernard Williams or Thomas Nagel to non western approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretius Epicurus and Nietzsche *Death and Philosophy* will be of great interest to philosophers or those studying religion and theology but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal

*The Socratic Turn* Dustin Sebell, 2015-12-17 The Socratic Turn addresses the question of whether we can acquire genuine knowledge of good and evil right and wrong Reputedly Socrates was the first philosopher to make the attempt But Socrates was a materialistic natural scientist in his youth and it was only much later in life after he had rejected materialistic natural science that he finally turned around the age of forty to the examination of ordinary moral and political opinions or to moral political philosophy so understood Through a consideration of Plato's account of Socrates intellectual development and with a view to relevant works of the pre Socratics Xenophon Aristotle Hesiod Homer and

Aristophanes Dustin Sebell reproduces the course of thought that carried Socrates from materialistic natural science to moral political philosophy By doing so he seeks to recover an all but forgotten approach to the question of justice one still worthy of being called scientific

**Philosophy, Reasoned Belief, and Faith** Paul Herrick, 2022-06 This clear readable introduction to philosophy presents a traditional theistic view of the existence of God There are many fine introductions to philosophy but few are written for Christian students by a teacher who is sensitive to the intellectual challenges they face studying in an environment that is often hostile to religious belief Many introductory texts present short easy to refute synopses of the traditional arguments for God's existence the soul free will and objective moral value rooted in God's nature usually followed by strong objections stated as if they are the last word This formula may make philosophy easier to digest but it gives many students the impression that there are no longer any good reasons to accept the beliefs just mentioned

Philosophy Reasoned Belief and Faith is written for philosophy instructors who want their students to take a deeper look at the classic theistic arguments and who believe that many traditional views can be rigorously defended against the strongest objections The book is divided into four sections focusing on philosophy of religion an introduction to epistemology philosophy of the human person and philosophical ethics The text challenges naturalism the predominant outlook in the academic world today while postmodernist relativism and skepticism are also examined and rejected Students of faith and students without faith will deepen their worldviews by thoughtfully examining the philosophical arguments that are presented in this book Philosophy Reasoned Belief and Faith will appeal to Christian teachers analytic theists home educators and general readers interested in the classic arguments supporting the Christian worldview

Renewing Philosophy of Religion Paul Draper, J. L. Schellenberg, 2017 This book is animated by a shared conviction that philosophy of religion needs to change thirteen new essays suggest why and how The first part of the volume explores possible changes to the focus of the field The second part focuses on the standpoint from which philosophers of religion should approach their field In the first part are chapters on how an emphasis on faith distorts attempts to engage non western religious ideas on how philosophers from different traditions might collaborate on common interests on why the common presupposition of ultimacy leads to error on how new religious movements feed a naturalistic philosophy of religion on why a focus on belief and a focus on practice are both mistaken on why philosophy's deep axiological concern should set much of the field's agenda and on how the field might contribute to religious evolution The second part includes a qualitative analysis of the standpoint of fifty one philosophers of religion and also addresses issues about humility needed in continental philosophy of religion about the implausibility of claiming that one's own worldview is uniquely rational about the Moorean approach to religious epistemology about a Spinozan middle way between insider and outsider perspectives and about the unorthodox lessons we could learn from scriptures like the book of Job if we could get past the confessional turn in recent philosophy of religion The goal of the volume is to identify new paths for philosophers of

Mooney, 2008-07-17 Ethics Love and Faith in Kierkegaard collects essays from 13 leading scholars that center on key themes that characterize Kierkegaard's philosophy of religion With their unique focus on notions of the self views on the command to love one's neighbor thoughts on melancholy and despair and the articulation of religious vision the essays in this volume cover the breadth and depth of Kierkegaard's philosophical and religious writings Poised at the intersection of Kierkegaard's moral psychology and its religious significance they offer vivid testimony to the ongoing power of his unique and fervent religious spirit Students and scholars alike will find new light shed on questions that define Kierkegaard's philosophy and religion today
