Reason And Revelation In The Middle Ages:

Reason and Revelation in the Middle Ages Etienne Gilson,1969 Reason and Revelation in the Middle Ages Etienne Gilson,1950 Reason and Revelation in the Middle Ages Etienne Gilson,2020-09-21 Etienne Gilson Reason and Revelation in the Middle Ages first delivered as the Richard Lectures in 1937 was published in 1938 and became an immediate success Not only does it contribute to a major question of debate in Christian Jewish and Islamic philosophy and religion in the medieval period but it also insists on the validity of truth obtainable through reason as well as revelation on rational argument alongside religious faith This message is as important in the twenty first century as it was in the fourth century of the young Augustine the thirteenth of St Thomas Aquinas and the twentieth of the mature Gilson **God and Reason in the Middle Ages** Edward Grant,2001-07-30 Between 1100 and 1600 the emphasis on reason in the learning and intellectual life of Western Europe became more pervasive and widespread than ever before in the history of human civilization Of crucial significance was the invention of the university around 1200 within which reason was institutionalized and where it became a deeply embedded permanent feature of Western thought and culture It is therefore appropriate to speak of an Age of Reason in the Middle Ages and to view it as a forerunner and herald of the Age of Reason that was to come in the seventeenth century The object of this study is twofold to describe how reason was manifested in the curriculum of medieval universities especially in the subjects of logic natural philosophy and theology and to explain how the Middle Ages acquired an undeserved reputation as an age of superstition barbarism and unreason *Reason and Revelation in the Middle Ages...* Étienne Gilson,1954 *Thinking Through Revelation* Robert J. Dobie,2019-01-09 Navigating the seemingly competing claims of human reason and divine revelation to truth is without a doubt one of the central problems of medieval philosophy Medieval thinkers argued a whole gamut of positions on the proper relation of religious faith to human reason Thinking Through Revelation attempts to ask deeper questions what possibilities for philosophical thought did divine revelation open up for medieval thinkers How did the contents of the sacred scriptures of Judaism Christianity and Islam put into question established philosophical assumptions But most fundamentally how did not merely the content of the sacred books but the very mode in which revelation itself is understood to come to us as a book sent down from on high as a covenant between God and his people or as incarnate person create or foreclose possibilities for the resolution of the philosophical problems that the Abrahamic revelations themselves raised Science in the Middle Ages David C. Lindberg,1978 In this book sixteen leading scholars address themselves to providing as full an account of medieval science as current knowledge permits Designed to be introductory the authors have directed their chapters to a beginning audience of diverse readers **The Cultural Context of Medieval Learning** J.E. Murdoch,E.D. Sylla,2012-12-06 Proceedings of the First International Colloquium on Philosophy Science and Technology in the Middle Ages September 1973 *Don't Think for Yourself* Peter Adamson,2022-10-15 How do we judge whether we should be willing to follow the views of experts or whether

we ought to try to come to our own independent views This book seeks the answer in medieval philosophical thought In this engaging study into the history of philosophy and epistemology Peter Adamson provides an answer to a question as relevant today as it was in the medieval period how and when should we turn to the authoritative expertise of other people in forming our own beliefs He challenges us to reconsider our approach to this question through a constructive recovery of the intellectual and cultural traditions of the Islamic world the Byzantine Empire and Latin Christendom Adamson begins by foregrounding the distinction in Islamic philosophy between *taqlid* or the uncritical acceptance of authority and *ijtihad* or judgment based on independent effort the latter of which was particularly prized in Islamic law theology and philosophy during the medieval period He then demonstrates how the Islamic tradition paves the way for the development of what he calls a justified *taqlid* according to which one develops the skills necessary to critically and selectively follow an authority based on their reliability The book proceeds to reconfigure our understanding of the relation between authority and independent thought in the medieval world by illuminating how women found spaces to assert their own intellectual authority how medieval writers evaluated the authoritative status of Plato and Aristotle and how independent reasoning was deployed to defend one Abrahamic faith against the other This clear and eloquently written book will interest scholars in and enthusiasts of medieval philosophy Islamic studies Byzantine studies and the history of thought

Jonathan Edwards's Philosophy of History Avihu Zakai, 2009-02-09 Avihu Zakai analyzes Jonathan Edwards's redemptive mode of historical thought in the context of the Enlightenment As theologian and philosopher Edwards has long been a towering figure in American intellectual history Nevertheless and despite Edwards's intense engagement with the nature of time and the meaning of history there has been no serious attempt to explore his philosophy of history Offering the first such exploration Zakai considers Edwards's historical thought as a reaction in part to the varieties of Enlightenment historical narratives and their growing disregard for theistic considerations Zakai analyzes the ideological origins of Edwards's insistence that the process of history depends solely on God's redemptive activity in time as manifested in a series of revivals throughout history reading this doctrine as an answer to the threat posed to the Christian theological teleology of history by the early modern emergence of a secular conception of history and the modern legitimation of historical time In response to the Enlightenment refashioning of secular historical time and its growing emphasis on human agency Edwards strove to re-establish God's preeminence within the order of time Against the de-Christianization of history and removal of divine power from the historical process he sought to re-enthrone God as the author and lord of history and thus to re-enchant the historical world Placing Edwards's historical thought in its broadest context this book will be welcomed by those who study early modern history American history or religious culture and experience in America

A Thomistic Tapestry, 2021-12-28 This book written by well known students of Étienne Gilson and especially dedicated to Armand A Maurer helps inaugurate a long overdue special series in philosophy honoring Gilson's legendary scholarship It presents wide ranging expositions of Thomist

realism in the tradition of Gilsonian humanism covering themes related to philosophy in general historical method aesthetics metaphysics epistemology and politics

A Deeper Vision Robert Royal, 2015-12-15 In this wide ranging and ambitious volume Robert Royal a prominent participant for many years in debates about religion and contemporary life offers a comprehensive and balanced appraisal of the Catholic intellectual tradition in the twentieth century The Catholic Church values both Faith and Reason and Catholicism has given rise to extraordinary ideas and whole schools of remarkable thought not just in the distant past but throughout the troubled decades of the twentieth century Royal presents in a single volume a sweeping but readable account of how Catholic thinking developed in philosophy theology Scripture studies culture literature and much more in the twentieth century This involves great figures recognized as such both inside and outside the Church such as Jacques Maritain Bernard Lonergan Joseph Pieper Edith Stein Alasdair MacIntyre Charles Taylor Romano Guardini Karl Rahner Henri du Lubac Karol Wojtyla Joseph Ratzinger Hans Urs von Balthasar Charles Peguy Paul Claudel George Bernanos Francois Mauriac G K Chesterton Gerard Manley Hopkins Christopher Dawson Graham Greene Sigrid Undset J R R Tolkien Czeslaw Milosz and many more Royal argues that without rigorous thought Catholicism however welcoming and nourishing it might be would become something like a doctor with a good bedside manner but who knows little medicine It has always been the aspiration of the Catholic tradition to unite emotion and intellect action and contemplation But unless we know what the tradition has already produced especially in the work of the great figures of the recent past we will not be able to answer the challenges that the modern world poses or even properly recognize the true questions we face This is a reflective non polemical work that brings together various strands of Catholic thought in the twentieth century A comprehensive guide to the recent past and the future

Medieval Trinitarian Thought from Aquinas to Ockham Russell L. Friedman, 2010-01-21 A survey of the scholastic debate on the divine Trinity in the period between Aquinas earliest works and Ockham's death

God and Reason in the Middle Ages Edward Grant, 2001-07-30 The Age of Reason associated with the names of Descartes Newton Hobbes and the French philosophers actually began in the universities that first emerged in the late Middle Ages 1100 to 1600 when the first large scale institutionalization of reason in the history of civilization occurred This study shows how reason was used in the university subjects of logic natural philosophy and theology and to a much lesser extent in medicine and law The final chapter describes how the Middle Ages acquired an undeserved reputation as an age of superstition barbarism and unreason

Spheres of Philosophical Inquiry and the Historiography of Medieval Philosophy John Inglis, 1998-04-09 Recent writers in the historiography of philosophy have placed into question the paradigms that structure our historical writing This volume continues this discussion with particular reference to medieval philosophy Inglis shows that the modern historiography of medieval philosophy had its origins in certain nineteenth century German reactions to Kantian idealism He uncovers the philosophical political and theological origins of how we have come to interpret medieval philosophy according to the standard spheres of philosophy By keeping

such historiography in mind and paying attention to the context in which the medieval actually wrote Inglis raises serious questions concerning the accuracy of the dominant model and proposes an historically sensitive alternative The genealogy will interest medievalists and intellectual historians the alternative model will interest historians of medieval philosophy and theology

The Foundations of Modern Science in the Middle Ages Edward Grant, 1996-10-28 Contrary to prevailing opinion the roots of modern science were planted in the ancient and medieval worlds long before the Scientific Revolution of the seventeenth century Indeed that revolution would have been inconceivable without the cumulative antecedent efforts of three great civilisations Greek Islamic and Latin With the scientific riches it derived by translation from Greco Islamic sources in the twelfth and thirteenth centuries the Christian Latin civilisation of Western Europe began the last leg of the intellectual journey that culminated in a scientific revolution that transformed the world The factors that produced this unique achievement are found in the way Christianity developed in the West and in the invention of the university in 1200 As this 1997 study shows it is no mere coincidence that the origins of modern science and the modern university occurred simultaneously in Western Europe during the late Middle Ages

At the Limits of Political Philosophy James V. Schall, 2010-04 James V Schall presents in a convincing and articulate manner the revelational contribution to political philosophy particularly that which comes out of the Roman Catholic tradition

Turned Inside Out Steven Shankman, 2017-05-15 In *Turned Inside Out* Reading the Russian Novel in Prison Steven Shankman reflects on his remarkable experience teaching texts by Fyodor Dostoevsky Vasily Grossman and Emmanuel Levinas in prison to a mix of university students and inmates These persecuted writers Shankman argues that Dostoevsky's and Levinas's experiences of incarceration were formative describe ethical obligation as an experience of being turned inside out by the face to face encounter Shankman relates this experience of being turned inside out to the very significance of the word God to Dostoevsky's tormented struggles with religious faith to Vasily Grossman's understanding of his Jewishness in his great novel *Life and Fate* and to the interpersonal encounters the author has witnessed reading these texts with his students in the prison environment *Turned Inside Out* will appeal to readers with interests in the classic novels of Russian literature in prisons and pedagogy or in Levinas and phenomenology At a time when the humanities are struggling to justify the centrality

of their mission in today's colleges and universities Steven Shankman by example makes an undeniably powerful case for the transformative power of reading great texts
