## **Reason At Work Introductory Readings In Philosophy:**

*Reason at Work* Steven M. Cahn, Patricia Kitcher, George Sher, 1984 REASON AT WORK is designed for Introduction to Philosophy courses where the instructor prefers to use a collection of readings to introduce the broad divisions of the discipline This edition includes sixty two readings organized into the six major branches of philosophical inquiry Ethics Social and Political Philosophy Epistemology Metaphysics Philosophy of Religion and Philosophy of Mind     **Reason and Responsibility** Joel Feinberg, Russ Shafer-Landau, 2005 The Twelfth Edition of this best selling topically organized anthology provides a superb balance of historical selections and recent material This new edition features more readings than ever before 79 total all where necessary in the finest translations available The readings complement each other and naturally build on the topic being covered Clear concise introductions to each Part provide just enough guidance to let students learn from experiencing the readings themselves The text s long heralded selection of readings covers topics such as reason and religious belief human knowledge mind and its place in nature determinism free will and responsibility and morality and its critics in five parts with careful attention to opposing points of view     **Introduction to Philosophy** John Perry, Michael Bratman, 1993 Introduction to Philosophy 3 e is the most comprehensive topically organized collection of classical and contemporary philosophy available Ideal for introductory philosophy courses the third edition of this classic text now includes a general introduction and features eighteen selections new to this volume and an expanded glossary of philosophical terms A serious and challenging work it includes sections on the meaning of life God and evil epistemology philosophy of science the mind body problem freedom of will consciousness ethics and philosophical puzzles This exceptionally successful anthology presents a large number of substantial and in some cases complete selections from major works offering a unique balance between classical and contemporary readings This third edition adds selections by Plato Nelson Pike J L Mackie Elizabeth Anderson David Lewis Hilary Putnam Frank Jackson John Perry Peter Strawson Rosalind Hursthouse G A Cohen Samuel Scheffler Debra Satz and Kwame Anthony Appiah as well as Kavka s Toxin Puzzle and Quinn s Puzzle of the Self Torturer     *Internal Reasons* Kieran Setiya, Hille Paakkunainen, 2011-11-04 A collection of the most important recent work on reasons for action and the question why be moral Some of the most challenging questions in philosophical ethics concern the justification of action Can you have reasons to do something that you are not and perhaps cannot be motivated to do If reasons rest on desires why respect the rights and interests of others when doing so prevents us from getting what we want In other words why be moral In his 1979 essay Internal and External Reasons Bernard Williams framed the dispute about reason and motivation in a way that captured the philosophical imagination An explosion of work on reasons and action followed with influential responses by Christine Korsgaard John McDowell and Michael Smith This volume collects the most important work on the topic including Williams s seminal essay the responses by Korsgaard McDowell and Smith and more recent contributions by central figures Taken together the selections offer a comprehensive survey of state of the art work on

internal reasons and a distinctive focused approach to foundational questions of ethical objectivity A substantive introduction by Kieran Setiya skillfully guides the reader through the theoretical and conceptual terrain explaining what is at stake in the larger debate     [An Introduction to Ethics](#) John Deigh,2010-03-04 This book examines the central questions of ethics

through a study of the great ethical works of Western philosophy     **Introduction to Philosophy** George Matthews,Christina Hendricks,2019     **The Powers of Pure Reason** Alfredo Ferrarin,2016-11-03 The goal of the present book is nothing less than to correct what Alfredo Ferrarin calls the standard reading of Kant s Ferrarin argues that this widespread form of interpretation has failed to do justice to Kant s philosophy primarily because it is rooted in several uncritical and unjustified assumptions Two are particularly egregious a compartmentalization of the First Critique and an isolation of each Critique from the others Ultimately these two assumptions cause one to lose sight of the fact that the cognitive epistemological functions laid out in the Transcendental Aesthetic and Analytic are functions of an overarching pure reason of which the constitution of experience and of a science of nature is only one problem among others This book by contrast argues that the main problem which pervades the entire first critique is the power that reason has to reach beyond itself and legislate over the world Ferrarin pays close attention to both the Transcendental Dialectic and the Doctrine of Method where Kant lays out his conception of cosmic philosophy as embodied in the ideal philosopher     ,     *Critique of Journalistic Reason* Tom Vandeputte,2020-09-01 An encounter between philosophy and journalism recurs across the modern philosophical tradition Images of reporters and newspaper readers messengers and town criers announcements and rumors populate the work of such thinkers as Kierkegaard Nietzsche and Benjamin This book argues that these three thinkers preoccupation with journalism cannot be separated from their philosophy proper but plays a pivotal role in their philosophical work where it marks an important nexus between their theories of history time and language Journalism in the tradition Vandeputte brings to light figures before anything else as a cipher of the time in which philosophy is written If the journalist and newspaper reader characterize what Kierkegaard calls the present age that is because they exemplify a present marked by the crisis of the philosophy of history a time after the demise of history as a philosophizable concept In different ways the pages of the newspaper appear in the European philosophical tradition as a site where teleological and totalizing representations of history must founder together with the conceptions of progress and development that sustain them But journalism does not simply mark the end of philosophy for Kierkegaard Nietzsche and Benjamin journalistic writing also takes on an exemplary role in the attempt to think time and history in the wake of this demise The concepts around which these attempts crystallize Kierkegaard s instant Nietzsche s untimeliness and Benjamin s actuality all emerge from the philosophical confrontation with journalism and its characteristic temporalities     **Religion Within Reason, Second Edition** Steven M. Cahn,2025-02-27 Most believers and their critics agree that religious commitment relies on the acceptance of supernaturalism Steven M Cahn argues to the contrary He maintains that theism is neither necessary nor

sufficient for adherence to a religious outlook He writes in a nonpolemical spirit about morality the problem of evil faith miracles heaven mystical experience and religious diversity His book develops a strong case for the reconciliation of science and religion

**Virtue and Vice: Volume 15, Part 1** Ellen Frankel Paul, Fred Dycus Miller, Jeffrey Paul, 1998-02-13 The essays in this volume examine the nature of virtue and its role in moral theory

*Reason Fulfilled by Revelation* Gregory B. Sadler, 2011-03-16 This selection of previously untranslated documents from the French debates about Christian philosophy provides a long needed complement to available English language literature on the subject

**Kant's Groundwork of the Metaphysics of Morals** Sally Sedgwick, 2008-06-05 Immanuel Kant's Groundwork of the Metaphysics of Morals of 1785 is one of the most profound and important works in the history of practical philosophy In this introduction to the Groundwork Sally Sedgwick provides a guide to Kant's text that follows the course of his discussion virtually paragraph by paragraph Her aim is to convey Kant's ideas and arguments as clearly and simply as possible without getting lost in scholarly controversies Her introductory chapter offers a useful overview of Kant's general approach to practical philosophy and she also explores and clarifies some of the main assumptions which Kant relies on in his Groundwork but defends in his Critique of Pure Reason The book will be a valuable guide for all who are interested in Kant's practical philosophy

**Philosophical Debates** Steven M. Cahn, 2021-05-04 This volume completes a trilogy of Steven M Cahn's shorter writings that includes *The Road Traveled and Other Essays* 2019 and *A Philosopher's Journey* 2020 Included here are his contributions to three philosophical debates first whether events are fated to occur second whether God is knowable and third whether morality can conflict with happiness The book contains not only Cahn's essays but also edited versions of the writings to which he is responding thereby putting his remarks into context and rendering them accessible to all These pieces make clear why Professor Cahn is regarded as one of the leading philosophy teachers of his generation

*Hellenistic Philosophy*, 1997-12-04 This new edition of *Hellenistic Philosophy* including nearly 100 pages of additional materia offers the first English translation of the account of Stoic ethics by Arius Didymus substantial new sources on Epicureanism Stoicism and Scepticism expanded representation of Plutarch and Cicero and a fuller presentation of papyrological evidence Inwood and Gerson maintain the standard of consistency and accuracy that distinguished their translations in the first edition while regrouping some material into larger more thematically connected passages This edition is further enhanced by a new more spacious page design

In the Socratic Tradition Tziporah Kasachkoff, 1998 This practical guide for teaching philosophy brings together essays by two dozen distinguished philosophers committed to pedagogy Addressing primarily practical issues such as how to motivate students construct particular courses and give educational exams the essays also touch on theoretical issues such as whether moral edification is a proper goal of teaching ethics An excellent sourcebook for graduate students just learning to teach as well as for professors searching for new strategies and inspiration or called upon to teach courses outside of their specialties

From Student to Scholar Steven M. Cahn, 2024-05-10 This expanded edition of a

celebrated book by philosopher and educator Steven M Cahn offers sound advice on building a successful academic career He explains how to plan complete and defend a dissertation how to handle interviews for academic positions how to improve your teaching how to prepare and publish research how to develop a professional network and how to garner support for earning tenure Whether you are considering enrolling in graduate school seeking an academic position or balancing the demands of a professorial career you will find valuable guidance in Cahn s insightful account of the ways of academia

LoveKnowledge Roy Brand,2013 Since its inception philosophy has struggled to perfect individual understanding through discussion and dialogue based in personal poetic or dramatic investigation The positions of such philosophers as Socrates Spinoza Rousseau Nietzsche Foucault and Derrida differ in almost every respect yet these thinkers all share a common method of practicing philosophy not as a detached intellectual discipline but as a worldly art What is the love that turns into knowledge and how is the knowledge we seek already a form of love Reading key texts from Socrates to Derrida this book addresses the fundamental tension between love and knowledge that informs the history of Western philosophy LoveKnowledge returns to the long tradition of philosophy as an exercise not only of the mind but also of the soul asking whether philosophy can shape and inform our lives and communities

**Lovers of Wisdom** Daniel Kolak,2001 This is the most exciting and comprehensive text with integrated readings for introducing students to philosophy It presents the big picture with all the right details The central idea is to embed the best excerpts from the most important writings of the most important philosophers into one seamless coherent adventure story in such a way that the reader takes part in the process of discovery Instead of reading about philosophy readers acquire philosophical insights into themselves and the world by acquiring a knowledge of philosophical ideas presented in their original contexts Organized both historically and topically the book can be used either chronologically or by topics and to facilitate this for instructors it contains two separate tables of contents The book covers all the major philosophers from the pre Socratics to twentieth century philosophy with a scope wide enough to embrace all schools and traditions from the analytic and continental to non western This approach enables readers to understand the connection between many different ways of looking at ourselves and the world to obtain a broad and multi perspectival vision of all the best that philosophy has had to offer by building philosophical bridges across national cultural religious historical and scholarly borders

**The Right Thing to Do** James Rachels,1989 Anthology of readings in moral philosophy
