What's Up with Catalonia? Liz Castro, 2013 35 experts explain the causes which impel them to the separation through essays on Catalan history economics politics language and culture Cover **Humanities** , 1982 *Stone in a Landslide* Maria Barbal, 2011-11-01 The Catalan modern classic first published in 1985 now in its 50th edition for the first time in English The beginning of the 20th century 13 year old Conxa leaves her home village in the Pyrenees to work for her childless aunt After years of hardship she finds love with Jaume a love that will be thwarted by the Spanish Civil War Approaching her own death Conxa looks back on a life in which she has lost everything except her own indomitable spirit Why Peirene chose to publish this book I fell in love with Conxa s narrative voice its stoic calmness and the complete lack of anger and bitterness It s a timeless voice down to earth and full of human contradictory nuances It s the expression of someone who searches for understanding in a changing world but senses that ultimately there may be no such thing Meike Ziervogel Sparse and haunting Katy Guest Independent The compression is so deft the young narrator s voice so strong so particular her straightforward evocation of the hard labour and rare pleasures of mountain life so vibrant that it makes me want to take scissors to everything else I read Richard Lea Guardian A Pyrenean life told in a quietly effective voice Daniel Hahn Independent There is an understated power in Barbal s depiction of how the forces of history can shape the life of the powerless Adrian Turpin Financial Times A masterpiece of world literature and a shining example of the virtuosity of elegant and concise prose Pam Norfolk Lancashire Evening Post Air tight believability Matthew Tree Times Literary Supplement INDEPENDENT BOOKS OF THE YEAR 2010 FOYLES BOOKS OF THE YEAR 2010 *Antoni Tàpies in Print* Deborah Wye, Antoni Tàpies, Museum of Modern Art (New York, N.Y.), 1991 *This Ghostly Poetry* Daniel Aguirre-Otezia, 2020-04-02 The Spanish Civil War was idealized as a poet s war The thousands of poems written about the conflict are memorable evidence of poetry s high cultural and political value in those historical conditions After Franco s victory and the repression that followed numerous Republican exiles relied on the symbolic agency of poetry to uphold a sense of national identity Exilic poems are often read as claim making narratives that fit national literary history This Ghostly Poetry critiques this conventional understanding of literary history by arguing that exilic poems invite readers to seek continuity with a traumatic past just as they prevent their narrative articulation The book uses the figure of the ghost to address temporal challenges to historical continuity brought about by memory tracing the discordant disruptive ways in which memory is interwoven with history in poems written in exile Taking a novel approach to cultural memory This Ghostly

Poetry engages with literature history and politics while exploring issues of voice time representation and disciplinarity

The Usatges of Barcelona Donald J. Kagay,1994 **Arts & Humanities Citation Index** ,1995 Encyclopedia of World Literature in the 20th Century Wolfgang Bernard Fleischmann,Frederick Ungar,Lina Mainiero,1967 **The Spanish Civil War** Hugh Thomas,2014 **Eight Words for the Study of Expressive Culture** Burt Feintuch,2010-10-01 Group Art Text Genre Performance Context Tradition Identity No matter where we are in academic institutions in cultural agencies at home or in a casual conversation these are words we use when we talk about creative expression in its cultural contexts Eight Words for the Study of Expressive Culture is a thoughtful interdisciplinary examination of the keywords that are integral to the formulation of ideas about the diversity of human creativity presented as a set of essays by leading folklorists Many of us use these eight words every day We think with them We teach with them Much of contemporary scholarship rests on their meanings and implications They form a significant part of a set of conversations extending through centuries of thought about creativity meaning beauty local knowledge values and community Their natural habitats range across scholarly disciplines from anthropology and folklore to literary and cultural studies and provide the framework for other fields of practice and performance as well Eight Words for the Study of Expressive Culture is a much needed study of keywords that are frequently used but not easily explained Anchored by Burt Feintuch s cogent introduction the book features essays by Dorothy Noyes Gerald L Pocius Jeff Todd Titon Trudier Harris Deborah A Kapchan Mary Hufford Henry Glassie and Roger D Abrahams Cultural Techniques Bernhard Siegert,2015-05-01 In a crucial shift within posthumanistic media studies Bernhard Siegert dissolves the concept of media into a network of operations that reproduce displace process and reflect the distinctions fundamental for a given culture Cultural Techniques aims to forget our traditional understanding of media so as to redefine the concept through something more fundamental than the empiricist study of a medium s individual or collective uses or of its cultural semantics or aesthetics Rather Siegert seeks to relocate media and culture on a level where the distinctions between object and performance matter and form human and nonhuman sign and channel the symbolic and the real are still in the process of becoming The result is to turn ontology into a domain of all that is meant in German by the word Kultur Cultural techniques comprise not only self referential symbolic practices like reading writing counting or image making The analysis of artifacts as cultural techniques emphasizes their ontological status as in between shifting from firstorder to second order techniques from the technical to the artistic from object to sign from the natural to the cultural from the operational to the representational Cultural Techniques ranges from seafaring drafting and eating to the production of the sign signal distinction in old and new media to the reproduction of anthropological difference to the study of trompe l oeils grids registers and doors Throughout Siegert addresses fundamental questions of how ontological distinctions can be replaced by chains of operations that process those alleged ontological distinctions within the ontic Grounding posthumanist theory both historically and technically this book opens up a crucial dialogue between new German
