**Revival: Contemporary Indian Philosophy (1936)** S. Radhakrishnan, J. H. Muirhead, 2018-12-20 The book includes essay which are all written by philosophers of or about forty five years of age They fall into two main groups those in which the writer devotes himself chiefly to the exposition of the great Vedic tradition as he has apprehended it and made it the basis of his own life s work and those in which the writer while on the whole remaining true to the spirit of that tradition has sought to give new interpretations of it either by instituting comparisons of it with the Western doctrines most closely allied to it or by treating of modern problems in a way which though suggested by what he has learned from the West is yet stamped with the mark of his own racial sympathy Western readers will naturally find the latter group more attractive but this volume will have failed of its purpose if it does not give them some sense of the truth that underlies even the essays with which owing to the presuppositions on which these are founded they find themselves least in sympathy **Encyclical**

*The Revival of Antique Philosophy in the Renaissance* John L. Lepage, 2012-12-05 This book examines the revival of antique philosophy in the Renaissance as a literary preoccupation informed by wit Humanists were more inspired by the fictionalized characters of certain wise fools including Diogenes the Cynic Socrates Aesop Democritus and Heraclitus than by codified systems of thought Rich in detail this study offers a systematic treatment of wide ranging Renaissance imagery and metaphors and presents a detailed iconography of certain classical philosophers Ultimately the problems of Renaissance humanism are revealed to reflect the concerns of humanists in the twenty first century Higher Criticism: Devil Becomes the Bible Teacher George Joseph K PhD, 2020-08-22 The large majority of the theological studies in the world today are dominated by the atheistic and rationalistic Higher Criticism which is heavily tainted by the satanic influences Through the higher criticism devil entered into the Bible colleges and churches and destroyed them **Subject Guide to Books in Print**, 1997 *Forthcoming Books* Rose Arny, 1994-02 The Modern Schoolman, 1937 **Revival: Thought and Reality - Hegelianism and Advaita (1937)** Poolla Tirupati Raju, 2018-07-27 This work is a contribution to certain aspects of idealistic philosophy It is a comparative study yet it is not a comparison for the sake of comparison This book examines the supra rational Absolutism of the West developed under the Hegelian influence and in the light of the criticisms shows the peculiar character of the Advaita Vedanta of Sankara It is therefore not a mere exposition but a criticism and construction The discussions are not cosmological but epistemological and metaphysical approached from the side of logic The work may also be viewed as a reorientation of Sankara's system It places Sankara's philosophy in line with the idealistic philosophies of the West so that we can understand the peculiarities of the former in terms of the latter It thus discovers or brings into clearer light the guiding principle of Sankara's thought It brings out the full significance of the principles of non contradiction applied by Sankara as a test of truth and reality and shows its difference from the same principle as understood by Hegel and the Hegelians The aim of this work is to attempt at laying the metaphysical foundation of the logic of supra rational Absolutism the interpretation of Advaita is based mostly on polemical works **The Routledge Companion to Eighteenth Century Philosophy** Aaron Garrett, 2014-03-21 The Eighteenth century is one of the most important periods in the history of Western philosophy witnessing philosophical scientific and social and political change on a vast scale In spite of this there are few single volume overviews of the philosophy of the period as a whole The Routledge Companion to Eighteenth Century Philosophy is an authoritative survey and assessment of this momentous period covering major thinkers topics and movements in Eighteenth century philosophy Beginning with a substantial introduction by Aaron Garrett the thirty five specially commissioned chapters by an outstanding team of international contributors are organised into seven clear parts Context and Movements Metaphysics and Understanding Mind Soul and Perception Morals and Aesthetics Politics and
