Reasonable Doubt The Single Bullet Theory:

Hear No Evil Donald Byron Thomas, 2013-09-01 Did a shot from the grassy knoll kill President Kennedy If so was Oswald part of a conspiracy or an innocent patsy Why have scientific experts who examined the evidence failed to put such questions to rest In 2001 scientist Dr Donald Byron Thomas published a peer reviewed article that revived the debate over the finding by the House Select Committee on Assassinations that there had indeed been a shot from the grassy knoll caught on a police dictabelt recording The Washington Post said The House Assassinations Committee may well have been right after all In **Hear No Evil** Thomas explains the acoustics evidence in detail placing it in the context of an analysis of all the scientific evidence in the Kennedy assassination Revering no sacred cows he demolishes myths promulgated by both Warren Commission adherents and conspiracy advocates and presents a novel and compelling reinterpretation of the single bullet theory More than a scientific tome **Hear No Evil** is a searing indictment of the government's handpicked experts who failed the public trust to be fair and impartial arbiters of the evidence

Breach of Trust Gerald D. McKnight, 2005-10-04 The Warren Commission's major conclusion was that Lee Harvey Oswald was the lone assassin of President John F Kennedy Gerald McKnight rebuts that view in a meticulous and devastating dissection of the Commission's work The President's Commission on the Assassination of President Kennedy was officially established by Executive Order to investigate and determine the facts surrounding JFK's murder The Warren Commission as it became known produced 26 volumes of hearings and exhibits more than 17 000 pages of testimony and a 912 page report Surely a definitive effort Not at all McKnight argues The Warren Report itself he contends was little more than the capstone to a deceptive and shoddily improvised exercise in public relations designed to prove that Oswald had acted alone McKnight argues that the Commission's own documents and collected testimony as well as thousands of other items it never saw refused to see or actively suppressed reveal two conspiracies the still very murky one surrounding the assassination itself and the official one that covered it up The cover up actually began he reveals within days of Kennedy's death when President Johnson FBI Director J Edgar Hoover and acting Attorney General Nicholas Katzenbach all agreed that any official investigation must reach only one conclusion Oswald was the assassin While McKnight does not uncover any smoking gun that identifies the real conspirators he nevertheless provides the strongest case yet that the Commission was wrong and knew it Oswald might have knowingly or unwittingly been involved but the Commission's own evidence proves he could not have acted alone Based on more than a quarter million pages of government documents and for the first time ever the 50 000 file cards in the Dallas FBI's Special Index McKnight's book must now be the starting point for future debate on the assassination Among the revelations in **Breach of Trust** Both CIA and FBI photo analysis of the Zapruder film concluded that the first shot could not have been fired from the sixth floor The Commission's evidence was never able to place Oswald at the sniper's nest on the sixth floor at the time of the shooting JFK's official death certificate signed by his own White House physician and contradicting the Commission's account of

Kennedy's wounds were left out of the official record. The dissenting views of the naval doctors who performed the autopsy and those of the government's best ballistic experts were kept out of the official report. The Commission's tortuous Single Bullet or Magic Bullet theory is finally and convincingly dismantled. Oswald was probably a low level asset of the FBI or CIA or both. Commission members Gerald Ford for the FBI and Allen Dulles for the CIA acted as informers regarding the Commission's proceedings. The strong dissenting views of Commission member Senator Richard Russell D. Georgia were suppressed for years.

Head Shot G. Paul Chambers, 2012. Chambers demonstrates that the commonly accepted view of the Kennedy assassination is impossible. He identifies the second murder weapon, proves the locations of the assassins, and demonstrates that there were multiple shooters with scientific certainty.

Mortal Error Bonar Menninger, 1992-01-01. Another conspiracy theory identifies the two men who operated separately, allegedly shot President Kennedy in the Crime of the Century Reprint.

Crime of the Century Michael L. Kurtz, 2025-03-14. Now a classic, Michael Kurtz's *Crime of the Century* recounts the assassination of President John F. Kennedy on November 22, 1963, and provides a detailed critical analysis of the investigations of the Warren Commission and the House Select Committee on Assassinations. Kurtz outlines the major areas of controversy about the assassination and sifts all the known evidence before concluding that both official inquiries failed to evaluate the considerable evidence of an assassination conspiracy. Kurtz also examines each of the most prevalent conspiracy theories and shows how often they fail to fit the facts. This third edition includes a new introduction based on updated information about the assassination since the second edition was published in 1993, including material from the National Archives and several major recent interpretations of the events. Drawing on a variety of primary source materials from the National Archives and the FBI's and CIA's declassified assassination files, *Crime of the Century* remains a book of importance not only to students of the Kennedy assassination but also to scholars of government response to political violence.

Case Closed Gerald Posner, 2003-09-09. The assassination of John F. Kennedy on November 22, 1963, continues to inspire interest ranging from well-meaning speculation to bizarre conspiracy theories and controversial filmmaking. But in this landmark book, reissued with a new afterword for the 40th anniversary of the assassination, Gerald Posner examines all of the available evidence and reaches the only possible conclusion: Lee Harvey Oswald acted alone. There was no second gunman on the grassy knoll. The CIA was not involved. And although more than four million pages of documents have been released since Posner first made his case, they have served only to corroborate his findings. *Case Closed* remains the classic account against which all books about JFK's death must be measured.

The JFK Assassination Dissected Cyril H. Wecht, M.D., J.D., Dawna Kaufmann, 2021-11-22. Since President John F. Kennedy's 1963 murder in Dallas, medical examiner and lawyer Dr. Cyril Wecht was initially inclined to accept the official theory that one person alone was responsible for the crime. But as Wecht delved into the evidence with boundless curiosity and unprecedented access, he came to understand that America had instead suffered a coup d'état at the hands of rogue elements within our own government. Nobody else has

Wecht's up close and personal experience in uncovering the facts behind this assassination and now he is sharing it with the world. Co-authored by investigative journalist Dawna Kaufmann, this comprehensive book reveals Wecht's analyses of the case's forensic and medical evidence. With his keen eye and sharp tongue, Wecht wields his scalpel on JFK's dubious autopsy report, the inept Warren Commission Report, the mishandling of crucial materials, all of the key players, and the media malpractice that has allowed the truth to remain hidden for nearly six decades. *Crossfire* Jim Marrs, 1993-01-22. The big daddy of the conspiracy books on the JFK assassination and one that can't be taken lightly. A sheer tour de force that may be the final word until 2039 when government files on the case can be unlocked. Kirkus Reviews. **Enemy of the Truth** Sherry P. Fiester, 2012. President John F. Kennedy said, "The great enemy of truth is very often not the lie, deliberate, contrived and dishonest, but the myth, persistent, persuasive and unrealistic." Filtering long-held beliefs in the Kennedy assassination through contemporary, reliable, established scientific facts will help to dispel myths. The very thing Kennedy described as the great enemy of truth. Authored by forensic investigator Sherry Fiester, *Enemy of the Truth* addresses eight prominent myths in the assassination, including the Dallas Police Department's investigation, the varied Dealey Plaza locations, witnesses believed shots originated from the single bullet theory, two simultaneous headshots if the limousine stopped, and if the blood in the Zapruder film is faked. **The Effectiveness of Public Law 102-526, the President John F. Kennedy Assassination Records Collection Act of 1992** United States. Congress. House. Committee on Government Operations. Legislation and National Security Subcommittee, 1994. *Impossible: The Case Against Lee Harvey Oswald (Volume One)* Barry Krusch, 2012-06-01. Why is this book one of the top 10 topics discussed in the history of the JFK ASSASSINATION FORUM web site? Answer: 25,000. Want that money? It's all yours. Just win The 25,000 JFK Challenge. No need to describe the rules now; the main details are here in Volume One, but know this: it's for real, which is why it has caught the interest of the people on the forum. Difficult to win. Nah, child's play. Just listen to these words from ace prosecutor Vincent Bugliosi: "Only in a fantasy world could Oswald be innocent and still have all this evidence against him. I think we can put it this way: If Oswald didn't kill Kennedy, then Kennedy wasn't killed on November 22, 1963. But the author of IMPOSSIBLE says Bugliosi is wrong. Now who are you going to believe, best-selling author Bugliosi, a prosecutor with over 100 felony convictions to his credit, or some nobody writer no one has heard of? So download this book for free on the 22nd and be the first on your block to claim the prize. And tell all your Facebook friends who think Oswald did it; their bounty awaits. Oh, before you go, just one more thing: Bugliosi and Stephen King, who wrote there was a 98% chance that Oswald was guilty, haven't accepted the Challenge yet. Nor have any of the dozens of lone assassin theorists to whom the offer has been made on internet forums, including Francois Carlier and David Von Pein, who is probably the third most knowledgeable person on the assassination after Bugliosi and John McAdams. Now, why would that be? Don't they want that free money?" **The JFK Assassination Debates** Michael L. Kurtz, 2006-11-08. Who killed JFK? Ever since that fateful day in Dallas, theories about President Kennedy's murder have

proliferated running the gamut from the official lone gunman verdict to both serious and utterly screwball conspiracy theories Michael Kurtz a distinguished historian who has plumbed every crevice of this controversial case for more than thirty years now sums up and critiques four decades of debate while also offering provocative new perspectives Kurtz presents an objective accounting of what we actually know and don't know about the assassination underlining both the logic and the limitations of the major theories about the case He then offers unique interpretations of the physical and forensic evidence and of existing areas of controversy leading him to new conclusions that readers will find hard to dismiss Kurtz shows how the official investigation's egregious mishandling of the crime scene evidence related to virtually every aspect of the case is largely responsible for the lone gunman conspiracy schism that confronts us today Those responsible for that investigation including the Dallas police the FBI and the Warren Commission failed so miserably in their efforts that they would have been laughed off the air if they had been portrayed on any of TV's popular CSI series One of the few experts writing on the subject who actually met Oswald Kurtz also provides new information about the accused assassin's activities around the time of the assassination and about his double life analyzing Oswald's ties to the intelligence community to organized crime and to both anti and pro Castro Cuban activists Mustering extraordinary documentation including exclusive interviews with key figures and extensive materials declassified by the Assassination Records Review Board he both confirms and alters much previous speculation about Oswald and other aspects of the case Who really killed JFK Forty years later most Americans still feel they don't know the truth and that their own government isn't telling them the whole story This book offers a corrective to even the most recent final verdicts and establishes a sound baseline for future research Silencing the Lone Assassin John Canal, 2000-03 Canal draws on his background in electronics and as an instructor in the US Air Force to challenge the conspiracy theories around the 1963 assassination of John Kennedy He assembles evidence from the testimony of ballistics experts and doctors new analysis of bullet fragments and the phone calls and movements of Oswald Ruby and other members of the mob to argue why and how Oswald did it and why the mob would want him silenced Annotation copyrighted by Book News Inc Portland OR **Reasonable Doubt** Henry Hurt, 1986 Presents a thorough examination into the unanswered questions surrounding the assassination of President Kennedy **Six Seconds in Dallas** Josiah Thompson, 1968 *November 22, 1963* David W.
