# **Reassessing Anglo Saxon England:**

Reassessing Anglo-Saxon England Eric John, 1996 Brilliantly and entertainingly written this new and original analysis is the fruit of 30 years of scholarship and therefore has something of the nature of a testament Mr John uses anthropological insight to understand the Anglo Saxon nature A Brief History of the Anglo-Saxons Geoffrey Hindley, 2013-02-07 Starting AD 400 around the time of their invasion of England and running through to the 1100s the Aftermath historian Geoffrey Hindley shows the Anglo Saxons as formative in the history not only of England but also of Europe The society inspired by the warrior world of the Old English poem Beowulf saw England become the world's first nation state and Europe's first country to conduct affairs in its own language and Bede and Boniface of Wessex establish the dating convention we still use today Including all the latest research this is a fascinating assessment of a vital historical period The Analo-Saxon World Nicholas J. Higham, M. J. Ryan, 2013-06-25 Presents the Anglo Saxon period of English history from the fifth century up to the late eleventh century covering such events as the spread of Christianity the invasions of the Vikings the composition of Beowulf and the Battle of Hastings The Anglo-Saxon Chancery Ben Snook, 2015 An exploration of Anglo Saxon charters bringing out their complexity and highlighting a range of broad implications Narratives of power: the episcopal figure in anglo/saxon monastic Tomás Bado, 2024-12-02 The current research aims to analyze and understand how the narratives of power around Anglo Saxon bishops were created in monastic environments during the Early Middle Ages As relevant political and cultural characters of their time the episcopal representatives deeply influenced the religious landscape and shaped a distinctive native ethos. The importance of this investigation comes from the lack of direct specialised treatment this topic has have as an integrated matter taking in account it s tripartite essence bishops the monastic phenomena and the writing derived from the interaction of the first two components A Short History of the Anglo-Saxons Henrietta Leyser, 2016-11-01 Here lies our leader all cut down the valiant man in the dust The elegiac words of the Battle of Maldon an epic poem written to celebrate the bravery of an English army defeated by Viking raiders in 991 emerge from a diverse literature including Beowulf and Bede s Ecclesiastical History produced by the people known as the Anglo Saxons Germanic tribes who migrated to Britain from Lower Saxony and Denmark in the early fifth century CE The era once known as the Dark Ages was marked by stunning cultural advances and Henrietta Leyser here offers a fresh analysis of exciting recent discoveries made in the archaeology and art of the Anglo Saxon world Arguing that the desperate struggle led by Alfred the Great against the Vikings helped define a distinctively English sensibility the author explores relations with the indigenous British the Anglo Saxon conversion to Christianity the ascendancy of Mercia and the rise of Wessex This vivid history evokes both the emergent kingdoms of Alfred and Offa and the golden treasures of Sutton Hoo It will appeal to students of early medieval history and to all those who wish to understand how England was born Folly and Fortune in Early British History K. Henshall, 2008-10-24 Focusing on pivotal points in Early British History this book examines the role of folly and

fortune in major events in Britain from Caesar's expeditions to the Norman Conquest By examining the foolishness in a bygone age Henshall draws attention to how human behaviour with all its erraticisms has helped shape history

**Anglo-Saxon History** David A.E. Pelteret, 2021-10-28 First published in 2000 Basic Readings in Anglo Saxon England BRASE is a series of volumes that collect classic exemplary or ground breaking essays in the fields of Anglo Saxon studies generally written in the 1960s or later or commissioned by a volume editor to fulfill the purpose of the given volume This the sixth volume in the series is the first devoted to history and the first edited by a scholar outside the field of literary study David Pelteret has collected fifteen previously published essays the first nine of his essays present a conspectus of Anglo Saxon history the other seven are spread among seven Special Approaches Anthropology Archaeology Art History Economic and Comparative History Geography and Geology Place Names and Topography and Archaeology **Peasant Perceptions** of Landscape Stephen Mileson, Stuart Brookes, 2021 This volume marks a change in the areas of landscape history and the history of everyday life offering the first sustained analysis of how ordinary medieval and early modern people experienced and perceived their material environment and constructed their identities in relation to the places they lived focussing on the area of Ewelme hundred Textual Identities in Early Medieval England Jacqueline A. Fay, Rebecca Stephenson, Renée Rebecca Trilling, 2022 New approaches to a range of Old English texts Throughout her career Professor Katherine O Brien O Keeffe has focused on the often overlooked details of early medieval textual life moving from the smallest punctum to a complete reframing of the humanities biggest questions In her hands the traditional tools of medieval studies philology paleography and close reading become a fulcrum to reveal the unspoken worldviews animating early medieval textual production The essays collected here both honour and reflect her influence as a scholar and teacher They cover Latin works such as the writings of Prudentius and Bede along with vernacular prose texts the Pastoral Care the OE Boethius the law codes the Anglo Saxon Chronicle and Ifric s Lives of Saints The Old English poetic corpus is also considered with a focus on less studied works including Genesis and Fortunes of Men This diverse array of texts provides a foundation for the volume s analysis of agency identity and subjectivity in early medieval England united in their methodology the articles in this collection all question received wisdom and challenge critical consensus on key issues of humanistic inquiry among them affect and embodied cognition sovereignty and power and community formation Angles on a Kingdom Joseph Grossi,2021-07-05 Angles on a Kingdom analyses changing attitudes towards East Anglia within early medieval England as revealed in several important literary texts Key Concepts in Medieval Literature Elizabeth Solopova, Stuart Lee, 2007-07-20 Key Concepts in Medieval Literature introduces students to the major authors themes and genres of the English Middle Ages These are discussed in concise focused essays accompanied by summaries and recommendations for further reading highlighting the need to see texts in context both historically and linguistically Medieval Women and the <u>Law</u> Noël James Menuge, 2003 Legal records illuminate womens use of legal processes with regard to the making of wills the

age of consent rights concerning marriage and children women as traders etc Determined and largely successful effort to read behind and alongside legal discourses to discover women s voices and women s feelings It adds usefully to the wider debate on women's role in medieval society ENGLISH HISTORICAL REVIEW What is really new here is the ways in which the authors approach the history of the law they use some decidedly non legal texts to examine legal history they bring together historical and literary sources and they debunk the view that medieval laws had little to say about women or that medieval women had little legal agency ALBION The legal position of the late medieval woman has been much neglected and it is this gap which the essays collected here seek to fill They explore the ways in which women of all ages and stations during the late middle ages c 1300 c 1500 could legally shift for themselves and how and where they did so Particular topics discussed include the making of wills the age of consent rights concerning marriage care custody and guardianship with particular emphasis on the rights of a mother attempting to gain custody of her own children within the court system women as traders women as criminals prostitution the rights of battered women within the courts the procedures women had to go through to gain legal redress and access rape and women within guilds NOELJAMES MENUGE gained her Ph D from the Centre of Medieval Studies at the University of York Contributors P J P GOLDBERG VICTORIA THOMPSON JENNIFER SMITH CORDELIA BEATTIE KATHERINE J LEWIS NOEL JAMES MENUGE CORINNE SAUNDERS KIM M PHILLIPS EMMA The Gregorian Mission to Kent in Bede's Ecclesiastical History Richard Shaw, 2018-01-29 Historians **HAWKES** have long relied on Bede's Ecclesiastical History for their narrative of early Christian Anglo Saxon England but what material lay behind Bede's own narrative What were his sources and how reliable were they How much was based on contemporary material How much on later evidence What was rhetoric What represents his own agendas deductions or even inventions This book represents the first systematic attempt to answer these questions for Bede's History taking as a test case the coherent narrative of the Gregorian mission and the early Church in Kent Through this critique it becomes possible for the first time to catalogue Bede s sources and assess their origins provenance and value even reconstructing the original shape of many that are now lost The striking paucity of his primary sources for the period emerges clearly This study explains the reason why this was the case At the same time Bede is shown to have had access to a greater variety of texts especially documentary than has previously been realised This volume thus reveals Bede the historian at work with implications for understanding his monastery library and intellectual milieu together with the world in which he lived and worked It also showcases what can be achieved using a similar methodology for the rest of the Ecclesiastical History and for other contemporary works Most importantly thanks to this study it is now feasible indeed necessary for subsequent historians to base their reconstructions of the events of c 600 not on Bede but on his sources As a result this book lays the foundations for future work on the conversion of Anglo Saxon England and offers the prospect of replacing and not merely refining Bede s Edgar, King of the English, 959-975 Donald Scragg, 2014 Fresh narrative of the history of early Christian Kent

assessments of Edgar's reign reappraising key elements using documentary coin and pictorial evidence King Edgar ruled England for a short but significant period in the middle of the tenth century Two of his four children succeeded him as king and two were to become canonized He was known to later generations as the Pacific orthe Peaceable because his reign was free from external attack and without internal dissention and he presided over a period of major social and economic change early in his rule the growth of monastic power and wealth involved redistribution of much of the country's assets while the end of his reign saw the creation of England's first national coinage with firm fiscal control from the centre He fulfilled King Alfred s dream of the West Saxon royalhouse ruling the whole of England and like his uncle King thelstan he maintained overlordship of the whole of Britain Despite his considerable achievements however Edgar has been neglected by scholars partly becausehis reign has been thought to have passed with little incident A time for a full reassessment of his achievement is therefore long overdue which the essays in this volume provide CONTRIBUTORS SIMON KEYNES SHASHI JAYAKUMAR C P LEWIS FREDERICK M BIGGS BARBARA YORKE JULIA CRICK LESLEY ABRAMS HUGH PAGAN JULIA BARROW CATHERINE KARKOV ALEXANDER R RUMBLE MERCEDES SALVADOR BELLO **Cognitive Approaches to Old English Poetry** Antonina Harbus, 2012 Offers an entirely new way of interpreting and examining Anglo Saxon texts via theories derived from cognitive studies A major thoughtful study applying new and serious interpretative and critical perspectives to a central range of Old English poetry Professor John Hines Cardiff University Cognitive approaches to literature offernew and exciting ways of interpreting literature and mentalities by bringing ideas and methodologies from Cognitive Science into the analysis of literature and culture While these approaches are of particular value in relation to understanding the texts of remote societies they have to date made very little impact on Anglo Saxon Studies This book therefore acts as a pioneer mapping out the new field explaining its relevance to Old English Literary Studies and demonstrating in practice its application to a range of key vernacular poetic texts including Beowulf The Wanderer and poems from the Exeter Book Adapting key ideas from three related fields Cognitive Literary Cultural Studies Cognitive Poetics and Conceptual Metaphor Theory in conjunction with more familiar models derived from Literary Analysis Stylistics and Historical Linguistics allows several new ways of thinking about Old English literature to emerge It permits a systematic means of examining and accounting for the conceptual structures that underpin Anglo Saxon poetics as well as fuller explorations at the level of mental processing of the workings of literary language in context The result is a set of approaches to interpreting Anglo Saxon textuality through detailed studies of the concepts mental schemas and associative logic implied in and triggeredby the evocative language and meaning structures of surviving works ANTONINA HARBUS is Professor in the Department of English at Macquarie University Sydney Australia **The Making of Europe** Christopher Dawson, 2002 Christopher Dawson concludes that the period of the fourth to the eleventh centuries commonly known as the Dark Ages is not a barren prelude to the creative energy of the medieval world Instead he argues that it is better described as ages of dawn for it is in

this rich and confused period that the complex and creative interaction of the Roman empire the Christian Church the classical tradition and barbarous societies provided the foundation for a vital unified European culture In an age of fragmentation and the emergence of new nationalist forces Dawson argued that if our civilization is to survive it is essential that it should develop a common European consciousness and sense of historic and organic unity But he was clear that this unity required sources deeper and more complex than the political and economic movements on which so many had come to depend and he insisted prophetically that Europe would need to recover its Christian roots if it was to survive In a time of cultural and political ambiguity The making of Europe is an indispensable work for understanding not only the rich sources but also the contemporary implications of the very idea of Europe The English Resistance Peter Rex, 2014-05-15 The first history of this forgotten English underground struggle against the invading Normans Social Identity in Early Medieval Britain William O. Frazer, Andrew Tyrell, 2001-01-01 Social identity is a concept od increasing importance in the social sciences. Here the concept is applied to the often atheoretical realm of medieval studies Each contributor focuses on a particular topic of early medieval identity ethnicity national identity social location subjectivity personhood political organization kiship the body gender age proximity regionality memory and ideological systems. The result is a pioneering vision of medieval social identity and a challenge to some of the received general wisdoms about this period **Century of Calamity** T.D. Asch,2021-10-15 The dramatic story of a tumultuous period of English history a time when kings fell families were split and a way of life was lost forever Packed with flawed characters and momentous events this book recounts a thrilling century of betrayal loyalty and lost causes
