Rebecca Cooper And The Ring Of Isis:

Rebecca Cooper and the Ring of Isis Minerva Pendragon, 2004-12-01 Rebecca Cooper is a fourteen year old witch Orphaned at three she is raised by two elderly aunts who taught her the Wiccan way She is sent to Ysgol Y Dewin a school in another dimension to learn the craft While there she discovers that she is the reincarnation of a witch called Gwynneth Gwynneth was murdered by her sister Angharyd two thousand years ago when they fought for ownership of the book of shadows presented to them by the goddess Astarte The book which only these two witches were able to read held the secrets of everything in the world and would let the sole owner rule the world Gwynneth hid the book before she died along with some trinkets which held clues to the whereabouts of the book Rebecca has to find these trinkets before Angharyd does in order to stop evil ruling the world Will she succeed *Singing My Mother's Song* Rebecca Tantony, 2019-05 This collection started as a whisper a quiet mouth asking questions Over the years it became a coherent voice that kept getting louder Now it is a song sprung from a yearning to fill in the missing parts to understand my mother's story Perhaps it's something that goes beyond what is experiential and real and moves into memory and imagination Perhaps it is a book of magic of synchronicity and colliding moments in time too strange to be logical too concise to be chance Ultimately it's a way of shedding light in order to change the direction of a past Sometimes I think it has been formed by my imagined daughter clearing the way ahead before her own birth Or by whole generations of women celebrating a future formed from the heart of us

Medical Bondage Deirdre Cooper Owens, 2017-11-15 The accomplishments of pioneering doctors such as John Peter Mettauer James Marion Sims and Nathan Bozeman are well documented It is also no secret that these nineteenth century gynecologists performed experimental caesarean sections ovariectomies and obstetric fistula repairs primarily on poor and powerless women Medical Bondage breaks new ground by exploring how and why physicians denied these women their full humanity yet valued them as medical superbodies highly suited for medical experimentation In Medical Bondage Cooper Owens examines a wide range of scientific literature and less formal communications in which gynecologists created and disseminated medical fictions about their patients such as their belief that black enslaved women could withstand pain better than white ladies Even as they were advancing medicine these doctors were legitimizing for decades to come groundless theories related to whiteness and blackness men and women and the inferiority of other races or nationalities Medical Bondage moves between southern plantations and northern urban centers to reveal how nineteenth century American ideas about race health and status influenced doctor patient relationships in sites of healing like slave cabins medical colleges and hospitals It also retells the story of black enslaved women and of Irish immigrant women from the perspective of these exploited groups and thus restores for us a picture of their lives

Musical Creativity in Restoration England Rebecca Herissone, 2013 Musical Creativity in Restoration England is the first comprehensive investigation of approaches to creating music in late seventeenth century England Understanding creativity during this period is particularly challenging because

many of our basic assumptions about composition such as concepts of originality inspiration and genius were not yet fully developed In adopting a new methodology that takes into account the historical contexts in which sources were produced Rebecca Herissone challenges current assumptions about compositional processes and offers new interpretations of the relationships between notation performance improvisation and musical memory She uncovers a creative culture that was predominantly communal and reveals several distinct approaches to composition determined not by individuals but by the practical function of the music Herissone's new and original interpretations pose a fundamental challenge to our preconceptions about what it meant to be a composer in the seventeenth century and raise broader questions about the interpretation of early modern notation

Partnership for the Americas: Western Hemisphere Strategy and U.S. Southern Command James G. Stavridis, Radm James G Stavridis, 2014-02-23 Since its creation in 1963 United States Southern Command has been led by 30 senior officers representing all four of the armed forces None has undertaken his leadership responsibilities with the cultural sensitivity and creativity demonstrated by Admiral Jim Stavridis during his tenure in command Breaking with tradition Admiral Stavridis discarded the customary military model as he organized the Southern Command Headquarters In its place he created an organization designed not to subdue adversaries but instead to build durable and enduring partnerships with friends His observation that it is the business of Southern Command to launch ideas not missiles into the command's area of responsibility gained strategic resonance throughout the Caribbean and Central and South America and at the highest levels in Washington DC

The Christian Invention of Time Simon Goldhill, 2022-02-03 Time is integral to human culture Over the last two centuries people's relationship with time has been

transformed through industrialisation trade and technology But the first such life changing transformation under Christianity's influence happened in late antiquity It was then that time began to be conceptualised in new ways with discussion of eternity life after death and the end of days Individuals also began to experience time differently from the seven day week to the order of daily prayer and the festal calendar of Christmas and Easter With trademark flair and versatility world renowned classicist Simon Goldhill uncovers this change in thinking He explores how it took shape in the literary writing of late antiquity and how it resonates even today His bold new cultural history will appeal to scholars and students of classics cultural history literary studies and early Christianity alike *Twitter and Tear Gas* Zeynep Tufekci, 2017-05-16 A firsthand account and incisive analysis of modern protest revealing internet fueled social movements greatest strengths and frequent challenges To understand a thwarted Turkish coup an anti Wall Street encampment and a packed Tahrir Square we must first comprehend the power and the weaknesses of using new technologies to mobilize large numbers of people An incisive observer writer and participant in today's social movements Zeynep Tufekci explains in this accessible and compelling book the nuanced trajectories of modern protests how they form how they operate differently from past protests and why they have difficulty persisting in their long term quests for change Tufekci speaks from direct experience combining on the ground interviews with insightful analysis She describes how the internet helped the Zapatista uprisings in Mexico the necessity of remote Twitter users to organize medical supplies during Arab Spring the refusal to use bullhorns in the Occupy Movement that started in New York and the empowering effect of tear gas in Istanbul's Gezi Park These details from life inside social movements complete a moving investigation of authority technology and culture and offer essential insights into the future of governance Systematic Reviews in the Social Sciences Mark Petticrew, Helen Roberts, 2008-04-15 Such diverse thinkers as Lao Tze Confucius and U S Defense Secretary Donald Rumsfeld have all pointed out that we need to be able to tell the difference between real and assumed knowledge The systematic review is a scientific tool that can help with this difficult task It can help for example with appraising summarising and communicating the results and implications of otherwise unmanageable quantities of data This book written by two highly respected social scientists provides an overview of systematic literature review methods Outlining the rationale and methods of systematic reviews Giving worked examples from social science and other fields Applying the practice to all social science disciplines It requires no previous knowledge but takes the reader through the process stage by stage Drawing on examples from such diverse fields as psychology criminology education transport social welfare public health and housing and urban policy among others Including detailed sections on assessing the quality of both quantitative and qualitative research searching for evidence in the social sciences meta analytic and other methods of evidence synthesis publication bias heterogeneity and approaches to dissemination

Post-Ottoman Coexistence Rebecca Bryant, 2016-03-01 In Southeast Europe the Balkans and Middle East scholars often refer to the peaceful coexistence of various religious and ethnic groups under the Ottoman Empire before

ethnonationalist conflicts dissolved that shared space and created legacies of division Post Ottoman Coexistence interrogates ways of living together and asks what practices enabled centuries of cooperation and sharing as well as how and when such sharing was disrupted Contributors discuss both historical and contemporary practices of coexistence within the context of ethno national conflict and its aftermath **Mummy Portraits of Roman Egypt** Marie Svoboda,Caroline

Cartwright,2020-08-25 This publication presents fascinating new findings on ancient Romano Egyptian funerary portraits preserved in international collections Once interred with mummified remains nearly a thousand funerary portraits from Roman Egypt survive today in museums around the world bringing viewers face to face with people who lived two thousand years ago Until recently few of these paintings had undergone in depth study to determine by whom they were made and how An international collaboration known as APPEAR Ancient Panel Paintings Examination Analysis and Research was launched in 2013 to promote the study of these objects and to gather scientific and historical findings into a shared database The first phase of the project was marked with a two day conference at the Getty Villa Conservators scientists and curators presented new research on topics such as provenance and collecting comparisons of works across institutions and scientific studies of pigments binders and supports The papers and posters from the conference are collected in this publication which offers the most up to date information available about these fascinating remnants of the ancient world The free online edition of this open access publication is available at www.getty.edu/publications/mummyportraits and includes zoomable illustrations and graphs Also available are free PDF EPUB and Kindle MOBI downloads of the book **Toponymy on the Periphery** Julien

Cooper,2020-08-03 In Toponymy on the Periphery Julien Charles Cooper conducts a study of the rich geographies preserved in Egyptian texts relating to the desert regions east of Egypt These regions filled with mines quarries nomadic camps and harbours are often considered as an unimportant hinterland of the Egyptian state but this work reveals the wide explorations and awareness Egyptians had of the Red Sea and its adjacent deserts from the Sinai in the north to Punt in the south The book attempts to locate many of the placenames present in Egyptian texts and analyse their etymology in light of Egyptian linguistics and the various foreign languages spoken in the adjacent deserts and distant shores of the Red Sea **Checking**

for Understanding Douglas Fisher,Nancy Frey,2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material The students nod and say they get it Later the teacher is dismayed when many of the students fail a test on the material Why aren t students getting it And just as important why didn t the teacher recognize the problem In Checking for Understanding Douglas Fisher and Nancy Frey show how to increase students understanding with the help of creative formative assessments When used regularly formative assessments enable every teacher to determine what students know and what they still need to learn Fisher and Frey explore a variety of engaging activities that check for and increase understanding including interactive writing portfolios multimedia presentations audience response systems and much more This new 2nd edition of Checking for Understanding has been updated to reflect the latest thinking in formative assessment
