Ward, 2014-02-15 Alan J Ward combines constitutional history and political science to compare all nine of Australia's political systems federal state and territorial from colonial times to the present Guided by a model of parliamentary government drawn from comparative politics he considers the following key topics the selection of the government the prime minister and cabinet government control of the lower house the primacy of the lower house in

bicameral systems the head of state the influence of Australian federalism on parliamentary government and the growth of executive democracy in Australia Ultimately Ward argues that as only one of Australia's nine constitutions accurately describes parliamentary government as practiced in the country it is a democratic imperative that the other eight be rewritten

**Independents in Irish party democracy** Liam Weeks, 2017-05-15 This book examines the phenomenon of the independent politician believed to be extinct in most political systems It is very much alive and well in Ireland and has experienced a considerable resurgence in recent years Independents won a record number of seats in 2016 and had three ministers appointed to cabinet This presence is very unusual from a comparative perspective and there are more independents in the Irish parliament than the combined total in all other industrial democracies The aim of this book is to explain this anomaly how and why independents can endure in a democracy that is one of the oldest surviving in Europe and has historically had one of the most stable party systems

**Gillard Governments** Chris Aulich, 2014-02-03 The years 2010 to 2013 saw a remarkable period in Australian political history Julia Gillard became Australia's first female prime minister after she successfully staged a leadership challenge to Prime Minister Kevin Rudd A few months later she led her party to the 2010 federal election and subsequently steered through seventeen days of negotiation with three independent members to successfully form her second but minority government Yet three years and three days later she was overthrown by the very man she had originally dethroned In this book expert contributors consider the turbulence of that period and reflect on the Gillard governments policy setting institutional and political legacies In particular they consider the issue of Gillard's leadership of a minority government and the arrangements needed to work with the Greens and independents to achieve Labor policies in the parliament A recurring theme raised by many of the authors relates to the many distractions that prevented Gillard and Labor from gaining popular traction during the period The book gives particular attention to Gillard as a female leader and the relentless campaign of denigration that pursued her drawing conclusions about the fate of many women who assume positions of significant power in the Australian community The Gillard Governments has been produced by the ANZSOG Institute for Governance at the University of Canberra It is the eleventh in a series of books on successive Commonwealth administrations Each volume has provided a chronicle and commentary of major events policies and issues that have dominated successive administrations since 1983

Double Disillusion Anika Gauja, Peter Chen, Jennifer Curtin, Juliet Pietsch, 2018-04-11 This book provides a comprehensive analysis of the 2016 Australian federal election Won by the Liberal National Coalition by the slimmest of margins the result created a climate of political uncertainty that threatened the government's lower house majority While the campaign might have lacked the theatre of previous elections it provides significant insights into the contemporary political and policy challenges facing Australian democracy and society today In this the 16th edited collection of Australian election studies 41 contributors from a range of disciplines bring an unprecedented depth of expertise to the 2016 contest The book covers the context key battles and issues in the campaign

and reports and analyses the results in detail It provides an evaluation of the role of political actors such as the parties independents the media interest groups and GetUp and examines election debate in the online space Experts from a range of policy fields provide an analysis of election issues ranging from the economy and industrial relations to social policy the environment and gender and sexuality Each of the chapters is written on the basis of in depth and original research providing new insights into this important political event

Yes, Premier John Wanna, Paul D. Williams, 2005 Since 2002 and for the first time since Federation all state and territory governments in Australia have been held by the Australian Labor Party Yes Premier features a chapter on each state or territory and in each case focuses on the leader who has led their party to power and so created this unprecedented and historical situation It examines each Labor premier and in Tasmania s case two and territory chief minister s individual rise to power and their political and personal style The chapters are written by experts in the politics and political culture of their home state Part personal and part political biographies the chapters also assess the instruments of leadership any modern state or territory leader must master in order to remain in the top job

BOOK JACKET Morrison's Miracle Anika Gauja, Marian Sawyer, Marian Simms, 2020-07-01 This book the 17th in the federal election series and the ninth sponsored by the Academy of the Social Sciences in Australia provides a comprehensive account of the 2019 Australian election which resulted in the surprise victory of the Coalition under Scott Morrison It brings together 36 contributors who analyse voter behaviour campaign strategies regional variations polling ideology media and the new importance of memes and digital campaigning Morrison s victory underlined the continuing trend toward the personalisation of politics and the loss of trust in political institutions both in Australia and across western democracies Morrison s Miracle is indispensable for understanding the May 2019 Coalition victory which surprised many observers and confounded pollsters and political pundits

**The Politics of Women's Interests** Louise Chappell, Lisa Hill, 2006-09-27 This new study reveals how institutional practices and discourses shape the way men and women are conceived of and how through this process gender stereotypes and expectations are created Informed by the latest research and trends these expert authors examine the way in which domestic and global institutions shape and reflect gender interests and the extent to which feminists can challenge gender norms through political institutions They examine regional national and international institutions including the EU ICC and UN and take a broad view of political institutions to include bureaucracy federalism legal structures parliaments voting and electoral institutions and media coverage of women s involvement in such institutions Drawing on experiences in the US UK Australia Canada and New Zealand this book will be of great interest to students and scholars of gender studies political science and comparative politics

**Abbott's Gambit** Carol Johnson, John Wanna, Hsu-Ann Lee, 2015-01-21 This book provides a truly comprehensive analysis of the 2013 federal election in Australia which brought the conservative Abbott government to power consigned the fractious Labor Party to the Opposition benches and ended the hung parliament experiment of 2010 13 in which the Greens and three independents lent their support to form a minority Labor

government It charts the dynamics of this significant election and the twists and turns of the campaign itself against a backdrop of a very tumultuous period in Australian politics Like the earlier federal election of 2010 the election of 2013 was an exercise in bipolar adversarial politics and was bitterly fought by the main protagonists It was also characterised again by leadership changes on Labor's side as well as the entry of new political parties anxious to deny the major parties a clear mandate Moreover the 2013 election continued the trend whereby an increasing proportion of the electorate has chosen not to vote for one of the main two political parties While the 2013 election delivered a clear victory to the Coalition in the Lower House it simultaneously produced a much more mixed outcome in the Senate where the Greens managed to record their largest ever representation and a new party the Palmer United Party initially secured three Senate positions at its first attempt together with the election of Clive Palmer to a Queensland seat in the House of Representatives With minor and micro parties also winning Senate seats amounting to a total of 18 Senators on the cross benches the Abbott government's ability to govern and pass legislation was placed in some doubt The 2013 election result suggested that far from ending the preceding tumultuous period of Australian politics it merely served to prolong this era indefinitely The 2013 campaign was one of the longest on record arguably commencing when the besieged Prime Minister Julia Gillard announced the date for the election in late January 2013 then over seven months away This unconventional tactic overshadowed the election from that date onwards providing a definite timeline for Labor infighting influencing the largely negative tactics of the Opposition and encouraging new parties to proliferate to contest the election This volume traces these formative influences on the campaign dynamics and explains the electoral outcome that occurred including the 2014 re-election for the Western Australian Senate seats ordered by the High Court Abbott's Gambit includes insightful contributions from academic experts campaign directors and electoral watchers political advisers and professional psephologists Contributors utilise a wide range of sources and approaches including the Australian Election Survey to provide a detailed analysis of this important federal election

**Australia** Marian Sawer, Norman Abjorensen, Philip Larkin, 2009 On many criteria Australia has been a pioneering democracy As one of the oldest continuing democracies however a health check has long been overdue Since 2002 the Democratic Audit of Australia a major democracy assessment project has been applying an internationally tested set of indicators to Australian political institutions and practices The indicators derive from four basic principles political equality popular control of government civil liberties and human rights and the quality of public deliberation Comparative data are taken from Australia's nine jurisdictions as well as from three comparator democracies Canada New Zealand and the United Kingdom to identify strengths weaknesses and opportunities for reform Some of the findings are disturbing For example Australia has fallen well behind in the regulation of private money in elections and in controlling the use of government or parliamentary resources for partisan benefit Transparency and accountability have suffered from relatively weak FOI regimes and from executive dominance of parliaments For those studying democracy or wanting to reform

Australian politics The State of Democracy provides a wealth of evidence in a well illustrated and highly accessible format Internationally it is an important contribution to the democracy assessment literature and pushes into new areas such as the intergovernmental decision making of federalism *Advocates and Persuaders* Mark J. Sheehan,2019-03-29 The authors of *Advocates and Persuaders* aim to demystify the political practice of lobbying They believe that lobbying has a significant role to play in a healthy democracy and they examine it closely in the contexts of federal state and local government They also shine a spotlight on the involvement of the media regulators and pollsters in lobbying and include as case studies analyses of lobbying by a diversity of organisations ranging widely from large corporations to grass roots activists **New Parties in Government** Kris Deschouwer,2008-02-08 Party literature is largely focused on the rise and success of new parties and their effects on party systems and older parties This book on the other hand provides a valuable and original addition to such literature by analyzing what happens to a party when it enters government for the first time Leading contributors assess how these parties whether old or new change when entering government by answering a set of questions How and why has their role changed What are the consequences of change What explains the evolution from principled opposition to loyal opposition and eventually to participation in the executive Which characteristics of the parties can be held responsible Which characteristics of the parties context should be brought into the picture What have been the effects of the status change on party organization party ideology and electoral results Covering a wide range of European parties such as the Finish Greens right wing parties FN Lega Nord and Alleanza Nazionale and new parties in Italy The Netherlands and Sweden to name a few this book will be of particular interest to scholars and students concerned with party systems political parties and comparative politics **Two Futures** Clare O'Neil,Tim Watts,2015-08-07 Beset by spin and the battle to win each news cycle contemporary politics is mired in short term thinking Too little time is given to considering creative ways in which we could tackle key issues a lagging education system the destruction of our coastlines Asia s economic ascendancy in the decades ahead In this agenda setting book new federal parliamentarians Clare O Neil and Tim Watts present a vision for six vital areas of public policy that will determine what life in Australia is like in 2040 They provide fresh insights into the role of government and individuals alike in shaping the future Optimistic and impassioned analytical and ideas driven *Two Futures* starts the conversation that at this critical juncture the nation needs to have Clare O Neil is the federal Labor member for the seat of Hotham in Melbourne s south east She was Australia s youngest female mayor and has been a management consultant with McKinsey Company She studied public policy as a Fulbright Scholar at Harvard s Kennedy School Tim Watts is the federal Labor member for the seat of Gellibrand in Melbourne s west Prior to entering parliament he was a senior manager at Telstra He has been a lawyer at Mallesons Stephen Jaques and studied at the London School of Economics A must read publication from two talented federal members concerned about a better and fairer future for Australia Steve Bracks A refreshing look at the big issues in the decades ahead Laura Tingle Political Editor Australian Financial Review An

insightful contribution to the policy debate about the future of our country Catherine Livingstone President Business Council of Australia Provocative clear sighted and jargon free Age Sydney Morning Herald This book is a must read for thinking Australians ANZ LitLovers A welcome often ambitious and sobering book Daily Review     *Public Leadership* Paul 't Hart, John Uhr, 2008-11-01 Leadership is routinely admired vilified ridiculed invoked trivialised explained and speculated about in the media and in everyday conversation Despite all this talk there is surprisingly little consensus about how to answer basic questions about the nature place role and impact of leadership in contemporary society This book brings together academics from a broad array of social science disciplines who are interested in contemporary understandings of leadership in the public domain Their work on political administrative and civil society leadership represents a stock take of what we need to know and offers original examples of what we do know about public leadership Although this volume connects scholars living in and mostly working on public leadership in Australia and New Zealand their contributions have a much broader scope and relevance
