Recapturing Marxism An Appraisal Of Recent Trends In Sociological Theory

Jeffrey Surovell

Recapturing Marxism An Appraisal Of Recent Trends In Sociological Theory:

Recapturing Marxism Rhonda F. Levine, Jerry Lembcke, 1987-09-09 Marxism Neo Marxism and U S sociology by Rhonda F Levine and Jerry Lembcke Crisis and vitalization by Albert Szymanski New classes and old theories by Peter Meiksins Class and class capacities by Jerry Lembcke Bringing classes back in by Rhonda F Levine The limits of the world system perspective by Alex Dupuy and Barry Truchil Race ethnicity and class by James A Geschwender Recent ideological tendencies in urban and regional research by Richard Peet Behind the veil of neutrality by Peter Seybold Feminism by Albert Szymanski Thinking about social class by Scott G McNall

From the Left Bank to the Mainstream Patrick McGuire, Donald McQuarie, 1994 Chapter 1 Introduction U S Sociology the American Dream and the Specter of Karl Marx Part 2 Part I Social Structure and Processes Chapter 3 Class Structure Class Not Strata It s Not Just Where You Stand But What You Stand For Chapter 4 Social Movements An Argument for Understanding Social Movements as Class Movements Chapter 5 Gender Marxist Theory and the Oppression of Women Chapter 6 Race Classical and Recent Theoretical Developments in the Marxist Analysis of Race and Ethnicity Chapter 7 Social Change and Development A World After Its Own Image The Marxist Paradigm and Theories of Capitalist Development on a World Scale Chapter 8 Labor Labor s Crisis and the Crisis of Labor Studies Toward a Retheorized Sociology of Labor Chapter 9 State and Politics From the King of Prussia to the New World Order Marxist Theories of State and Power Chapter 10 Corporations and the Economy Marxist Scholarship and the Corporate Economy Chapter 11 Education and Knowledge Reading Class Marxist Theories of Education Chapter 12 Medicine and Public Health The Study of the Health Care System The Marxist Critique of a Dominant Paradigm Chapter 13 Religion Marxist Christian Dialogues The Liberation of Theology Chapter 14 Crime and Law Rediscovering Criminology Lessons from the Marxist Tradition Chapter 15 Urban and Regional Development Views of the City Urban and Regional Sociology

Reworking Race Moon-Kie Jung, 2010-02-26 In the middle decades of the twentieth century Hawai i changed rapidly from a conservative oligarchy firmly controlled by a Euro American elite to arguably the most progressive part of the United States Spearheading the shift were tens of thousands of sugar pineapple and dock workers who challenged their powerful employers by joining the left led International Longshoremen and Warehousemen s Union In this theoretically innovative study Moon Kie Jung explains how Filipinos Japanese Portuguese and others overcame entrenched racial divisions and successfully mobilized a mass working class movement He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics Instead the movement reworked race by incorporating and rearticulating racial meanings and practices into a new ideology of class Through its groundbreaking historical analysis *Reworking Race* radically rethinks interracial politics in theory and practice

Ludic Feminism and After Teresa L. Ebert, 1996 A provocative and controversial challenge to postmodern academic feminism

Bringing Class Back In Scott G. McNall, 2019-03-04 In recent years a flurry of poststructuralist post Marxist and statecentered approaches have emerged in historical and sociological

scholarship Far from ignoring these developments the study of class has shaped and been shaped by them As the selections in this volume indicate class analysis changes and develops while sustaining itself as a powerful refined working tool in helping scholars understand the complexities of social and historical processes This volume provides a cross section of the rich body of social theory and empirical research being produced by scholars employing class analysis It demonstrates the variety vibrancy and continuing value of class analysis in historical and sociological scholarship The work of promising young scholars is combined with contributions from well established figures to produce a volume that addresses continuing debates over the relationship between structure and agency the centrality of class relations and the dynamics of class formation class culture and class consciousness

The Debate on Classes Erik Olin Wright, 1998-09-17 Erik Olin Wright's *Classes* was hailed on publication by the American Journal of Sociology as almost certain to be the most important book on social classes of the decade *The Debate on Classes* brings together major critics of Wright's work to assess the adequacy of his theory Also included are Wright's own spirited responses and reformulations in the light of these criticisms thereby presenting the reader with an open scholarly discussion in which intellectual collaboration develops an understanding of the impact of class on the wider terrain of culture and politics

Paradigm Lost Stanley Aronowitz, Peter Bratsis, 2002 With increasing globalization the meaning and role of the nation state are in flux At the same time state theory which might help to explain such a trend has fallen victim to the general decline of radical movements particularly the crisis in Marxism This volume seeks to enrich and complicate current political debates by bringing state theory back to the fore and assessing its relevance to the social phenomena and thought of our day Throughout it becomes clear that whether confronting the challenges of postmodern and neo institutionalist theory or the crisis of the welfare state and globalization state theory still has great analytical and strategic value

State Theory Bob Jessop, 2013-04-30 This volume develops a novel approach to state theory It offers a comprehensive review of the existing literature on the state and sets a new agenda for state research Four central themes define the scope of the book an account of the bases of the operational autonomy of the state the need to develop state theory as part of a more general social theory the possibilities of explaining capitalist societalization without assuming that the economy is the ultimate determinant of societal dynamics and a defence of the method of articulation in theory construction In developing these issues Bob Jessop both builds on and goes well beyond the view presented in his earlier books *The Capitalist State* 1982 and *Nicos Poulantzas* 1985 The result is a highly original statement which will become a center point of discussion The volume confirms the author's standing as one of the most important post War Marxist state theorists

Rethinking the Labor Process Mark Wardell, Thomas L. Steiger, Peter Meiksins, 1999-09-09 This diverse collection rethinks and reinvigorates the field of labor process

Regulating the Social George Steinmetz, 1993-08-09 Why does the welfare state develop so unevenly across countries regions and localities What accounts for the exclusions and disciplinary features of social programs How are elite and popular conceptions of social reality related to welfare policies

George Steinmetz approaches these and other issues by exploring the complex origins and development of local and national social policies in nineteenth century Germany Generally regarded as the birthplace of the modern welfare state Germany experimented with a wide variety of social programs before 1914 including the national social insurance legislation of the 1880s the Elberfeld system of poor relief protocorporatist policies and modern forms of social work Imperial Germany offers a particularly useful context in which to compare different programs at various levels of government Looking at changes in welfare policy over the course of the nineteenth century differences between state and municipal interventions and intercity variations in policy Steinmetz develops an account that focuses on the specific constraints on local and national policymakers and the different ways of imagining the social question Whereas certain aspects of the pre 1914 welfare state reinforced social divisions and even foreshadowed aspects of the Nazi regime other dimensions actually helped to relieve sickness poverty and unemployment Steinmetz explores the conditions that led to both the positive and the objectionable features of social policy The explanation draws on statist Marxist and social democratic perspectives and on theories of gender and culture

Class, Networks, and Identity Rhonda F. Levine, 2001-06-13 This book documents a little known aspect of the Jewish experience in America It is a fascinating account of how a group of Jewish refugees from Nazi Germany came to dominate cattle dealing in south central New York and maintain a Jewish identity even while residing in small towns and villages that are overwhelmingly Christian The book pays particular attention to the unique role played by women in managing the transition to the United States in helping their husbands accumulate capital and in recreating a German Jewish community Yet Levine goes further than her analysis of German Jewish refugees She also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research According to Levine situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure class ethnicity and gender interact to account for immigrant adaptation and mobility

Social Class and Stratification Rhonda Levine, 2006-04-27 Bringing together the classic statements on social stratification this collection offers the most significant contributions to ongoing debates on the nature of race class and gender inequality

Democracy Against Capitalism Ellen Meiksins Wood, 2016-03-01 Historian and political thinker Ellen Meiksins Wood argues that theories of postmodern fragmentation difference and contingency can barely accommodate the idea of capitalism let alone subject it to critique In this book she sets out to renew the critical program of historical materialism by redefining its basic concepts and its theory of history in original and imaginative ways using them to identify the specificity of capitalism as a system of social relations and political power She goes on to explore the concept of democracy in both the ancient and modern world examining its relation to capitalism and raising questions about how democracy might go beyond the limits imposed on it

Class Analysis and Contemporary Australia Janeen Baxter, 1991 Collection of essays which describe and examine the consequences of the

Australian class structure The findings and observations of the authors are based on their 1986 national survey of the Australian workforce

Bibliographie Internationale de Sociologie 1987 British Library of Political and Economic Science, 1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences

Transnational Labour History Marcel van der Linden, 2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case Whilst studies focused on individual countries are essential it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted Professor Marcel van der Linden has contributed much to the debate on cross border processes and comparisons This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history Previously published in a range of journals and volumes with two original contributions *Transnational Labour History* brings them together in a single convenient collection together with a new introduction This work will undoubtedly provide an invaluable resource for all students of European labour history

Capitalist Russia and the West Jeffrey Surovell, 2018-01-18 This title was first published in 2000 highly innovative work which challenges mainstream approaches to the study of Russian policy with its groundbreaking application of Marxism and dependency theories Using class analysis it examines in a meticulously documented study what is perhaps the most important issue in world politics today Russia and the West Unconventional yet powerful it nevertheless comes up with highly persuasive conclusions Whether one agrees with its challenging conclusions or not they cannot be ignored

Coca, Cocaine, and the Bolivian Reality Madeline Barbara L?ons, Harry Sanabria, 1997-10-16 Edited volume of contributions from Bolivian American and British political scientists development sociologists anthropologists and historians examines impacts of the coca cocaine economy on Bolivian society and politics and on the US in recent years Together these works constitute the most complete updated collection of analyses about this controversial public policy issue affecting US Bolivian relations *Handbook of Latin American Studies* v 57

American Exceptionalism, American Anxiety Jonathan A. Glickstein, 2002 What then was the supposed role of poverty the fear of poverty and other negative work incentives in the era of early industrial capitalism and escalating sectional conflict over slavery *American Exceptionalism American Anxiety* examines a wide spectrum of antebellum American thought on these and related issues including slavery and cheap immigrant and female sweated labor

BOOK JACKET *Race, Class, and Urban Change* Jerry Lembcke, 1989
