## **Recasting The Past:**

Recasting the Past Derek R. Peterson, Giacomo Macola, 2009-09-15 The study of intellectual history in Africa is in its infancy We know very little about what Africa's thinkers made of their times *Recasting the Past* brings one field of intellectual endeavor into view The book takes its place alongside a small but growing literature that highlights how in autobiographies historical writing fiction and other literary genres African writers intervened creatively in their political world The past has already been worked over by the African interpreters that the present volume brings into view African brokers pastors journalists kingmakers religious dissidents politicians entrepreneurs all have been doing research conducting interviews reading archives and presenting their results to critical audiences Their scholarly work makes it impossible to think of African history as an inert entity awaiting the attention of professional historians Professionals take their place in a broader field of interpretation where Africans are already reifying editing and representing the past The essays collected in *Recasting the Past* study the warp and weft of Africa's homespun historical work Contributors trace the strands of discourse from which historical entrepreneurs drew highlighting the sources of inspiration and reference that enlivened their work By illuminating the conventions of the past Africa's history writers set their contemporary constituents on a path toward a particular future History writing was a means by which entrepreneurs conjured up constituencies claimed legitimate authority and mobilized people around a cause By illuminating the spheres of debate in which Africa's own scholars participated *Recasting the Past* repositions the practice of modern history

West German Industry and the Challenge of the Nazi Past, 1945-1955 S. Jonathan

Wiesen,2003-01-14 In the aftermath of World War II and the Holocaust West German industrialists faced a major crisis in their public image With mounting revelations about the use of forced and slave labor the Aryanization of Jewish property and

corporate profiteering under National Socialism industrialists emerged from the war with their national and international reputations in tatters In this groundbreaking study Jonathan Wiesen explores how West German business leaders remade and marketed their public image between 1945 and 1955 He challenges assumptions that West Germans and industrialists in particular were silent about the recent past during the years of denazification and reconstruction Drawing on sources that include private correspondence popular literature and a wealth of unpublished materials from corporate archives Wiesen reveals how German business leaders attempted to absolve themselves of responsibility for Nazi crimes while recasting themselves as socially and culturally engaged public figures Through case studies of individual firms such as Siemens and Krupp Wiesen depicts corporate publicity as a telling example of postwar selective memory In his introduction and conclusion Wiesen considers the recent establishment of a multibillion dollar fund to provide financial compensation to the victims of industrial exploitation during World War II This acknowledgment by German industry of its ongoing responsibility for its past crimes underscores the contemporary relevance of Wiesen's study

**Recasting Iranian Modernity** Kamran Matin, 2013-11-07 Critically deploying the idea of uneven and combined development this book provides a novel non Eurocentric account of Iran's experience of modernity and revolution

Recasting Iranian Modernity presents the argument that Eurocentrism can be decisively overcome through a social theory that has international relations at its ontological core. This will enable a conception of history in which there is an intrinsic international dimension to social change that prevents historical repetition. This hitherto under-theorized international dimension is the book argues manifest in combined patterns of development which incorporate both foreign and native forms. It is the tension-prone and unstable nature of these hybrid developmental patterns that mark Iranian modernity and fuelled the socio-political dynamics of the 1979 revolution and the rise of political Islam. Challenging solely comparative approaches to the Iranian Revolution that explain it away as either a deviation from or a reaction to modernity on the grounds of its religious form, this book will be valuable to those interested in an alternative theoretical approach to the Iranian Revolution, modern Iran and political Islam, working in the fields of International Relations, Middle East and Islamic Studies, History, Political Science, Political Sociology, Postcolonialism and Comparative Politics.

**The Cambridge Handbook of the Imagination** Anna Abraham, 2020-06-18. The human imagination manifests in countless different forms. We imagine the possible and the impossible. How do we do this so effortlessly? Why did the capacity for imagination evolve and manifest with undeniably manifold complexity uniquely in human beings? This handbook reflects on such questions by collecting perspectives on imagination from leading experts. It showcases a rich and detailed analysis on how the imagination is understood across several disciplines of study including anthropology, archaeology, medicine, neuroscience, psychology, philosophy and the arts. An integrated theoretical, empirical, applied picture of the field is presented which stands to inform researchers, students and practitioners about the issues of relevance across the board when considering the imagination. With each chapter, the nature of human imagination is examined: what it entails, how it evolved and why it singularly defines us as a species.
