Thierry Balzacq,2010-09-13 This volume aims to provide a new framework for the analysis of securitization processes increasing our understanding of how security issues emerge evolve and dissolve Securitisation theory has become one of the key components of security studies and IR courses in recent years and this book represents the first attempt to provide an integrated and rigorous overview of securitization practices within a coherent framework To do so it organizes securitization around three core assumptions which make the theory applicable to empirical studies the centrality of audience the co dependency of agency and context and the structuring force of the dispositif These assumptions are then investigated through discourse analysis process tracing ethnographic research and content analysis and discussed in relation to extensive case studies This innovative new book will be of much interest to students of securitisation and critical security studies as well as IR theory and sociology Thierry Balzacq is holder of the Tocqueville Chair on Security Policies and Professor at the University of Namur He is Research Director at the University of Louvain and Associate Researcher at the Centre for European Studies at Sciences Po Paris      *Government of the Shadows* Eric Wilson,Tim Lindsey,2009-03-15 Government of

the Shadows analyses the concept of clandestine government It explores how covert political activity and transnational organised crime are linked and how they ultimately work to the advantage of state and corporate power The book shows that legitimate government is now routinely accompanied by extra governmental covert operations Using a variety of case studies from the mafia in Italy to programmes for food and reconstruction in Iraq the contributors illustrate that para political structures are not deviant but central to the operation of global governments The creation of this truly parallel world economy the source of huge political and economic potential entices states to undertake new forms of regulation either through their own intelligence agencies or through the more shadowy world of criminal cartels      **Introduction to Public**
