Recent Events And Present Policies In China:

Recent Events and Present Policies in China John Otway Percy Bland,1912 **Recent Events and Present Policies in China** J. O. Bland,2004-10-01 Since its first publication in 1912 this has become established as one of the most authoritative and exhaustive accounts of the Republican period of Chinese history Bland was already a celebrated Sinologue and well known as the author with J E Backhouse of *China under the Empress Dowager* when he embarked upon this general survey of contemporary events The work is sweeping in scope and covers among others the causes and symptoms of unrest the passing of the Manchus constitutional government the making of the republic British and American policy Russo Japanese entente and the opium question **The Emergency in China** Francis Lister Hawks Pott,1913 *China and the Occident* George Nye Steiger,1927 **Modern China's Foreign Policy** Werner Levi,1953-01-01 Modern China's Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China's objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China's foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes China's attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China's external policies Thus it is shown that the determinants of China's foreign policy have often been pressures and complexities within the country and that an understanding of the Chinese people and their traditions is essential to nations in their dealings with China China Stands Up David Scott,2007-05-21 In 1949 Mao Zedong made the historic proclamation that the Chinese people have stood up This statement was significant undoubtedly reflecting the changing nature not only of China's self perception but also of its relationship with the rest of the world In terms of reducing the imperialist presence of the West and Japan within China and reasserting China's territorial integrity and legal sovereignty to the outside world Mao and China can indeed be seen to have successfully stood up However the development of China's position in the hitherto Western dominated international system has been more ambiguous In *China Stands Up* David Scott examines the PRC's presence in the international system from 1949 to the present and also looks

forward to the future asking How do we define the rise of China How does China see its role in the world What shapes China's role How do international actors view China's role in the international community Has China risen in any real sense Engaging with a rich tapestry of sources and imagery ranging from governmental media academic and popular settings and bridging the divide between history and international relations this book will appeal to students and scholars of both these fields as well as those interested in Chinese politics and foreign policy
