Recent Philosophers:

What Philosophers Know Gary Gutting, 2009-04-02 Philosophy has never delivered on its promise to settle the great moral and religious questions of human existence and even most philosophers conclude that it does not offer an established body of disciplinary knowledge Gary Gutting challenges this view by examining detailed case studies of recent achievements by analytic philosophers such as Quine Kripke Gettier Lewis Chalmers Plantinga Kuhn Rawls and Rorty He shows that these philosophers have indeed produced a substantial body of disciplinary knowledge but he challenges many common views about what philosophers have achieved Topics discussed include the role of argument in philosophy naturalist and experimentalist challenges to the status of philosophical intuitions the importance of pre philosophical convictions Rawls method of reflective equilibrium and Rorty's challenge to the idea of objective philosophical truth The book offers a lucid survey of recent analytic work and presents a new understanding of philosophy as an important source of knowledge

Witcraft Jonathan Rée, 2019-08-20 An ambitious new history of philosophy in English that broadens the canon to include many lesser known figures Ludwig Wittgenstein once wrote that philosophy should be written like poetry But philosophy has often been presented more prosaically as a long trudge through canonical authors and great works But what Jonathan Rée asks if we instead saw the history of philosophy as a haphazard series of unmapped forest paths a mass of individual stories showing endurance inventiveness bewilderment anxiety impatience and good humor Here Jonathan Rée brilliantly retells this history covering such figures as Descartes Locke Kant Hegel Marx Nietzsche Mill James Frege Wittgenstein and Sartre But he also includes authors not usually associated with philosophy such as William Hazlitt George Eliot Darwin and W H Auden Above all he uncovers dozens of unremembered figures puritans revolutionaries pantheists feminists nihilists socialists and scientists who were passionate and active readers of philosophy and often authors themselves Breaking away from high altitude narratives he shows how philosophy finds its way into ordinary lives enriching and transforming them in unexpected ways

Epistemic Injustice Miranda Fricker, 2007-07-05 In this exploration of new territory between ethics and epistemology Miranda Fricker argues that there is a distinctively epistemic type of injustice in which someone is wronged specifically in their capacity as a knower Justice is one of the oldest and most central themes in philosophy but in order to reveal the ethical dimension of our epistemic practices the focus must shift to injustice Fricker adjusts the philosophical lens so that we see through to the negative space that is epistemic injustice The book explores two different types of epistemic injustice each driven by a form of prejudice and from this exploration comes a positive account of two corrective ethical intellectual virtues The characterization of these phenomena casts light on many issues such as social power prejudice virtue and the genealogy of knowledge and it proposes a virtue epistemological account of testimony In this ground breaking book the entanglements of reason and social power are traced in a new way to reveal the different forms of epistemic injustice and their place in the broad pattern of social injustice

Recent British Philosophy David Masson, 1877

The New French

Philosophy Ian James, 2012-05-14 This book gives a critical assessment of key developments in contemporary French philosophy highlighting the diverse ways in which recent French thought has moved beyond the philosophical positions and arguments which have been widely associated with the terms post structuralism and postmodernism These developments are assessed through a close comparative reading of the work of seven contemporary thinkers Jean Luc Marion Jean Luc Nancy Bernard Stiegler Catherine Malabou Jacques Rancière Alain Badiou and François Laruelle The book situates the writing of each philosopher in relation to earlier traditions of French thought In differing ways these philosophers decisively distance themselves from the linguistic paradigm which dominated so much twentieth century thought in order to rethink philosophical conceptions of materiality worldliness shared embodied existence and human agency or subjectivity They thereby open the way for a radical renewal of the claims possibilities and transformative power of philosophical thinking itself This book will be an indispensable text for students of philosophy and for anyone interested in current developments in philosophy and social thought An Anthology of Recent Philosophy Daniel Sommer Robinson, 1929 **Recent**

Perspectives in American Philosophy Y.H. Krikorian, 2012-12-06 The essays in this book analyze significant perspectives of the recent past in American philosophy they represent some of the major trends of this period Alfred North Whitehead is included with the recent American philosophers since his major philosophic ideas were fully developed in this country There has been no attempt to deal comprehensively with this period Several philosophers of equal importance who also deserve attention C I Lewis A O Lovejoy W F Montague R B Perry F J E Woodbridge and others have not been discussed Most of the essays were published at various times in various journals Though all of the perspectives are presented with sympathetic understanding they are also critically evaluated 2 AMERICAN PHILOSOPHY OF THE RECENT PAST But even more than individual philosophers and schools of philosophy the larger background of contemporary American life has nourished the empirical spirit Science as the most pervasive climate of our intellectual and practical activity has enhanced the empirical attitude The great development in this country of business and technological industry has encouraged the pragmatic empirical outlook Empiricism however is an ambiguous term and its different meanings have different philosophic consequences For some it means that only concrete personal experience can be accepted as reality for others it means the succession of sense impressions The more recent usage the one that has been dominant in American philosophy identifies empiricism with objectively and socially verifiable pronouncements that is with experimentalism or confirmation through demonstrable evidence The Book of Dead Philosophers Simon Critchley, 2008 Diogenes died by holding his breath Plato allegedly died of a lice infestation Diderot choked to death on an apricot Nietzsche made a long soft brained and dribbling descent into oblivion after kissing a horse in Turin From the self mocking haikus of Zen masters on their deathbeds to the last words gasps of modern day sages The Book of Dead Philosophers chronicles the deaths of almost 200 philosophers tales of weirdness madness suicide murder pathos and bad luck In this elegant and amusing book Simon Critchley argues that the

question of what constitutes a good death has been the central preoccupation of philosophy since ancient times As he brilliantly demonstrates looking at what the great thinkers have said about death inspires a life affirming enquiry into the meaning and possibility of human happiness In learning how to die we learn how to live

Recent British Philosophy: a Review, with Criticisms David Masson,1877

Philosophy and Philosophers John Shand,2014-12-18 This revised and updated edition of a standard work provides a clear and authoritative survey of the Western tradition in metaphysics and epistemology from the Presocratics to the present day Aimed at the beginning student it presents the ideas of the major philosophers and their schools of thought in a readable and engaging way highlighting the central points in each contributor's doctrines and offering a lucid discussion of the next level details that both fills out the general themes and encourages the reader to pursue the arguments still further through a detailed guide to further reading Whether John Shand is discussing the slow separation of philosophy and theology in Augustine Aquinas and Ockham the rise of rationalism British empiricism German idealism or the new approaches opened up by Russell Sartre and Wittgenstein he combines succinct but insightful exposition with crisp critical comment This new edition will continue to provide students with a valuable work of initial reference

Contemporary Issues in the Philosophy of Mind Anthony O'Hear,1998-11-13 This book presents key issues in the philosophy of mind examined by leading figures in the field

Biographical Dictionary of Twentieth-Century Philosophers Stuart Brown,Diane Collinson,Robert Wilkinson,2012-09-10 This Biographical Dictionary provides detailed accounts of the lives works influence and reception of thinkers from all the major philosophical schools and traditions of the twentieth century This unique volume covers the lives and careers of thinkers from all areas of philosophy from analytic philosophy to Zen and from formal logic to aesthetics All the major figures of philosophy such as Nietzsche Wittgenstein and Russell are examined and analysed The scope of the work is not merely restricted to the major figures in western philosophy but also covers in depth a significant number of thinkers from the near and far east and from the non European Hispanic language communities The Biographical Dictionary also includes a number of general entries dealing with important schools of philosophy such as the Vienna Circle or currents of thought such as vitalism These allow the reader to set the individual biographies in the context of the philosophical history of the period With entries written by over 100 leading philosophy scholars the Biographical Dictionary is the most comprehensive survey of twentieth century thinkers to date Structure The book is structured alphabetically by philosopher Each entry is identically structured for ease of access and covers nationality dates and places of birth and death philosophical style or school areas of interest higher education significant influences main appointments main publications secondary literature account of intellectual development and main ideas critical reception and impact At the end of the book a glossary gives accounts of the schools movements and traditions to which these philosophers belonged and thorough indexes enable the reader to access the information in several ways by nationality by major areas of contribution to philosophy e g aesthetics by major influences on the thinker concerned e g Plato Kant

Wittgenstein *Ernst Cassirer* Edward Skidelsky, 2011-10-24 This is the first English language intellectual biography of the German Jewish philosopher Ernst Cassirer 1874 1945 a leading figure on the Weimar intellectual scene and one of the last and finest representatives of the liberal idealist tradition Edward Skidelsky traces the development of Cassirer's thought in its historical and intellectual setting He presents Cassirer the author of *The Philosophy of Symbolic Forms* as a defender of the liberal ideal of culture in an increasingly fragmented world and as someone who grappled with the opposing forces of scientific positivism and romantic vitalism Cassirer's work can be seen Skidelsky argues as offering a potential resolution to the ongoing conflict between the two cultures of science and the humanities and between the analytic and continental traditions in philosophy The first comprehensive study of Cassirer in English in two decades this book will be of great interest to analytic and continental philosophers intellectual historians political and cultural theorists and historians of twentieth century Germany *Classical Modern Philosophers* Richard Schacht, 2013-04-03 Descartes Leibniz Spinoza Locke Berkeley Hume and Kant these are the seven philosophers who stand out from the rest in what is known as the modern period in philosophy Their thought defines the mainstream of classical or early modern philosophy largely responsible for shaping philosophy as we now know it In a clear and lively style Richard Schacht has written a thorough introduction to the work of these seven founding fathers of modern philosophy The bibliography has been updated for this revised edition to take account of the recent explosion of writings on modern philosophy **Recent Philosophers** John Arthur Passmore, 1985

Death and Mortality in Contemporary Philosophy Bernard N. Schumacher, 2010-09-30 This book contributes to current bioethical debates by providing a critical analysis of the philosophy of human death Bernard N Schumacher discusses contemporary philosophical perspectives on death creating a dialogue between phenomenology existentialism and analytic philosophy He also examines the ancient philosophies that have shaped our current ideas about death His analysis focuses on three fundamental problems 1 the definition of human death 2 the knowledge of mortality and of human death as such and 3 the question of whether death is nothing to us or on the contrary whether it can be regarded as an absolute or relative evil Drawing on scholarship published in four languages and from three distinct currents of thought this volume represents a comprehensive and systematic study of the philosophy of death one that provides a provocative basis for discussions of the bioethics of human mortality **Paul and the Philosophers** Ward Blanton, Hent de Vries, 2013 The apostle Paul has reemerged as a force on the contemporary philosophical scene Some of the most powerful recent affirmations of nonrepresentational materialist and event oriented philosophies repeat topics and tropes of the ancient apostle Other thinkers find in Paul and his numerous cultural afterlives the ideal figure to contest both identity politics and the postmodern political fetish of endless openness and the deferral of presence Paul is appropriated both for and against Kantian cosmopolitanism psychoanalytic models of subjectivity and power Schmittian political theologies Derridean messianism political universalism and an ongoing refashioning of identity politics within postsecular contexts This book provides the most

comprehensive constellation to date of current thinking about Paul and his cultural or philosophical afterlives in ancient modern and contemporary contexts It is a groundbreaking international and multidisciplinary exploration of the vexed political history of Paulinisms in philosophy and of philosophies in Paulinism From his very first utterances Paul's pronouncements as the self-proclaimed apostle of Jesus were curiously intertwined with philosophical discourse with Paul presenting himself as both philosopher and anti-philosopher Early Christian receptions of Paul then carefully managed his legacy in relation to the philosophical schools presenting him alternately as an exemplary Platonist a purveyor of Stoic spiritual exercises and someone whose authority outstrips philosophy altogether In the modern period various types of Paulinism were imagined serially as possible escapes of philosophical thought from the domination of inherited metaphysics or ontotheology The contributors to this volume bring unprecedented multidisciplinary expertise to both the historical reception and the contemporary relevance of a thinker who may come to be seen as the defining figure of our political and intellectual moment

Hume-Arg Philosophers Barry Stroud, 2003-05-20 The purpose of this series is to provide a contemporary assessment and history of the entire course of philosophical thought Each book constitutes a detailed critical introduction to the work of a philosopher of major influence and significance This volume seeks to provide a comprehensive interpretation of Hume's philosophy and to expound and discuss his central problems against the background of that general interpretation

Hegel's Political Philosophy Thom Brooks, Sebastian Stein, 2017-05-05 Hegel famously argues that his speculative method is a foundation for claims about socio-political reality within a wider philosophical system This systematic approach is thought a superior alternative to all other ways of philosophical thinking Hegel's method and system have normative significance for understanding everything from ethics to the state Hegel's approach has attracted much debate among scholars about key philosophical questions and controversy about his proposed answers to them Is his method and system open to the charge of dogmatism Are his claims about the rationality of monarchy unequal gender relations an unelected second parliamentary chamber and a corporation based economy beyond revision This ground-breaking collection of new essays by leading interpreters of Hegel's philosophy is dedicated to the questions that surround Hegel's philosophical method and its relationship to the conclusions of his political philosophy It contributes to the on-going debate about the importance of a systematic context for political philosophy the relationship between theoretical and practical philosophy and engages with contemporary discussions about the shape of a rational social order

An Encyclopedia of Philosophy G.H.R. Parkinson, 2012-10-12 Presents a broad survey of philosophical thought Each chapter explores and places in context a major area of philosophical enquiry including the theory of meaning and of truth the theory of knowledge the philosophies of mathematics science and metaphysics the philosophy of mind moral and political philosophy aesthetics and religion Annotated bibliographies for each chapter and indexes of names and subjects Glossary of commonly used philosophical terms Chronological table of the history of philosophy from 1600 It is a fine achievement and deserves the warmest praise Anyone

interested in learning what contemporary philosophical debate is about will find this book invaluable for a book of this size and quality of content the cover price is modest Every public library as well as every university college and school library should have a copy on its shelves Times Higher Education Supplement A stimulating collection Reference Reviews

Recent Philosophers Introduction

In today's digital age, the availability of Recent Philosophers books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Recent Philosophers books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Recent Philosophers books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Recent Philosophers versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Recent Philosophers books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Recent Philosophers books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Recent Philosophers books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Recent Philosophers books and manuals for download have transformed the way we access information. They provide a cost-effective and

convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Recent Philosophers books and manuals for download and embark on your journey of knowledge?

FAQs About Recent Philosophers Books

What is a Recent Philosophers PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Recent Philosophers PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Recent Philosophers PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Recent Philosophers PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Recent Philosophers PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not

be legal depending on the circumstances and local laws.
