A Pictorial History of American Mining Howard N. Sloane, 1970 *A Pictorial History of American Mining* Howard N. Sloane, Lucille L. Sloane, 1970 *The Early Republic and Antebellum America: An Encyclopedia of Social, Political, Cultural, and Economic History* Christopher G. Bates, 2015-04-08 First Published in 2015 This text holds four volumes of essays and entries on the early Republic and Antebellum era in America spanning the end of the American Revolution in 1781 to the outbreak of Civil War in 1861 The Americans forged a new government in theory and then in practice with the beginnings of industrialisation and the effects of urbanisation widespread poverty labour strife debates around slavery and sectional discord By the end of the nineteenth century American had a powerhouse economy new technologies and the emergence of major social reform movements creation of uniquely American art and literature and the conquest of the West This encyclopaedia offers a historic reference **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973 **Clifton and Morenci Mining District** Robert A. Chilicky, 2015 Across America from big cities to small towns and rural hamlets there are many stories of challenges historic events courageous people tragedy and success Some of the best and most exciting tales may not be well known Such is the case for the towns of Clifton and Morenci Arizona They survived labor strikes rising and falling copper prices devastating floods outlaws and lawlessness gambling houses and saloons All this added to the lore that these towns were some of the roughest communities in the West Today after 143 years of mining Freeport McMoRan's Morenci copper mine is the largest in North America Expansion has required new homes in Clifton Morenci a modern library and recreational facilities Residents are proud of their communities **King Coal** Stan Cohen, 1999-06 **Centralia** Deryl B. Johnson, 2004 Centralia is the saga of a Pennsylvania community consumed by an underground mine fire The town founded in 1866 has often been embroiled in tragedy and controversy Beginning with the infamous Molly Maguires Centralia was confronted with the murder of its founder and an assault upon its Catholic priest who cursed the town saying One day this town will be erased from the face of the earth Almost one hundred years later a vein of coal that ran underneath the town caught fire and has burned since 1962 In the 1990s the state of Pennsylvania declared eminent domain and forced most of the town's sixteen hundred residents to leave Ten people remain in Centralia today This book chronicles many of the images and stories from this fascinating and colorful Pennsylvania community *Dictionary Catalog of the Department Library* United States. Department of the Interior. Library, 1969 **Frothers, bubbles, and flotation** Dawn Bunyak, 1999 *Mining Camps of Placer County* Carmel Barry-Schweyer, Alycia S. Alvarez, 2004 Everything in Placer County history leads to gold from its name the Spanish term for gold bearing gravel to the mining camps that sprouted overnight in its rugged river canyons Ecstatic cries of Gold on the American River in 1848 launched the largest voluntary migration in the history of the world As claims panned out thousands of miners swarmed like locusts between the rough and tumble mining camps from the crest of the Sierra Nevada to the Sacramento Valley Some

camps disappeared along with the easy placer gold others found new methods to extract gold deposited deep in quartz veins or underground and developed into stable towns that still stand Sometimes washing whole hillsides into rivers hydraulic mining was outlawed in the 1880s but the colorful characters and tall tales of the Gold Rush live on **Information Circular** ,1974

The Texture of Industry Robert B. Gordon,Patrick M. Malone,1997-02-06 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage **Lead-Mining Towns of Southwest Wisconsin** Carol March McLernon,2008 East of the Mississippi River and just north of the Illinois Wisconsin border the soil was once fertile with huge deposits of lead and zinc White men discovered these riches in the early 1800s well before Wisconsin became a state in 1848 Miners farmers and merchants flocked to the region some bringing along their families Towns with names like Snake Digs Cottonwood and Etna grew very rapidly Roads bridges and railroad tunnels soon connected these towns where schools churches and businesses developed Today tourists are invited to visit museums mines and shops in the region to explore its colorful past [Working in America](#)

Catherine Reef,2014-05-14 Presents an overview of the history of American labor using excerpts from primary source documents short biographies of influential people and more **American Book Publishing Record** ,1999 *On Strike and on Film* Ellen R. Baker,2012-09-01 In 1950 Mexican American miners went on strike for fair working conditions in Hanover New Mexico When an injunction prohibited miners from picketing their wives took over the picket lines an unprecedented act that disrupted mining families but ultimately ensured the strikers victory in 1952 In *On Strike and on Film* Ellen Baker examines the building of a leftist union that linked class justice to ethnic equality She shows how women s participation in union activities paved the way for their taking over the picket lines and thereby forcing their husbands and the union to face troubling questions about gender equality Baker also explores the collaboration between mining families and blacklisted Hollywood filmmakers that resulted in the controversial 1954 film *Salt of the Earth* She shows how this worker artist alliance gave the mining families a unique chance to clarify the meanings of the strike in their own lives and allowed the filmmakers to create a progressive alternative to Hollywood productions An inspiring story of working class solidarity Mexican American dignity and women s liberation *Salt of the Earth* was itself blacklisted by powerful anticommunists yet the movie has endured as a vital contribution to American cinema **Seduced by Radium** Maria

Rentetzi,2022-09-13 The discovery of radium by Marie and Pierre Curie in 1898 eventually led to a craze for radium products in the 1920s until their widespread use proved lethal for consumers patients and medical practitioners alike Radium infiltrated American culture Maria Rentetzi reveals not only because of its potential to treat cancer but because it was transformed from a scientific object into a familiar desirable commodity She explores how Standard Chemical Company in Canonsburg Pennsylvania the first successful commercial producer of radium in the United States aggressively promoted the benefits of radium therapy and its curative properties as part of a lucrative business strategy Over the counter products from fertilizers to paints and cosmetics to tonics and suppositories inspired the same level of trust in consumers as a revolutionary pharmaceutical The radium industry in the United States marketed commodities like Liquid Sunshine and Elixir of Youth at a time when using this new chemical element in the laboratory in the hospital in private clinics and in commercial settings remained largely free of regulation Rentetzi shows us how marketing campaigns targeted individually to men and women affected not only how they consumed these products of science but also how that science was understood and how it contributed to the formation of ideas about gender Seduced by Radium ultimately reveals how innovative advertising techniques and seductive state of the art packaging made radium a routine part of American life shaping scientific knowledge about it and the identities of those who consumed it Minersville Ronald M. Coleman,Joseph E. Szeliga,2006 Minersville aptly named for those who toiled in the coal fields of east central Pennsylvania embodies the very essence of the coal region This town and surrounding areas however are much more than abandoned breakers and row after row of coal company houses Although coal is no longer king the people of Minersville still take pride in their heritage The gridiron battles of the Pottsville Maroons the much disputed 1925 NFL champions and the failed political campaign of Lewis Cass against Zachary Taylor and Millard Fillmore proved that more than coal could come from this region Minersville provides a glimpse of the early days of coal as well as the people of the area and their accomplishments of spirit **Pictorial History of the World** Year,1962 **Encyclopedia of Western Gunfighters** Bill O'Neal,1979 Sifting factual information from among the lies legends and tall tales the lives and battles of gunfighters on both sides of the law are presented in a who s who of the violent West
