Force Aces 1937-45 Henry Sakaida, 2012-10-20 Little has been published in English on the Japanese Army Air Force JAAF let alone its most successful fighter pilots no less than 150 of them achieved ace status during eight years of near constant war They are all listed in this volume From the arid plains of the Mongolian border region to the lush jungles of New Guinea the JAAF was more than a match for the many opponents it fought against for control of the skies Indeed even when the mighty Allied war machine proved almost overwhelming from early 1944 onwards the elite fighter pilots of the various sentais within the JAAF fought on with near fanatical loyalty in defence of the Home Islands *The Rise and Fall of the Japanese Imperial Naval Air Service* Peter J. Edwards, 2010-11-20 This book describes in considerable detail the people events ships and aircraft that shaped the Air Service from its origins in the late 19th century to its demise in 1945 The formative years began when a British Naval Mission was established in Japan in 1867 to advise on the development of balloons for naval purposes After the first successful flights of fixed wing aircraft in the USA and Europe the Japanese navy sent several officers to train in Europe as pilots and imported a steady stream of new models to evaluate During World War One Japan became allied with the UK and played a significant part in keeping the German fleets of ships and submarines at bay in the Pacific and Indian Oceans However in the international naval treaties that followed they felt betrayed since the number of capital ships battleships and cruisers that they were allowed was below those of the USA and the UK Aircraft carriers were not included so a program of carrier building was started and continued until World War Two At the same time they developed an aircraft industry and at the beginning of war their airplanes were comparable and in some instances superior to those of the British and Americans Much prewar experience was gained during Japans invasion of China but their continued anger with America festered and resulted in their becoming allied with Germany Italy and the Vichy France during World War Two There followed massive successful attacks on Pearl Harbor the Philippines the Southern Islands Port Darwin and New Guinea The British were decimated and the USA recoiled at the onslaught taking over a year to regroup and take the war to the Imperial Japanese forces Throughout the conflict many sea battles were fought and the name Zero became legendary When Japan eventually capitulated after the Atomic bombs were dropped the Japanese Imperial Air Service was disbanded **The Dutch Naval Air Force Against Japan** Tom Womack, 2023-09-28 Following the Japanese attack on Pearl Harbor the Dutch Naval Air Force or Marine Luchtvaart Dienst MLD played a significant but largely overlooked role in the opening months of the Pacific War With 175 aircraft the MLD greatly outnumbered the combined forces of its American and British allies In three months of intense combat the MLD lost 50 percent of its personnel and 80 percent of its aircraft as the Netherlands colonial empire was stripped away This book details MLD operations during the Japanese invasion of Dutch East Indies giving a comprehensive overview of organization personnel aircraft equipment and tactics For the first time in English the failed evacuation of Java is examined *Mitsubishi/Nakajima G3M1/2/3 96 Rikko L3Y1/2 in Japanese Naval Air Service* Richard M. Bueschel, 1997 Richard Bueschel revises and updates his classic series of books on Japanese Naval and Army Air

Force aircraft of World War II The Japanese navy Mitsubishi Nakajima G3M1 2 3 96 RIKKO Nell is presented in this volume All variations and markings are covered in this sixth book in a multi volume series Sunburst Mark Peattie,2013-09-02 This acclaimed sequel to the Peattie Evans prizewinning work *Kaigun* illuminates the rise of Japanese naval aviation from its genesis in 1909 to its thunderbolt capability on the eve of the Pacific war In the process of explaining the navy s essential strengths and weaknesses the book provides the most detailed account available in English of Japan s naval air campaign over China from 1937 to 1941 A final chapter analyzes the utter destruction of Japanese naval air power by 1944

Nakajima Ki-49 Donryu in Japanese Army Air Force Service Richard M. Bueschel,1997 The JAAF Nakajima Ki 49 DONRYU Helen is presented in this volume All variations markings and units are covered in this the seventh in a multi volume series *International Warbirds* John C. Fredriksen,2001-08-01 In depth descriptions and photographs of the aircraft of 21 nations presented with a unique human dimension that goes behind the machines to the people involved Invaluable for specialists accessible to enthusiasts *International Warbirds An Illustrated Guide to World Military Aircraft 1914 2000* puts the most legendary fighter aircraft of the 20th century developed outside the United States on vivid display It offers 336 illustrated biographies of the most significant warplanes used in squadron service from World War I to the Balkan conflict including numerous models from Great Britain France Russia and Japan as well as notable machines from Israel Canada China India Brazil and other nations Entries span the history and scope of military aircraft from bombers and fighters to transports trainers reconnaissance craft sea planes and helicopters with each capsule history combining nuts and bolts technical data with the story of that model s evolution and use Together these portraits offer an exciting well researched tribute to visionary designers and builders as well as courageous pilots and crews across the globe and tell a vivid tale of how air power became such a decisive factor in modern warfare **Kaigun** David C. Evans,David Peattie,2012-09-15 One of the great spectacles of modern naval history is the Imperial Japanese Navy s instrumental role in Japan s rise from an isolationist feudal kingdom to a potent military empire stridently confronting in 1941 the world s most powerful nation Years of painstaking research and analysis of previously untapped Japanese language resources have produced this remarkable study of the Navy s dizzying development tactical triumphs and humiliating defeat Unrivaled in its breadth of coverage and attention to detail this important new history explores the foreign and indigenous influences on the Navy s thinking about naval warfare and how to plan for it Focusing primarily on the much neglected period between the world wars two widely esteemed historians persuasively explain how the Japanese failed to prepare properly for the war in the Pacific despite an arguable advantage in capability Maintaining the highest literary standards and supplemented by a dazzling array of charts diagrams drawings and photographs this landmark work provides much important information not available in any other English language source Consciously avoiding the Eurocentric bias of conventional military scholarship David Evans and Mark Peattie make a unique contribution to naval historiography that will be prized by serious historians and casual readers

alike and that promises to spark debate within the academic community Iris Chang,2012-01 Relates an account of the 1937 massacre of 250 000 Chinese civilians in Nanking by the invading Japanese military a carnage for which the Japanese government has never admitted responsibility **Air Pictorial** ,2002 **Tokubetsu Kogeki Tai Special Attack Units JMA #8** Eduardo Cea,2012-06-01 Complete with comprehensive statistics and amazing colour artwork In this beautifully illustrated book Eduardo Cea goes into fascinating detail of each of the Special Units and Special Attack Units in turn Complete with superb full colour artwork battle orders lists of pilots and other essential facts and figures this comprehensive history of Japanese Military Aircraft will interest modellers enthusiasts and historians alike **History of Technology Volume 11** Norman Smith,2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred **December 8, 1941** William H. Bartsch,2012-08-13 Ten hours after the attack on Pearl Harbor another Pearl Harbor of even more devastating consequence for American arms occurred in the Philippines 4 500 miles to the west On December 8 1941 at 12 35 p m 196 Japanese Navy bombers and fighters crippled the largest force of B 17 four engine bombers outside the United States and also decimated their protective P 40 interceptors The sudden blow allowed the Japanese to rule the skies over the Philippines removing the only effective barrier that stood between them and their conquest of Southeast Asia This event has been called one of the blackest days in American military history How could the army commander in the Philippines the renowned Lt Gen Douglas MacArthur have been caught with all his planes on the ground when he had been alerted in the small hours of that morning of the Pearl Harbor attack and warned of the likelihood of a Japanese strike on his forces In this book author William H Bartsch attempts to answer this and other related questions Bartsch draws upon twenty five years of research into American and Japanese records and interviews with many of the participants themselves particularly survivors of the actual attack on Clark and Iba air bases The dramatic and detailed coverage of the attack is preceded by an account of the hurried American build up of air power in the Philippines after July 1941 and of Japanese planning and preparations for this opening assault of its Southern Operations Bartsch juxtaposes the experiences of staff of the U S War Department in Washington and its Far East Air Force bomber fighter and radar personnel in the Philippines who were affected by its decisions with those of Japan s Imperial General Headquarters in Tokyo and the 11th Air Fleet staff and pilots on Formosa who were assigned the responsibility for carrying out the attack on the Philippines five hundred miles to the south In order to put the December 8th attack in broader context Bartsch details micro level personal experiences and presents the political and strategic aspects of American and Japanese planning for a war in the

Pacific Despite the significance of this subject matter it has never before been given full book length treatment This book represents the culmination of decades long efforts of the author to fill this historical gap *The Origins of Japanese Trade Supremacy* Christopher Howe,1999-12-15 For many in the West the emergence of Japan as an economic superpower has been as surprising as it has been sudden After its defeat in World War II Japan hardly appeared a candidate to lead industrialized nations in productivity and technological innovation and the Japanese miracle is often explained as the result of U S aid and protection in the postwar years In *The Origins of Japanese Trade Supremacy* Christopher Howe locates the sources of Japan s current commercial and financial strength in events that occurred well before 1945 In this revisionist account Howe traces the history of Japanese trade over four centuries to show that the Japanese mastery of trade with the outside world began as long ago as the sixteenth century with Japan s first contact with European trading partners Although profitable this early contact was so destabilizing that the Japanese leadership soon restricted foreign trade mainly to Asian partners From the early seventeenth to the middle of the nineteenth centuries Japan developed in relative isolation Though secluded from the scientific and economic revolutions in the West Japan proved adept at finding novel solutions to its own problems and its economy grew in size diversity and technological and institutional sophistication By the nineteenth century when contacts with the West were reestablished Japan had developed a remarkable capacity to absorb foreign technologies and to adapt and create new institutions while retaining significant elements of its traditional system of values Most importantly Japan s long standing reliance on its own ingenuity to solve problems continued to flourish This tradition born of necessity is the most important foundation for Japan s current position as a world economic power

History of Air Cargo and Airmail from the 18th Century Camille Allaz,2005-03 It was first published in French by the Institut du Transport Aerien in 1998 and received very favourable reviews Through the publication of the English language edition this remarkable work is now accessible to many more readers around the world In addition the author has expanded the book with new sections and he has extensively updated it to bring the story of air cargo into the twenty first century concluding with a look into the future The author Camille Allaz served as Senior Vice President Cargo at Air France for 10 years which gave him an insider s close up view of his subject a privilege not enjoyed by many historians There is no aspect of mail or cargo transport by air that has not been thoroughly researched and documented by Allaz from the first brief transport of animals by balloon in France in 1783 to the vast global networks of the integrated express carriers in the 21st century As a true scholar he fits his narrative into the larger framework of political military economic and aviation history This book should stand for years as the definitive work on the history of air cargo and airmail and will be of immense value to the academic community to the air cargo industry the postal services and to the general public
