Picture Frame Journal Slovenske Pedagogicke nakladatelstvo, The Unchosen Ones R. J. Kern, In 2016 award winning Minnesota based photographer R J Kern made portraits of youth contestants at Minnesota county fairs Each participant some as young as four years old had spent a year raising an animal which they had then entered into a 4 H livestock competition None of the youths who sat for him had succeeded in winning an award despite the obvious care they had given to their animals The Unchosen Ones depicts the bloom of youth and the mettle of the kids who grow up on farms reminding us how resilient children can be when confronted with life s inevitable disappointments The formal qualities of the lighting and setting endow these young people with a gravitas beyond their years revealing self directed dedication in some and in others perhaps the pressures of traditions imposed upon them Kern s beautiful portraits capture a particular America a rural world and a time in life when the layered emotions of youth are laid bare Four years later in 2020 Kern returned to photograph his young subjects The most recent photographs show how the children have grown into adolescence or young adulthood some of them have continued to pursue animal husbandry while others have developed other interests It is likely that some of these kids will not choose to continue running their family farms an unpredictable and demanding way to make a living These diptychs are punctuated by lush landscapes of the farms that are their homes As Kern made the second group of photographs he asked his young subjects what they had carried forward from their previous experience What were their thoughts their dreams and their goals for the future How would they fit into the future of agricultural America **Anthony and the Magic Picture Frame** Michael S.
