Vázquez,2010-11-01 The pace and scale of the exchange of cultural goods of all sorts paintings furniture even ladies fans increased sharply in nineteenth century Spain and new institutions and practices for exhibiting as well as valorizing art were soon formed Oscar V zquez maps this cultural landscape tracing the connections between the growth of art markets and changing patterns of collecting Unlike many earlier students of collecting he focuses not upon questions of taste but rather upon the discursive and institutional frameworks that came to regulate art s economic and symbolic worth at all levels of Spanish society Drawing upon sources that range from newspaper reviews to notarial documents V zquez shows how collecting acquired the power to mediate debates over individual regional and national identity His book also looks at the emergence of a new state apparatus for arts administration and situates these social and political changes in the broader European context Inventing the Art Collection will be of interest to historians and sociologists of Spain and Europe as well as art historians and cultural theorists *Arte Del Poder* Alvaro Soler del Campo,National Gallery of Art (Estados Unidos),Sociedad Estatal para la Acción Cultural Exterior (Spain),2009 The Royal Armory in Madrid assembled at a time when the Spanish Crown was at the height of its international power is the oldest and one of the finest and largest armories in the world imbued with great historical artistic and symbolic significance Armor drawn from the unsurpassed holdings of the Spanish Royal Armory is shown in this exhibition alongside portraits of rulers dressed in the same armor painted by such masters as Peter Paul Rubens Anthony van Dyck Diego Vel zquez and Alonso S nchez Coello Several large and magnificent tapestries from the royal collection also depict the armor in use Together some 75 works illustrate the use of luxurious armor in projecting an image of royal power in Imperial Spain The

exhibition includes several full suits of armor helmets shields and equestrian armor worn in battle but more often in Renaissance parades pageants and jousting tournaments The works of art on view date from the reigns of the Holy Roman Emperors Maximilian I of Austria 1508 1519 and Emperor Charles V 1519 1558 to those of his successors King Philip II 1556 1598 King Philip III 1598 1621 and King Philip IV 1621 1665 This is the first time that the armor has been exhibited together with the portraits in which it is depicted **Madrid** Jules Stewart,2015-03-02 At the heart of the Castilian plateau far from the coastal towns and ports of Spain sits the great city of Madrid Perched some 2 200 feet above the distant sea it is at once the loftiest and also the most enigmatic of Europe s capitals hard to decipher for the Spanish and for foreigners alike Its intense character and the abrupt manner and hectic lifestyle of the Madrilenos can make even other Spaniards feel exhausted Yet Madrid has a rich historical and cultural life which attracts almost 8 million visitors per year drawn to its beautiful palaces and churches the magnificent collections of the Prado and everywhere the echoes of a faded empire Despite its ancient origins Madrid feels like a modern youthful city But the legacy of Madrid s golden age the Spanish colonies from the Andes to the Philippines from which the city derived such wealth remains evident in the extravagant Baroque facades of the old city Jules Stewart here provides an insider s account of Madrid and unveils the history and culture of one of Europe s most fascinating but least understood cities Goya Xavier Bray,Manuela B.
