Derrick Chow,2022 Twelve year old Reggie is still grieving the passing of his father when a strange man promises to reunite the two if Reggie only follows him deep into an underground subway system where horrors worse than Reggie ever imagined lurk around every corner *The Practice of Citizenship* Derrick R. Spires,2019-03-08 In the years between the American Revolution and the U S Civil War as legal and cultural understandings of citizenship became more racially restrictive black writers articulated an expansive practice based theory of citizenship Grounded in political participation mutual aid critique and revolution and the myriad daily interactions between people living in the same spaces citizenship they argued is not defined by who one is but rather by what one does In *The Practice of Citizenship* Derrick R Spires examines the parallel development of early black print culture and legal and cultural understandings of U S citizenship beginning in 1787 with the framing of the federal Constitution and the founding of the Free African Society by Absalom Jones and Richard Allen and ending in 1861 with the onset of the Civil War Between these two points he recovers understudied figures such as William J Wilson whose 1859 *Afric American Picture Gallery* appeared in seven installments in *The Anglo African Magazine* and the physician abolitionist and essayist James McCune Smith He places texts such as the proceedings of black state conventions

alongside considerations of canonical figures such as Frances Ellen Watkins Harper and Frederick Douglass Reading black print culture as a space where citizenship was both theorized and practiced Spires reveals the degree to which concepts of black citizenship emerged through a highly creative and diverse community of letters not easily reducible to representative figures or genres From petitions to Congress to Frances Harper s parlor fiction black writers framed citizenship both explicitly and implicitly the book demonstrates not simply as a response to white supremacy but as a matter of course in the shaping of their own communities and in meeting their own political social and cultural needs

The Unlikely Thru-Hiker Derick Lugo,2019 Derick Lugo had never been hiking He didn t even know if he liked being outside all that much He certainly couldn t imagine going more than a day without manicuring his goatee But with a job overseas cut short and no immediate plans this fixture of the greater New York comedy circuit began to think about what he might do with months of free time and no commitments He had heard of the Appalachian Trail and knew of its potential for danger and adventure but he had never seriously considered attempting to hike all 2 192 miles of it Then again what could go wrong for a young black man from the city trekking solo through the East Coast backwoods The Unlikely Thru Hiker is the story of how an unknowing ambassador of one of the AT s least common demographics unfamiliar with both the outdoors and thru hiking culture sets off with an extremely overweight pack and a willfully can do attitude to conquer the infamous trail What follows are eye opening lessons on preparation humility race relations and nature s wild unpredictability But this isn t a hard nosed memoir of discouragement or intolerance What sets Lugo apart from the typical walk in the woods is his refusal to let any challenge squash his inner Pollyanna Through it all he perseveres with humor tenacity and an unshakeable commitment to grooming earning him the trail name Mr Fabulous that sees him from Springer Mountain in Georgia to Katahdin in Maine

Murder Town, USA Yasser Arafat Payne, Brooklynn K. Hitchens, Darryl L. Chambers, 2023-07-14 Far too many poor Black communities struggle with gun violence and homicide The result has been the unnatural contortion of Black families and the intergenerational perpetuation of social chaos and untimely death Young people are repeatedly ripped away from life by violence while many men are locked away in prisons In neighborhoods like those of Wilmington Delaware residents routinely face the pressures of violence death and incarceration Murder Town USA is thus a timely ethnography with an innovative structure the authors helped organize fifteen residents formerly involved with the streets and or the criminal justice system to document the relationship between structural opportunity and experiences with violence in Wilmington's Eastside and Southbridge neighborhoods Earlier scholars offered rich cultural analysis of violence in low income Black communities and yet this literature has mostly conceptualized violence through frameworks of personal responsibility or individual accountability And even if acknowledging the pressure of structural inequality most earlier researchers describe violence as the ultimate result

of some moral failing a propensity for crime and the notion of helplessness Instead in *Murder Town USA* Payne Hitchens and Chamber along with their collaborative team of street ethnographers instead offer a radical re conceptualization of violence in low income Black communities by describing the penchant for violence and involvement in crime overall to be a logical resilient response to the perverse context of structural inequality
