Sheds ,1998 An illustrated step by step to building sheds **The Southern Rustic Cabin** Emily J. Followill,2015-07-14 Explore the beauty tradition and stylish renovation of rustic mountain homes across the Southern Appalachians in this gorgeously photographed book The cool wooded mountains of the South are dotted with log cabins each with its own rich history and aesthetic charm In The Southern Rustic Cabin photographer Emily Followill captures the rugged beauty and unique personality of thirteen mountain homes located across Tennessee Georgia North Carolina Alabama and Virginia The homeowners have lovingly preserved the age old qualities of their cabins while renovating revitalizing and redecorating them to support modern living and reflect their personal style Alongside her stunning photography of interiors and exteriors Followill tells the story of how each cabin and owner came together as the owners changed their cabins the cabins invariably changed the owners as well **Your Cabin in the Woods** Conrad E Meinecke,2023-12-18 2015 Reprint of 1945 Edition Full facsimile of the original edition not reproduced with Optical Recognition Software If you want to build your own fireplace or your own cabin in the woods with its wood burning fireplaces this book contains cabin plans and detailed instructions you will need Written for the novice it not only tells about cabins and fireplaces and how to build them but about back garden fireplaces designs for rustic furniture out door cooking menus gateways guard rails and fences It is filled with philosophy and wisdom on living in the out of doors Meinecke was a well known master cabin builder and do it yourself man He not only wrote the book but he printed the original edition himself on a small press in his own home and bound it in craft cloth laced together with stout cord Still considered a classic work *The Making of Home* Judith Flanders,2014-10-02 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in this revealing book home is a relatively new concept When in 1900 Dorothy assured the citizens of Oz that There is no place like home she was expressing a view that was a culmination of 300 years of economic physical and emotional change In The Making of Home Flanders traces the evolution of the house across northern Europe and America from the sixteenth to the early twentieth century and paints a striking picture of how the homes we know today differ from homes through history The transformation of houses into homes she argues was not a private matter but an essential ingredient in the rise of capitalism and the birth of the Industrial Revolution Without home the modern world as we know it would not exist and as Flanders charts the development of ordinary household objects from cutlery chairs and curtains to fitted kitchens plumbing and windows she also peels back the myths that surround some of our most basic assumptions including our entire notion of what it is that makes a family As full of fascinating detail as her previous bestsellers The Making of Home is also a book teeming with original and provocative ideas [Log Home Living](#) ,2003-05 Log Home Living is the oldest largest and most widely distributed and read publication reaching log home enthusiasts For 21 years Log Home Living has presented the log home lifestyle through striking editorial photographic
